

Pursuant to section 1725-A of the Charter School Law, school districts shall pay charter schools in twelve (12) equal monthly payments by the fifth day of each month within the operating school year. If a school district fails to make this statutorily-required payment, a charter school may submit to the Department of Education documentation of the estimated amounts due, and the Department shall deduct the estimated amounts from any and all State payments made to the school district.

PDE has followed a procedure, consistent with the Charter School Law, which allows the processing of deduction requests throughout the operating school year—including through June of each school year to the extent that appropriated funds are available against which to process the deduction.
