

## 2015-16 ECYEH Unique and Duplicate Counts by Entity

For the 2015-16 program year, there was a total unique count of **27,724** children and youth identified as experiencing homelessness and served by Pennsylvania’s Education for Children and Youth Experiencing Homelessness program. A served child or youth is an individual experiencing homelessness who was served in any way through McKinney-Vento Act funds. The served population includes children and youth from birth through age 21, including those who are not enrolled in school. The unique count is based on where the child or youth was identified as homeless AND attributed to the entity (shelter, early intervention, pre-K program, etc.) or LEA (school district, comprehensive technical school, or charter/cyber charter school) based on either their Pennsylvania System of School Assessment (PSSA) being attributed to that LEA or where the individual was identified or enrolled the longest. The unique count is used for SEA (state) reporting in EDFacts. The ‘where identified’ (duplicate) count is where the individual was identified as homeless; they may be identified in more than one LEA or entity. Children and youth identified by multiple entities are reported with their LEA(s), when applicable. The duplicated count is used for LEA reporting in EDFacts.
