

### **Certification Staffing Assignment Instructional Technology Specialist**

The Instructional Technology Specialist certificate area includes the science involved in the application of knowledge and competency required for the use of instructional technology as it pertains to aiding staff/administration in educational school settings.

Grade Level Scope of Certificate:

A person holding a valid PA certificate for Instructional Technology Specialist is qualified to provide technology information to district staff and administrators at grades K through 12.

Certification Assignment:

An educator holding a valid PA certificate for Instructional Technology Specialist is qualified to provide *curricular advisement on the application of instructional technology into curricular planning and instructional design to the curriculum supervisor and other school administrative staff.*

Special Considerations:

An educator certified in this field may provide school staff development services regarding their collegial studies/skills.

*Individuals/staff providing technology services at districts that are not distinctly assigned job duties on the integration of technology into curricular planning/instructional design do not require certification.*

Restrictions:

The certified Instructional Technology Specialist is not a classroom or student instructor.
