

## Proposed PIMS Change Request Posting

**Title: Enrollment Code Revisions for 2017-18**

*PDE Program Office:* Division of Data Quality

*Purpose of collection or modification:* Modify the enrollment code set for the School Enrollment template more accurately describe student enrollment transactions and standardize codes across data platforms (PIMS, Dashboard, Local SISs). Although changes will not be implemented until at least the 2017-18 school year, this proposal is submitted now to ensure there is sufficient time to gather requirements and allow LEAS and SIS vendors make an changes necessary to use the codes to be proposed.

*Estimated Burden to LEA:* These changes will likely include some of the codes already in use in local SISs. Reporting these codes in the School Enrollment template will likely require re-mapping of SIS codes to PDE codes.

Any additional codes will result in the additional codes having to be added to the SISs, and possibly mapped to child accounting data elements in the SISs.

*Rationale:* Aligning school enrollment codes across the various platforms will result in standardization of code sets and ease the burden of reporting the same transaction in more than one way depending on the platform in which the transaction is reported.

*Impacts PIMS collection window:* This will impact all data sets using the school enrollment template: C1 October Student, C2, Special Educations, C6 Student updates, and all internal snapshots.

*New/modified data elements (related to PIMS Template):* No new data elements will be proposed.

*Interested persons are invited to submit comments to [RA-PIMSComment@state.pa.us](mailto:RA-PIMSComment@state.pa.us) on or before 05/31/2016.*
