PRINCIPAL INFORMATION

Describe the LEA’s system used to evaluate the performance of your Principals:

The form used for Principal evaluations has been designed by the President of the school and is based on the six Interstate School Leadership Consortium (ISLLC) Standards. These six standards include: Standard 1: A school administrator is an educational leader who promotes the success of students by facilitating the development, articulation, implementation, and stewardship of a vision of learning that is shared and supported by the school community. Standard 2: A school administrator is an educational leader who promotes the success of all students by advocating, nurturing, and sustaining a school culture and instructional program conducive to student learning and staff professional growth. Standard 3: A school administrator is an educational leader who promotes the success of all students by ensuring management of the organization, operations, and resources for a safe, efficient, and effective learning environment. Standard 4: A school administrator is an educational leader who promotes the success of all students by collaborating with families and community members, responding to diverse community interests and needs, and mobilizing community resources. Standard 5: A school administrator is an educational leader who promotes the success of all students by acting with integrity, fairness, and in an ethical manner. Standard 6: A school administrator is an educational leader who promotes the success of all students by understanding, responding to, and influencing the larger political, social, economic, legal, and cultural context.

Based on these six standards, principals are evaluated on a 1-5 rating with 1 meaning unsatisfactory, 3 - needs improvement, and 5 - satisfactory. Veteran Principals receive one written evaluation annually based on the entire school year. The President of the school evaluates the Principal.
