

Clearfield County Career and Technology Center

Program Title: CCCTC NOCTI Testing Program

Goals/Objectives: To maintain/improve the high "pass" rate on the NOCTI end-of-program assessments

Description:

The following procedure is followed during the final year of each program.

- I. Purchase and administer NOCTI pretest
- II. Review of Pretest Scores
 - A. Compare to previous year cut scores
 - B. Look for areas in which all/most students had difficulties
- III. Instructor provides additional instruction in areas of need
- IV. Purchase Study Guides from NOCTI
- V. Instructor reviews study guides with students
- VI. Administration of Post Test
- VII. Review of Post Test Scores – Make sure you look at the improvement in scores from the pretest to the posttest.

Evaluation Tools & Procedures:

NOCTI Scores (pre and post tests) are used to evaluate technical skill attainment. Pretest results are reviewed to determine areas in need of review before the posttest. Posttest results show end-of-program performance, and can be used as evidence of skill gain from pre to post testing.

Results of Activity:

Our school has seen great improvement since implementing the above described testing procedures. The administration of the pretests and the use of the study guides that were developed by NOCTI have allowed our school to demonstrate high performance in the area of technical skill attainment.
