Definitions

The following definitions are included to provide a uniform fundamental understanding of a particular criminal offense or key item as it relates to completion of the School Safety Report. Some of the definitions include actual definitions and citations from Title 18 Crime Code for further clarification.

- **Incident:** A specific act or offense involving one or more victims and one or more offenders. A reportable incident includes one or more acts of misconduct, involving one or more offenders violating criteria defined under Pennsylvania's Act 26 of 1995. These include but are not limited to any behavior that violates a school's educational mission or climate of respect or jeopardizes the intent of the school to be free of aggression against persons or property, drugs, weapons, disruptions, and disorder. Examples are incidents involving acts of violence, possession of a weapon, or the possession, use or sale of a controlled substance, alcohol, or tobacco by any person on school

property; at school-sponsored events; and on school transportation to and from school. The "Misconduct Definitions" provides a listing and definition of all reportable incidents.

- **Aggravated Assault:** An unlawful attack by one person upon another in which the offender uses a weapon or displays it in a threatening manner, or the victim suffers obvious severe or aggravated bodily injury involving apparent broken bones, loss of teeth, possible internal injury, severe lacerations, or loss of consciousness. This also includes assault with disease (as in cases when the offender is aware that he/she is infected with a deadly disease) by biting, spitting, etc.

- **Assault Resulting in Serious Injury:** An intentional physical attack causing the victim **obvious severe or aggravated** bodily injury involving (a) broken bones, loss of teeth, possible internal injuries; severe lacerations and bleeding; or loss of consciousness; and/or (b) requiring emergency medical services by trained school personnel or other health professionals (e.g. EMS) and/or hospitalization. If the offender used a weapon in an assault resulting in serious injury, report **both** Assault Resulting in Serious Injury and Assault Involving Use of a Weapon. Fights or affrays, where no weapon was used, resulting in no apparent or serious injuries are required to be reported only if the incident resulted in suspensions or expulsion for the student. Local School Board policy may require reporting of fights or affrays to law enforcement.

- **Assault Involving Use of a Weapon:** An assault by one person against another where the attacker either uses a weapon or displays a weapon in a threatening manner. Weapon is defined as: any firearm or explosive device; force-impacting device; knife or sharp-edged or sharp-pointed utensil, device or tool; or any article, instrument or substance which can or is likely to produce death or great bodily harm.

Appendix H – Staff Assignment Codes

Staff assignment codes determine staff members level of access to the Dashboard application. All users must have a valid assignment code. Each PIMS staff assignment code is mapped to a Dashboard staff classification allowing LEAs to submit their regular staff assignment files to grant access for their staff.

Each of the Ed-Fi staff classification values is also available as an assignment code in the event a staff member needs to be granted additional access beyond what their regular PIMS Staff Assignment code would provide. For example a School Counselor could be given the responsibility of managing the Intervention Catalog, which is not possible with the counselor's level of access. This person could be additionally assigned the LEA Specialist assignment (code 0009) to grant them access to manage the intervention catalog within the Dashboard.

Please note that codes 0001 – 0020 are NOT valid assignment codes for regular PIMS data collections and should be excluded from those submissions.
