19	6	0	4			P 50e.	In the most recent IEP meeting, did the IEP team discuss whether your child could be educated satisfactorily in a general education classroom for the entire school day with supplementary aids and services?			
24	1	2	2			P 50f.	In your opinion, is your child benefiting from participation in the general education classroom?			
0	0	5	0			P 50g.	If yes, in what ways? Learning to work with others. Socializing, does well around children, is trying to keep up. Learning and making progress. Has expanded vocabulary; more talkative; around more children; is more eager to go to school. The student benefits from social and emotional interaction with peers. Observant of other students. Getting hang of all problems now with the other students. Social skills. Doing well in the class and has positive relationships with peers. Bringing home good grades and is able to keep up with the rest of the class. Benefited very much so with other students. With peers. Has difficulty focusing, but when focusing does well. Increased opportunities to develop friendships. Increased opportunities to make friends. Better preparation for future success. More support with general teacher than special education teacher, socializing more with peers. Acting more independently with peers, less behavioral issues and trying to be more focused on work. The student's emotional energy is more positive. Doing well and likes to learn. Loves school. Peer interaction. Learn from others. Being with peers is good for my child. Excited about learning and participating in class. Social skills with peers.
