

Fast Fact Suggestions

PDE recognizes it cannot provide all relevant data on the SPP website as it is limited to what local education agencies (LEA) report to the Commonwealth. Thus, while the Pennsylvania School Performance Profile home page includes Fast Facts that provide a link to the LEA website, districts/LEAs are encouraged to provide additional information and data to elaborate on its unique programs, services and context on the home page and provide a link to the Pennsylvania School Performance Profile site.

The list below is a partial list of initiatives/data/programs LEAs may choose to use to elaborate the Pennsylvania School Performance Profile information.
