I am satisfied with program. Does a great job keeping track of progress. Maybe have a trial run at making it on own ability and not automatically placed in special education. Very dedicated team, very engaged and thoughtful in goals, the energy and excitement in working with student.

						FSA 22 The LEA will implement an Improvement Plan to address decreasing disproportionality among African American students and Hispanic students. The data reviewed during the CMCI Visit in March 2020 examined representation in the 2016-2017 demographic data. Since that time, the district has worked to establish a comprehensive and robust MTSS system across all schools. This system combines intervention specialists, building administrators, school counselors, and school psychologists to examine areas of concern, recommend action plan and data collection, intervention steps and reviewing data PRIOR to referral for a comprehensive evaluation. As a result of these steps and procedures, there has been a drop in identification of black students in special education. In 2016-2017, Black students comprised 20.3% of special education enrollment while only representing 12% of the overall student population of the district. In 2019-2020, Black students comprised 15.1% of special education while representing 10.6% of the student body. Hispanic students, in 2016-2017, comprised 7.6% of special education while representing 6.5% of the student population. In 2019-2020, 9.7% of special education was comprised of hispanic students while the district enrollment was 7.7%. While there has been progress over the past four years, it appears continued work necessary to further expand and ensure students are not over represented based on race in our special education plan.	GOAL: Continue to demonstrate data reports which “close the gap” between student enrollment in special education and overall district enrollment by: 1. Provide continued training to MTSS teams at each building on over-representation by June 2021  2.As a part of the district equitable practices committee work, review current enrollment data and construct recommendations for additional training needs for staff by October 1, 2021.  3.Establish a work group with the EL teachers and school psychologists to examine “best practices” indicators for referral to special education for EL students by January 2021.  4.Provide training to MTSS teams on recommended interventions for EL prior to referral to special education by January 2022.  5.Review data with the administrative team at least annually and examine curricular, supplemental and or other resources necessary (June 2021, June 2022, June 2023).
