### Pennsylvania Keystone Exams

**Algebra I—Spring 2017**

#### Exam Security Reminder

- **No person is to read or view the contents of an exam at any time except the student taking the exam during the test session.**
- **If you suspect a test security violation, consult the School Assessment Coordinator or contact the Pennsylvania Department of Education (PDE) at 844-418-1651 or ra-ed-pssa-keystone@pa.gov.**

---

INTRODUCTION

This manual is to be used for the administration of the Algebra I Spring 2017 Keystone Exam. The manual provides the Test Administrator (TA) with directions that will ensure a standard assessment environment in schools throughout the Commonwealth of Pennsylvania. The administration of this exam may differ from other assessments the TA has given; therefore, Test Administrators are to become thoroughly familiar with this manual and the procedures for administering the exam before the testing window (May 15–26, 2017).

MAINTAIN EXAM SECURITY

District Assessment Coordinators (DACs), SACs, TAs, Principals, and all other individuals who are involved in this assessment program must maintain the security of all exam materials. Together, they share the responsibility for ensuring that all exam materials and student responses are handled securely, confidentially, and in accordance with security mandates and other general procedures. These include, but are not limited to, the following:

1. Except where allowed by a specific written accommodation, only students being tested are allowed to view the content of the exam materials.

2. No secure materials from the exam may be copied, photographed, or recorded in any manner.

3. Student responses must not be reviewed for accuracy or completeness by anyone other than the student.

4. Students may not review responses at any time other than during the administration of an exam module.

Each student taking the Algebra I Spring 2017 Keystone Exam will receive one test booklet and one answer booklet. These secure exam materials must never be left unattended or in open areas. Test Administrators must not be given access to the secure exam materials before the administration day; however, this manual is not considered secure exam material and should be provided to Test Administrators for review prior to the administration of the exam. The Principal or his/her designee, such as the SAC, will make arrangements for the TA to receive the exam materials on the day of the exam, immediately prior to the scheduled session, and for the immediate return of exam materials (see Part V of this document for a complete list of material) after the session. It is mandatory that school districts utilize a sign-out/sign-in sheet for distribution and collection of secure test materials. It is recommended that TAs count the number of test and answer booklets received and returned in the presence of the SAC or his/her designee.

At the end of each Algebra I Spring 2017 Keystone Exam module, all test booklets and answer booklets must be accounted for and returned to the SAC. In addition, all secure materials assigned to the TA, including any scratch/grid paper used during the exam, must be returned to the SAC immediately at the end of each session.

The Pennsylvania Keystone Exams are a measure of individual student achievement conducted by the Pennsylvania Department of Education (PDE). Any deviation from the exam procedures outlined in this manual (including, but not limited to, group work, teacher coaching, teaching or release of the performance tasks or exam questions, use of old Pennsylvania assessments as preparation tools, etc.) is strictly prohibited and is considered a violation of exam security. Those individuals who divulge exam questions, falsify student scores, or compromise the integrity of the state assessment system in any manner will be subject to professional disciplinary action under the Professional Educator Discipline Act, 24 P.S. § 2070.1a et seq, including a private reprimand, a public reprimand, a suspension of their teaching certificate(s), a revocation of their teaching certificate(s), and/or a suspension or prohibition from being employed by a charter school. In this regard, an educator is any individual who holds public or private academic school certification and all charter and cyber charter school staff members and contracted educational providers who would be required to hold certification if they served in a traditional public school.

---

1 This prohibition does not include the use of the Keystone Item and Scoring Samplers available on PDE’s website.
For more information regarding guidelines to ensure that the integrity of the exam remains above reproach, see the Handbook for Secure Test Administration. This handbook is Appendix A of this manual and can be found in the Keystone Exams Handbook for Assessment Coordinators.

Every TA/Proctor involved in the administration of any Keystone Exam must sign and date a Keystone Exam Security Certification (Test Administrator and Proctor). This certification must be signed and dated after completing administration of all Keystone Exams to which the Keystone Test Administrator/Proctor has been assigned. The Test Security Certification certifies that all security measures for the Keystone Exams were maintained, including, but not limited to:

a. following test security regulations and procedures,
b. handling secure assessment materials appropriately, and
c. maintaining confidentiality of information contained within secure assessment materials.

A copy of the Keystone Exam Security Certification (Test Administrator and Proctor) is provided in Appendix C and in the Keystone Exams Handbook for Assessment Coordinators. Prior to the administration of the exam, the SAC will distribute copies of this certification to all Test Administrators and Proctors involved in the administration of this Keystone Exam. Prior to receiving any exam materials or participating in the administration of the Keystone Exams in any way, the TA must read and understand the Keystone Exam Security Certification (Test Administrator and Proctor). Upon completion of the exam administration, the form must be signed, dated, and returned to the SAC.

**FOLLOW THE EXAM SCHEDULE SET BY THE SCHOOL ASSESSMENT COORDINATOR**

The Algebra I Spring 2017 Keystone Exam must be administered within the PDE-designated exam window on the dates assigned. Appropriate exam conditions optimize accuracy of the performance. The exam should be given in a regular classroom setting if possible. Other settings may be used according to needs and available facilities. However, exam situations created to dishonestly inflate assessment scores are a violation of exam-security practices.

The Algebra I Spring 2017 Keystone Exam consists of two modules, and each module must be scheduled as a separate exam session. Since the Keystone Exams are untimed, there may be instances in which the actual testing times take longer than the recommended testing times. Exam modules must not be scheduled back-to-back in the morning (or in the afternoon). Instead, the exam modules must be divided across two days or divided across the morning and afternoon of the same day. The SAC must discuss the schedule with the Test Administrators at least one week prior to the exam dates. Please note that each module in this exam is designed to be completed in the same amount of administration time. See Part II: Exam Timing for more information on administration time and testing time.

**ADVANCE CONSIDERATIONS FOR EXAM ADMINISTRATION**

The procedures listed below must be followed before administering the Algebra I Spring 2017 Keystone Exam. This exam includes procedures that students may not have encountered before.

1. The SAC will receive a Keystone Exams Handbook for Assessment Coordinators that provides additional, detailed information about the exam. That document is posted on these portals:
   a. [https://pa.drcedirect.com](https://pa.drcedirect.com) [Click on ‘All Applications.’ Then click on ‘Documents’ under the ‘General Information’ tab.]
   b. [www.education.pa.gov](http://www.education.pa.gov) [Roll over K-12 in the dark blue bar across the top of the page. Select ‘Assessment and Accountability.’ Then click on the link that reads ‘Continue to Keystone Exams Information’ under the paragraph titled “Keystone Exams.”]
2. The entire Algebra I Spring 2017 Keystone Exam Directions for Administration Manual (this document) must be read in advance in order to become familiar with the procedures for administering the exam. Prior to the exam administration, the TA must do the following:
   a. Become familiar with the exam schedule and the procedures for allowing extended exam time.
   b. Follow the directions of the SAC and the directions in this manual for maintaining exam security.
   c. Plan sufficient time for distribution and collection of materials.
   d. Plan to arrange student seating to prevent student interaction during the exam sessions.

3. Student Precode Labels are supplied for most students; however, if any student does not have a Student Precode Label, a District/School Label must be used:
   a. Prior to the start of the exam, fill in the student’s name in the boxes on page 1 (cover) of the answer booklet.
   b. Prior to the start of the exam, complete the applicable portions on page 2 of the answer booklet.
   c. Contact the SAC for further direction on barcode labels.

4. Prior to the assessment, ensure that all answer booklets have a barcode label affixed. For those booklets that have a district/school barcode label, rather than a student-specific barcode label, ensure that the SAC or his/her designee has bubbled in all appropriate information on pages 1 and 2 (see “Directions for Barcode [District/School or Student Precode] Labels” on page 12 of this document).
   a. Review and understand the Keystone Exam Security Certification (Test Administrator and Proctor), Appendix C (contact your SAC if you need more information).
   b. Be aware of available and approved test accommodations (“Test Administrator transcribed student responses,” “Extended time,” etc.) that are outlined in the current PSSA and Keystone Accommodations Guidelines and in the current Accommodations Guidelines for English Language Learners. These documents are posted on these portals:
      - https://pa.drcedirect.com [Click on ‘All Applications.’ Then click on ‘Documents’ under the ‘General Information’ tab.]
      - www.education.pa.gov [Roll over K-12 in the dark blue bar across the top of the page. Select ‘Assessment and Accountability.’ Then click on the link that reads ‘Continue to Keystone Exams Information’ under the paragraph titled “Keystone Exams.”]

   **Note:** For the Algebra I Spring 2017 Keystone Exam, any student, regardless of IEP status, may have a word, phrase, or test item read aloud upon request. If the student has a documented need for more than an occasional word, phrase, or test item to be read aloud, school personnel must bubble “Some test items/questions read aloud” under “Student used the following Presentation Accommodations” on page 3 of the student’s answer booklet. However, it is only appropriate to read all test items aloud if this practice is documented as an accommodation. If reading the entire exam is used as an accommodation, school personnel must bubble “All test items/questions read aloud” under “Student used the following Presentation Accommodations” on page 3 of the student’s answer booklet.

5. This exam includes multiple test forms. A form number is on the front cover of each test booklet and each answer booklet. Students must use a test booklet and an answer booklet with the same form number designation.

6. **If a test security violation is suspected, contact the SAC or the Pennsylvania Department of Education at ra-ed-pssa-keystone@pa.gov or 844-418-1651 immediately. If you believe the SAC may have involvement in the violation, immediately contact the Pennsylvania Department of Education directly at ra-ed-pssa-keystone@pa.gov or 844-418-1651.**
PREPARE THE STUDENTS FOR THE EXAM

1. Inform students in advance of the schedule for the exam sessions, as communicated by the SAC or his/her designee.

2. Students are not permitted to have cell phones, cameras, smartwatches, or any other unapproved electronic devices in their possession during the administration of the exam. Students must be informed of this policy in advance and be encouraged to leave such items at home on exam days. The TA must collect all such devices prior to distributing assessment materials.

3. PDE encourages school districts and schools to inform students before testing begins of the locally determined ramifications/sanctions for student misconduct during the Keystone Exams. This includes, but is not limited to, discipline associated with cheating, sharing, and/or reproduction of test content.

4. Discuss the Code of Conduct for Test Takers, Appendix B of this manual and found in the Keystone Exams Handbook for Assessment Coordinators, with all students prior to the scheduled exam time. It is essential that students understand the importance of each point in the Code of Conduct for Test Takers before testing begins. Prior to the administration, students must indicate that they understand the Code of Conduct for Test Takers that their TA has reviewed with them. Test Administrators should answer any questions that students have to ensure that all students understand this code of conduct. Students should be assured that they may discuss the testing process or issues of concern with their parents/guardians.

5. Students may not use a dictionary or a thesaurus for any part of this exam. Note: an exception is for English Language Learners (ELL) taking any portion of the exam. They may use word-to-word bilingual/translation dictionaries that translate native language to English or English to native language. Bilingual/translation dictionaries that include word definitions or pictures are not allowed. If using this accommodation, school personnel must bubble “Translation dictionary for ELL student” under “Student used the following Response Accommodations” on page 3 of the student’s answer booklet.

6. Students must use a No. 2 pencil; an ink pen may not be used.

7. Students may highlight, underline, and make notes or comments in the test booklet, but they must record their answers in the answer booklet. They may also use scratch/grid paper. All scratch/grid paper must be collected and returned to the SAC. Students must not use highlighters on the answer bubbles.

8. Students should not make any extraneous marks on or near the answer bubbles (e.g., crossing out answers believed to be incorrect or marking multiple answers thought to be correct) but should only mark their final response in the answer booklet.

9. The Algebra I Spring 2017 Keystone Exam includes questions that require students to select from four possible answer choices. These multiple-choice questions and answer choices are found in the test booklet. Students will read each question and record their answer in the space provided in their answer booklet only. Answers written or marked in the test booklet will not be scored. The Algebra I Spring 2017 Keystone Exam includes questions that require students to write a response. These questions appear in the answer booklet only. Students will read each question and write their responses in the spaces provided in the answer booklet only. Answers written in the test booklet or on scratch/grid paper will not be scored.
10. Students may use calculators for the Algebra I Spring 2017 Keystone Exam. Scientific and graphing calculators may be used. **Note: Students may not share calculators during the exam.** For more information, see the Pennsylvania Calculator Policy, Appendix D of this manual. This document is also posted on these portals:

https://pa.drcedirect.com [Click on ‘All Applications.’ Then click on ‘Documents’ under the ‘General Information’ tab.]

www.education.pa.gov [Roll over K-12 in the dark blue bar across the top of the page. Select ‘Assessment and Accountability.’ Then click on the link that reads ‘Continue to Keystone Exams Information’ under the paragraph titled “Keystone Exams.”]

<table>
<thead>
<tr>
<th>Students are permitted to</th>
<th>Students are NOT permitted to</th>
</tr>
</thead>
<tbody>
<tr>
<td>• use scratch/grid paper. (Students may use it to create their own graphic organizers, etc., during the exam.)</td>
<td>• use preprinted graphic organizers.</td>
</tr>
<tr>
<td>• highlight, underline, and make notes or comments in the test booklet. (Students should not use highlighters to mark the answer bubbles.)</td>
<td>• possess or use unapproved devices, including cell phones, smartphones, smartwatches, cameras, any type of computer, or any mobile device with a camera and/or Internet access (e.g., tablets, MP3 players, gaming systems, entertainment devices) at any time during the exam.</td>
</tr>
<tr>
<td>• use a calculator on the exam in accordance with the Pennsylvania Calculator Policy (see Appendix D).</td>
<td>• possess or use dictionaries (with the exception of ELL students), thesauri, and spell- or grammar-checkers when responding to any part of the exam.</td>
</tr>
</tbody>
</table>

**PREPARE THE CLASSROOM FOR THE EXAM**

Good organization of exam materials and well-executed procedures will make the administration of the exam proceed smoothly.

Remove or cover with opaque material all classroom instructional materials or any other materials that may affect the validity of the Algebra I Spring 2017 Keystone Exam.

**DO NOT DISPLAY:**

1. mathematics terms and/or definitions
2. mathematics rules and properties
3. examples of problems and answers
4. multiplication tables
5. instructions on how to use a calculator
6. illustrations or drawings of geometric shapes, algorithms, algebraic equations, graphs, number lines, etc.

**Note:** This is not an exhaustive list. These are general examples of what is not permitted. Any materials that may contain content that could be tested must be removed or covered.

The General Description of Scoring Guidelines used for Algebra I constructed-response questions may be displayed in the classroom. (Each student test booklet contains a copy of the general scoring guidelines for personal use.) This document is also posted on these portals:

https://pa.drcedirect.com [Click on ‘All Applications.’ Then click on ‘Documents’ under the ‘General Information’ tab.]

www.education.pa.gov [Roll over K-12 in the dark blue bar across the top of the page. Select ‘Assessment and Accountability.’ Then click on the link that reads ‘Continue to Keystone Exams Information’ under the paragraph titled “Keystone Exams.”]
Student seating must be arranged to prevent student interaction during the exam sessions. A quiet, calm atmosphere is conducive to concentration on the exam. Disturbances must be kept to a minimum during the exam sessions. Posting a “Testing—Do Not Disturb” sign on the door(s) to the classroom indicates that an exam is in session. Students should not be permitted to sharpen pencils during the exam sessions. Each student should have at least two sharpened No. 2 pencils with good erasers and some scratch/grid paper. Extra sharpened pencils must be available for the students.

REQUIRED EXAM MATERIALS

The SAC will provide the TA with the appropriate exam materials on each administration day. After each module, exam materials must be returned immediately to the SAC for secure, overnight storage. Note: Every answer booklet has a unique security number and barcode printed on the back cover. These security numbers should be used to track the distribution and collection of secure exam materials. All secure exam materials assigned to a school must be accounted for and returned to Data Recognition Corporation (DRC).

INVENTORY THE EXAM MATERIALS

The person administering the assessment should have:

1. One Algebra I Spring 2017 Keystone Exam Directions for Administration Manual (this document)
2. “Testing—Do Not Disturb” sign(s) to hang on the classroom door(s)
3. Extra sharpened pencils for students to use

Each student tested should have:

1. One Algebra I Spring 2017 Keystone Exam Test Booklet (There are twenty [20] different forms labeled 01 through 20. Students must use an answer booklet and test booklet with the same form number designation.)
2. One Algebra I Spring 2017 Keystone Exam Answer Booklet with a Student Precode Label or a District/School Barcode Label
3. Two sharpened No. 2 pencils with good erasers
4. Scratch/grid paper for each module
5. Algebra I Formula Sheet
6. One calculator (Scientific and graphing calculators may be used) (The school or the students may provide the calculators.) For more information, see the Pennsylvania Calculator Policy in Appendix D of this manual. This document is also posted on these portals:

   https://pa.drcedirect.com  [Click on ‘All Applications.’ Then click on ‘Documents’ under the ‘General Information’ tab.]

   www.education.pa.gov [Roll over K-12 in the dark blue bar across the top of the page. Select ‘Assessment and Accountability.’ Then click on the link that reads ‘Continue to Keystone Exams Information’ under the paragraph titled “Keystone Exams.”]

**DAMAGED EXAM BOOKLETS**

If a student receives an Algebra I Spring 2017 Keystone Exam Answer Booklet with damaged or missing pages, replace it with an answer booklet of the same form number and allow the student to continue working. If the student has already begun one or both modules of the exam, the student should start working in the new answer booklet at the point where the defect was discovered and use the new answer booklet for the remainder of the exam. After the assessment has been completed, the SAC or his/her designee must transcribe verbatim, in the presence of a professional staff member who will be required to sign the appropriate Keystone Exam Security Certification form, all of the student’s previous responses into the undamaged answer booklet. On the new booklet, the SAC or his/her designee must affix a District/School Label. The student’s name, as it appears on the Student Precode Label, should be placed in the grid on the front cover of this new booklet with the circles filled in. Applicable portions of page 2 of the booklet should also be completed. Do not insert pages from one answer booklet into another. Multiple documents for one student and loose pages will not be scored.

The SAC should write “DEFECTIVE” on the damaged answer booklet and apply a “Do Not Score” label over the existing label on the front cover of the damaged booklet and return the damaged booklet to DRC.

**TEST MANAGEMENT CONCERNS**

Some circumstances during testing require that the TA consult the SAC or contact the DAC. These instances include, but are not limited to, the following:

1. a student cheating
2. text security violation
3. improper test administration
4. student illness (during testing)
PART II: EXAM TIMING

GENERAL ORGANIZATION OF THE EXAM

The Algebra I Spring 2017 Keystone Exam consists of two modules, and each module must be scheduled as a separate exam session. The SAC must discuss the schedule with the TA at least one week prior to the exam dates. Enough time must be scheduled for the preparation of the classroom. Each module in the Algebra I Spring 2017 Keystone Exam is designed to be completed in the same amount of administration time. The following administration times are estimates and are supplied for scheduling purposes only.

<table>
<thead>
<tr>

CODE OF CONDUCT FOR TEST TAKERS

The Code of Conduct for Test Takers (Appendix B) provides students with guidelines that students should follow before, during, and after each exam. This code of conduct must be reviewed with all students in advance of the testing day. Prior to taking the exam, students will be asked to indicate that they understand the Code of Conduct for Test Takers that has been reviewed with them by their TA (or other school employee). Students should be assured that they may discuss the testing process or issues of concern with their parents/guardians. It is important that the Code of Conduct for Test Takers be reviewed with all students and all questions are answered such that all students understand each point in this code of conduct before the testing day.

COMMUNICATE EXAM INFORMATION

During the exam, students are to respond to a specific set of questions. The following Algebra I Spring 2017 Keystone Exam information must be posted on a chalkboard, dry-erase board, or other easily visible medium during each individual module testing session. Only information about the current exam module (test session) should be posted.

```
Algebra I Module 1
Exam Questions 1–27
Test Booklet
Start on page 6
Answer Booklet
Start on page 5

Algebra I Module 2
Exam Questions 1–27
Test Booklet
Start on page 22
Answer Booklet
Start on page 17
```

In addition, the following statement must be posted on the chalkboard, dry-erase board, or other easily visible medium.

Go back to make sure you have answered each question before closing your test booklet and answer booklet.
EXTENDED EXAM TIME

The Algebra I Spring 2017 Keystone Exam is an untimed assessment. Not all students will finish the exam at the same time. Students should not feel rushed while they are taking the exam, and no student should be penalized because he or she works slowly. It is equally important, however, to encourage students to work in a timely manner to finish the exam. Students should close their test booklets and answer booklets when they have finished the module of the exam that they have been assigned. Students should keep scratch/grid paper and all other paper on which they have written separate from their booklets. TAs must collect exam materials, including scratch/grid paper, when students are finished testing rather than keeping the exam materials closed on the students’ desks.

1. Students who finish early may sit quietly or read for pleasure until all students have finished the exam.

2. Students with special requirements and/or disabilities (i.e., physical, visual, auditory, or learning disabilities as defined by their IEP or service contracts) and students who just work slowly may require an extended time setting. Special exam situations should be arranged for these students.

3. When all students have indicated they have finished an exam module, end the testing session. Students should then return to regular activities.

4. Any student may request extended time if they indicate they have not completed an exam module. Such requests should be granted if the TA finds the request to be educationally valid. Not permitting ample time for students to complete the exam module may impact performance.

5. TAs should use professional judgment to determine when the exam session should end and when students who have not finished should be provided an extended time setting.

As a general guideline, the exam session should be ended when all the students indicate they have finished an exam module. All students should complete a module within a school day, and modules must be scheduled so that there is enough time to complete the module within the school day.

When allowing extended time for an exam session for a portion of the student population:

1. Do not allow students to attend a lunch period with other students if the lunch period occurs between the original exam session and the extended exam session.

2. Do not allow students to attend any classes or related activities between the original exam session and the extended exam session.

3. Do not allow any overnight extensions.

4. Do not allow students to return to a module after the completion of that module.

Do not allow the extended exam session to be administered without monitoring. It is the responsibility of a TA to monitor any extended exam session, whether in the classroom where the exam was begun or in a separate location.
EXAM ADMINISTRATION REMINDERS

It is important to use standardized exam procedures to maintain fairness for all students. Following the exam administration instructions carefully ensures that all students are tested under similar conditions in all classrooms.

Before exam administration:
1. Be sure each student has the correct test booklet and answer booklet.
2. Be sure students understand where and how to mark or write their answers.
3. Follow the directions of the SAC for maintaining exam security.
4. Help students approach the exam in a positive manner.
5. Read and understand the Handbook for Secure Test Administration (Appendix A). This document is also posted on these portals:
   a. https://pa.drcedirect.com [Click on ‘All Applications’. Then click on ‘Documents’ under the ‘General Information’ tab.]
   b. www.education.pa.gov [Roll over K-12 in the dark blue bar across the top of the page. Select ‘Assessment and Accountability’. Then click on the link that reads ‘Continue to Keystone Exams Information’ under the paragraph titled ‘Keystone Exams’.]

During exam administration:
1. Follow the directions of the SAC for maintaining exam security.
2. Encourage students to keep trying.
3. Clarify directions for students needing clarification. The Keystone Exam Directions are provided in Appendix E of this manual. They may be repeated to students as needed during the administration; however, the TA may not paraphrase or offer additional information and may not give information that provides clues concerning exam questions or answer choices.

- In this Keystone Exam, the presentation of and specific exam questions vary from one form to another. This variation is an intentional element of the Keystone Exams. Questions from students about directions may require form-specific responses from the Test Administrator.

- For the remainder of this manual, indented text in bold type is to be read aloud to students exactly as written. All other text is information for the Test Administrator.

When ready to start the exam, the TA should begin with the next section found on the next page of this manual.
START THE EXAM

Make sure that all students have two sharpened No. 2 pencils with good erasers. Make sure that no student is in possession of a cell phone, camera, smartwatch, or other unapproved electronic device. Collect all unapproved electronic devices prior to distributing any exam materials. First distribute test booklets with front covers facing up; second distribute answer booklets with front covers facing up.

Answer booklets must have a Student Precode Label or a School/District Label if the Student Precode Label is not available.

Note: A form number is on the front cover of each test booklet and each answer booklet. There are twenty (20) different forms labeled 01 through 20. Make certain that the form number on each test booklet matches the form number on the answer booklet distributed to each student.

Say:

Welcome to the Pennsylvania Keystone Exams. Each of you should have an Algebra I Spring 2017 Keystone Exam Test Booklet and Answer Booklet. Do not open your test booklet or answer booklet until I tell you to do so.

Look at the front covers of the two booklets. In the upper right-hand corner of the test booklet, there is a number from 01 through 20. Make sure that this number is the same as the number shown in the upper left-hand corner of the answer booklet. If the number in the box on your answer booklet is not the same, raise your hand, and I will give you a new test booklet.

Check to see that each student has the correct test booklet and answer booklet. Correct any errors in booklet distribution. When all students are ready, say:

Look at the front cover page of your test booklet. Print your full, legal name on the line provided at the top of the page.

Pause while students print their names on the line on the cover of their test booklets. The student’s name on the front of the test booklet ensures accurate distribution of the correct test booklet to each student at the beginning of each exam session. Make certain that all students have recorded their names correctly. When students are ready, continue with the next section found on the next page of this manual.
DIRECTIONS FOR BARCODE (DISTRICT/SCHOOL OR STUDENT PRECODE) LABELS

Say:

Look at the front cover of your answer booklet. In the lower left-hand corner is a barcode label. Check to see if the barcode label has a colored stripe on it.

If the barcode label DOES NOT have a colored stripe, do nothing more at this time.

If the barcode label DOES have a colored stripe, check to make sure that your full name is printed in the boxes near the top of the cover page of your answer booklet.

If the barcode label DOES have a colored stripe and your name IS NOT printed in the boxes, you must print your name now. Print your last name in the boxes below the words “STUDENT’S LAST NAME.” Start at the left and print one letter in each box. Print as many letters of your last name as will fit in the number of boxes provided. All letters of your last name may not fit in the boxes provided.

Pause while students fill in their last names. Note: If any barcode label has an error on it, please contact the SAC. See page 3 and page 21 of this document for more information on what to do if a student does not have a Student Precode Label. When all students are ready, say:

Now that you have printed your last name, find the words “STUDENT’S FIRST NAME” and print each letter of your first name. You must print your full, legal first name. Please do not print a nickname or a shortened first name. Print as many letters of your first name as will fit in the number of boxes provided. All letters of your first name may not fit in the boxes provided.

Pause while students fill in their first names. When all students are ready, say:

Now that you have printed your first name, find the box below the letters “MI.” Print the first letter of your middle name in this box. If you have no middle initial, leave it blank.

Are there any questions?

Answer all questions and then say to the entire class:

If your name is printed in the boxes, whether it was printed for you or you have just printed it, you must now go back to the first letter of your last name. Find the circle below the box that has the same letter as the one printed in the box. Darken the circle for that letter. Now darken the remaining circles for each letter of your last name. Then, darken the circles for each letter of your first name and the first letter of your middle name.

Walk around the room to check that students are filling in the circles correctly. Please note that students do not need to darken the blank circle beneath blank boxes unless a space is within a student’s name (as in “Mary Lou”) or if a student has no middle initial. If a student has more than one middle name, use the first middle name. Use a hyphen to separate hyphenated names. When all students have completed this task, say:

Are there any questions?

Answer all questions. Then say:

In the bottom right-hand corner of your answer booklet is a box labeled “CODE OF CONDUCT.” Read the statement inside this box silently as I read it aloud. “By marking this bubble, I verify that I understand the Code of Conduct for Test Takers that my Test Administrator has reviewed with me.” If you understand the Code of Conduct for Test Takers, darken the circle inside the box now. If you have questions about the Code of Conduct for Test Takers, raise your hand.

Answer student questions until all understand the Code of Conduct for Test Takers and darken the circle inside the box. (The Code of Conduct for Test Takers is Appendix B of this manual.) When students are ready, continue with the next section found on the next page of this manual.
ADMINISTER THE ALGEBRA I EXAM—MODULE 1

When all students are ready, say:

I will now distribute scratch/grid paper and the formula sheet to be used with this module of the Algebra I Spring 2017 Keystone Exam.

Distribute scratch/grid paper and the formula sheet. When all students are ready, say:

You may use the formula sheet at any time while taking this test. Do not write on the formula sheet, as you will use it for another section of the test. Now we are ready to begin Algebra I—Module 1. Carefully follow the directions, and give this exam your best effort. Open your test booklet to page 2. In the middle of the page is a box labeled “ATTENTION.” Read the paragraph inside this box now.

Pause for students to read the paragraph. Then say:

Are there any questions about this paragraph or the formula sheet?

Answer all questions. When all students are ready, say:

Turn to page 4 in your test booklet. Fold your test booklet back so that only page 4 is showing.

Pause while students find the correct page in their test booklets. Make sure all students have folded their test booklets back so that only page 4 is showing. When all students are ready, say:

Look at the directions on page 4. Read the directions silently as I read them aloud.

On the following pages of this test booklet are the Keystone Algebra I Exam questions for Module 1.

You may use a calculator on this module. When performing operations with π (pi), you may use either calculator π or the number 3.14.

Are there any questions?

Answer all questions. When all students are ready, say:

Continue to read the directions on page 4 silently as I read them aloud.

There are two types of questions in each module.

Multiple-Choice Questions

These questions will ask you to select an answer from among four choices.

• First read the question and solve the problem on scratch paper. Then choose the correct answer.
• Only one of the answers provided is correct.
• If none of the choices matches your answer, go back and check your work for possible errors.
• Record your answer in the Algebra I answer booklet.

Are there any questions?
PART III: Directions for Administering Module 1

Answer all questions. When all students are ready, say:

Continue to read the directions on page 4 silently as I read them aloud.

Constructed-Response Questions

These questions will require you to write your response.

• These questions have more than one part. Be sure to read the directions carefully.
• You cannot receive the highest score for a constructed-response question without completing all the tasks in the question.
• If the question asks you to show your work or explain your reasoning, be sure to show your work or explain your reasoning. However, not all questions will require that you show your work or explain your reasoning. If the question does not require that you show your work or explain your reasoning, you may use the space provided for your work or reasoning, but the work or reasoning will not be scored.
• All responses must be written in the appropriate location within the response box in the Algebra I answer booklet. Some answers may require graphing, plotting, labeling, drawing, or shading. If you use scratch paper to write your draft, be sure to transfer your final response to the Algebra I answer booklet.

Are there any questions?

Answer all questions. When all students are ready, say:

Continue to read the directions on page 4 silently as I read them aloud.

If you finish early, you may check your work in Module 1 only.
• Do not look ahead at the questions in Module 2 of your exam materials.
• After you have checked your work, close your exam materials.

You may refer to this page at any time during this portion of the exam.

Are there any questions?

Answer all questions. When all students are ready, say:

Now turn to page 5 of your test booklet.

Pause while students turn to the correct page in their test booklet. When all students are ready, say:

On page 5 of your test booklet is the General Description of Scoring Guidelines for use with Algebra I constructed-response questions. This is an example of the scoring guidelines that professional scorers will use to evaluate your responses to constructed-response questions for Algebra I. You may refer to these scoring guidelines at any time while responding to a constructed-response question for Algebra I.

Are there any questions?
PART III: Directions for Administering Module 1

Answer all questions. When all students are ready, say:

We are now ready to start Module 1. Turn to page 6 in your test booklet and page 5 in your answer booklet. Look at the “GO ON” arrow on the bottom of each page. The “GO ON” arrow indicates that you are not yet finished with Module 1 and you are to continue on to the next page. Follow all “GO ON” arrows and directions that tell you which questions are in your test booklet and which questions are in the Module 1 section of your answer booklet. At the end of Module 1, you will see a “STOP” sign in your test booklet and a “STOP” sign in your answer booklet. Make sure you continue to respond to questions until you see the “STOP” sign in both your test booklet and your answer booklet.

Remember to complete questions 1 through 27 in Module 1 and to mark only one correct answer for each question in the Module 1 section of your answer booklet. Make sure that you have completely erased wherever you have changed an answer or made a stray mark in the Module 1 section of your answer booklet. Then close your answer booklet and place it inside your test booklet so I will know you have finished. I will collect your exam materials when you finish. You may read or sit quietly until the rest of the class completes Module 1. Are there any questions?

Answer all questions. When all students are ready, say:

You may begin.

While students are taking the exam, be available to clarify exam directions and encourage the group of students. Do not give any individual or group help that might suggest the correct answer to a question. Do not communicate to a student that the student should “check” an answer or that the student has answered an item incorrectly. You may, however, provide clarification of exam directions to the group of students. The Exam Directions are in Appendix E of this manual. They may be repeated to the group of students as needed during the administration.

Encourage the group of students to try all of the tasks (questions) and to complete the exam. An incorrect answer is scored the same as a blank answer.

The testing time for this module is estimated to be 75 minutes, but the actual administration time may vary. Collect exam materials, including scratch/grid paper any other paper on which the students have written, and the formula sheet, as each student finishes the test module rather than keeping booklets closed on the students’ desks. End the session when most students have completed the section and you are nearing the end of the scheduled time. Since each student is to be provided sufficient time to finish the exam, additional time may be allowed on an individual basis if one or more students are continuing to make reasonable progress on the exam. For more information about Extended Exam Time, see Part II of this document. When you have confirmed that approximately five minutes remain in the exam time for the group not yet finished with this exam module, say:

This session will end in about five minutes. Make sure that you have completely erased wherever you have changed an answer or made a stray mark in the Module 1 section of your answer booklet. If you need additional time to complete this section, raise your hand, and you will be provided with extra time and given additional directions.

Allow time for students to erase wherever necessary. When all students are ready, say:

Close your test booklet and answer booklet.

You will use the same booklets for Module 2, so make sure your name is on the front cover of each booklet. Place your answer booklet inside the test booklet. I will now collect your scratch/grid paper, any other paper on which you have written, and the formula sheet.

Used scratch/grid paper and any other paper on which students have written must be returned to the SAC and kept in a secure location until it can be destroyed.
1. If you are administering Module 2 later in the same day, say:
   **You are going to take Module 2 later today, so I will now collect your test booklet and answer booklet. They will be returned to you at that time.**

2. If you are administering Module 2 on a different day **[you may specify the day]**, say:
   **You are going to take Module 2 on [a different day or say the name of the day], so I will now collect your test booklet and answer booklet. They will be returned to you at that time.**

Collect the booklets in a systematic fashion, making sure that answer booklets have been placed inside the test booklets and that each student’s name is on his or her test booklet. All calculators used during the exam must be cleared of any information entered during this module. **Note:** If students used school-provided calculators, also collect the calculators.

Return all materials (test booklets, answer booklets, formula sheets, used scratch/grid paper, and any other paper on which students have written) immediately to the SAC for secure storage. **Note:** Do NOT review student responses to test questions for completeness or accuracy. Do NOT review answer booklets for stray marks.
ADMINISTER THE ALGEBRA I EXAM—MODULE 2

Make sure all students have two sharpened No. 2 pencils with good erasers. Make sure that no student is in possession of a cell phone, camera, smartwatch, or other unapproved electronic device. Collect all unapproved electronic devices prior to distributing any exam materials. Distribute booklets to students, making certain each student has the correct booklets.

Say:

Check to make sure that your name is on the front cover of both the test booklet and the answer booklet.

When all students are ready, say:

I will now distribute scratch/grid paper and the formula sheet to be used with this module of the Algebra I Spring 2017 Keystone Exam.

Distribute scratch/grid paper and the formula sheet. When all students are ready, say:

You may use the formula sheet at any time while taking this test. Do not write on the formula sheet. Now we are ready to begin Algebra I—Module 2. Carefully follow the directions, and give this exam your best effort. Open your test booklet to page 2. In the middle of the page is a box labeled “ATTENTION.” Read the paragraph inside this box now.

Pause for students to read the paragraph. Then say:

Are there any questions about this paragraph or the formula sheet?

Answer all questions. When all students are ready, say:

Turn to page 20 in your test booklet. Fold your test booklet back so that only page 20 is showing.

Pause while students find the correct page in their test booklets. Make sure all students have folded their test booklets back so that only page 20 is showing. When all students are ready, say:

Look at the directions on page 20. Read the directions silently as I read them aloud.

On the following pages of this test booklet are the Keystone Algebra I Exam questions for Module 2.

You may use a calculator on this module. When performing operations with π (pi), you may use either calculator π or the number 3.14.

Are there any questions?

Answer all questions. When all students are ready, say:

Continue to read the directions on page 20 silently as I read them aloud.

There are two types of questions in each module.

Multiple-Choice Questions

These questions will ask you to select an answer from among four choices.

• First read the question and solve the problem on scratch paper. Then choose the correct answer.
• Only one of the answers provided is correct.
• If none of the choices matches your answer, go back and check your work for possible errors.
• Record your answer in the Algebra I answer booklet.
PART IV: DIRECTIONS FOR ADMINISTERING MODULE 2

Say:

Are there any questions?

Answer all questions. When all students are ready, say:

Continue to read the directions on page 20 silently as I read them aloud.

Constructed-Response Questions

These questions will require you to write your response.

- These questions have more than one part. Be sure to read the directions carefully.
- You cannot receive the highest score for a constructed-response question without completing all the tasks in the question.
- If the question asks you to show your work or explain your reasoning, be sure to show your work or explain your reasoning. However, not all questions will require that you show your work or explain your reasoning. If the question does not require that you show your work or explain your reasoning, you may use the space provided for your work or reasoning, but the work or reasoning will not be scored.
- All responses must be written in the appropriate location within the response box in the Algebra I answer booklet. Some answers may require graphing, plotting, labeling, drawing, or shading. If you use scratch paper to write your draft, be sure to transfer your final response to the Algebra I answer booklet.

Are there any questions?

Answer all questions. When all students are ready, say:

Continue to read the directions on page 20 silently as I read them aloud.

If you finish early, you may check your work in Module 2 only.
- Do not look back at the questions in Module 1 of your exam materials.
- After you have checked your work, close your exam materials.

You may refer to this page at any time during this portion of the exam.

Are there any questions?

Answer all questions. When all students are ready, say:

Now turn to page 21 of your test booklet.

Pause while students turn the page in their test booklet. When all students are ready, say:

On page 21 of your test booklet is the General Description of Scoring Guidelines for use with Algebra I constructed-response questions. This is an example of the scoring guidelines that professional scorers will use to evaluate your responses to constructed-response questions for Algebra I. You may refer to these scoring guidelines at any time while responding to a constructed-response question for Algebra I.

Are there any questions?
Answer all questions. When all students are ready, say:

*We are now ready to start Module 2. Turn to page 22 in your test booklet and page 17 in your answer booklet. Look at the “GO ON” arrow on the bottom of each page. The “GO ON” arrow indicates that you are not yet finished with Module 2 and you are to continue on to the next page. Follow all “GO ON” arrows and directions that tell you which questions are in your test booklet and which questions are in the Module 2 section of your answer booklet. At the end of Module 2, you will see a “STOP” sign in your test booklet and a “STOP” sign in your answer booklet. Make sure you continue to respond to questions until you see the “STOP” sign in both your test booklet and your answer booklet.*

Remember to complete questions 1 through 27 in Module 2 and to mark only one correct answer for each question in the Module 2 section of your answer booklet. Make sure that you have completely erased wherever you have changed an answer or made a stray mark in the Module 2 section of your answer booklet. Then close your answer booklet and place it inside your test booklet so I will know you have finished. I will collect your exam materials when you finish. You may read or sit quietly until the rest of the class completes Module 2. Are there any questions?

Answer all questions. When all students are ready, say:

*You may begin.*

While students are taking the exam, be available to clarify exam directions and encourage the group of students. Do not give any individual or group help that might suggest the correct answer to a question. Do not communicate to a student that the student should “check” an answer or that the student has answered an item incorrectly. You may, however, provide clarification of exam directions to the group of students. The Exam Directions are in Appendix E of this manual. They may be repeated to the group of students as needed during the administration.

Encourage the group of students to try all of the tasks (questions) and to complete the exam. An incorrect answer is scored the same as a blank answer.

The testing time for this module is estimated to be 75 minutes, but the actual administration time may vary. Collect exam materials, including scratch/grid paper any other paper on which the students have written, and the formula sheet, as each student finishes the test module rather than keeping booklets closed on the students’ desks. End the session when most students have completed the section and you are nearing the end of the scheduled time. Since each student is to be provided sufficient time to finish the exam, additional time may be allowed on an individual basis if one or more students are continuing to make reasonable progress on the exam. For more information about Extended Exam Time, see Part II of this document. When you have confirmed that approximately five minutes remain in the exam time for the group not yet finished with this exam module, say:

*This session will end in about five minutes. Make sure that you have completely erased wherever you have changed an answer or made a stray mark in the Module 2 section of your answer booklet. If you need additional time to complete this section, raise your hand, and you will be provided with extra time and given additional directions.*

Allow time for students to erase wherever necessary. When all students are ready, say:

*Close your test booklet and answer booklet.*

*Place your answer booklet inside the test booklet. I will now collect your scratch/grid paper, any other paper on which you have written, and the formula sheet.*

Used scratch/grid paper and any other paper on which students have written must be returned to the SAC and kept in a secure location until it can be destroyed. All calculators used during the exam must be cleared of any information entered during this module. **Note:** If students used school-provided calculators, also collect the calculators.
Say:

This concludes the Algebra I Spring 2017 Keystone Exam. I will now collect your test booklet and answer booklet.

Collect the booklets in a systematic fashion, making sure that answer booklets have been placed inside the test booklets and that each student’s name is on his or her test booklet.

Return all materials (test booklets, answer booklets, formula sheets, used scratch/grid paper, and any other paper on which students have written) immediately to the SAC for secure storage. **Note:** Do NOT review student responses to test questions for completeness or accuracy. Do NOT review answer booklets for stray marks.

Go on to read Part V: After Exam Administration found on the next page of this manual.
AFTER TESTING IS COMPLETE

After testing is complete:

1. Make sure student identification information is complete and correct on all students’ booklets. Make sure the name on the test booklet and the answer booklet correspond for each student.

2. Make sure each student turned in his/her answer booklet and test booklet.

3. If a student answer booklet has a barcode label with a colored stripe [a District/School Label], make sure that the SAC or his/her designee has completed the applicable portions of the front cover and page 2 of the answer booklet. (See your SAC if you have questions or require further direction.)

4. If a student used any accommodation listed on page 3 of the answer booklet during the administration of the exam, make sure that applicable portions of page 3 of the answer booklet are completed by filling in the circles. (See your SAC if you have questions or require further direction.)

5. Do not check the response pages of the answer booklet for content, accuracy, completeness, or stray marks.

RETURN MATERIALS

Exam materials must be kept secure. All materials, including any unused materials, related to the administration of this exam must be returned to the SAC.

Return all exam materials to the SAC for secure storage. This includes used and unused test booklets and answer booklets, this manual, the formula sheet, used scratch/grid paper, and any other paper on which the students have written. All exam materials must be returned to the SAC immediately at the end of the exam session.

Reminder: All used answer booklets returned to Data Recognition Corporation (DRC) for processing must have a barcode label (District/School or Student Precode or Do Not Score) affixed to the front cover of the answer booklet. Do not affix a barcode label to any unused answer booklets.

Remember: Every TA and Proctor involved in the administration of this Keystone Exam must sign and date a Keystone Exam Security Certification (Test Administrator and Proctor) form upon completing their assigned duties during the testing window. When a TA or Proctor signs and dates the Keystone Exam Security Certification, that person certifies that all security measures have been followed for this Keystone Exam administration. TAs and Proctors should return the signed and dated Keystone Exam Security Certification (Test Administrator and Proctor) form to the SAC upon completion of the last testing session.

If an exam security violation is suspected, contact the SAC or the Pennsylvania Department of Education at 844-418-1651 or ra-ed-pssa-keystone@pa.gov immediately. If you believe the SAC may have involvement in the violation, immediately contact the Pennsylvania Department of Education at 844-418-1651 or ra-ed-pssa-keystone@pa.gov.

Note: The SAC has all information on returning exam materials to Data Recognition Corporation (DRC).
Handbook for Secure Test Administration

Security Statement

State assessments rely on the measurement of individual achievement. Any deviation from procedures meant to ensure test validity and security (e.g., group work, teacher coaching, teaching or release of any test items, use of previously administered Pennsylvania assessments as preparation tools) is strictly prohibited and will be considered a violation of test security. LEA/school personnel with access to the assessment materials must not review, discuss, disseminate, or otherwise reveal the contents to anyone. (This prohibition excludes the Item and Scoring Samplers available on the Pennsylvania Department of Education's (PDE's) website.)

Any action by a professional employee or commissioned officer that is willfully designed to divulge test questions, falsify student scores, or compromise the integrity of the state assessment system will be subject to disciplinary action under the Educator Discipline Act, 24 P.S. §§ 2070.1a et seq, which may include a private reprimand, a public reprimand, a suspension of his/her teaching certificate(s), a revocation of his/her teaching certificate(s), and/or a suspension or prohibition from being employed by a charter school.

Training and Test Administration Procedures

The purpose of this handbook is to assist in the training of LEA/school personnel to properly and securely administer state assessments. This handbook is also an important and valuable resource in implementing testing successfully from planning and preparing to collecting and returning tests.

Roles and Responsibilities: Training

The District Assessment Coordinator (DAC) is responsible for attending training provided by PDE. The DAC is then responsible for coordinating all training that takes place in the LEA and for determining specifics related to test administration such as a schedule, type of administration (paper and pencil or online) and other LEA-level administrative aspects of the testing. Whereas the DAC is responsible for ALL training in the LEA, the primary training done by the DAC directly is for School Assessment Coordinators (SACs) and LEA-level staff who handle and/or have access to secure test material.

The SAC receives training from the DAC. The SAC is then responsible to oversee all aspects of test administration in a building, including training Test Administrators (TAs), proctors, and other building level staff.

The Handbook for Assessment Coordinators provides more information related to training.

Roles and Responsibilities: Test Administration

The following lists the general roles and responsibilities for DACs, SACs/Principals, TAs/Proctors, and general personnel before, during, and after test administration. The lists are not exhaustive but provide a general overview of the most important responsibilities each role has in test administration. In some cases responsibilities may overlap between or among roles. In these cases it is the responsibility of the DAC to determine who has the primary responsibility and is accountable for specific duties, especially when duties may be shared.

1. **DISTRICT ASSESSMENT COORDINATOR TEST SECURITY GUIDELINES**

General Statement: Maintain the security and integrity of all assessment materials, prevent any dishonest or fraudulent behavior in the administration and handling of the assessment, and promote a fair and equitable testing environment in order to obtain reliable and valid student scores.
Before Test Administration

Attend PDE annual trainings for the administration of the assessments, including the Accommodations Guidelines training, in order to be properly informed of the procedures to follow. This training includes understanding test security and the confidential and proprietary nature of the assessment materials.

Update eDIRECT accounts for LEA and school users.

Upload documents to the Test Administration Management System (TAMS) if participating in the online monitoring program.

Review the Handbook for Assessment Coordinators, Directions for Administration (DFA), Accommodations Guidelines, Online User Guides (if online testing) and other test-related documents necessary to conduct training for test administration.

Review the LEA’s policy/procedures for home-schooled students.

Review the LEA’s policy for handling cyber-charter schools’ requests to test their students.

Develop and maintain the LEA’s procedure for parental requests to view tests (opt-outs).

Develop and maintain the LEA’s procedure for handling emergencies during test administration.

Develop the LEA’s master test schedule (including make-ups) that falls within PDE established test windows for each administration and include it in training. Ensure that the test schedule is developed so that sections are administered in the sequence in which they are printed in the test booklets.

Develop a training agenda and train SACs and other LEA-level staff involved in test administration or the handling of secure material. (See Handbook for Assessment Coordinators for more information).

Ensure that SACs are trained on the Test Accountability and Security information contained in the Handbook for Assessment Coordinators.

Ensure that SACs are trained on the Accommodations Guidelines.

Ensure that all individuals involved in the handling of assessment materials and/or the administration of the assessment received instruction regarding test security protocols and procedures.

Ensure that any individual who will administer and/or proctor the assessment completed the online Pennsylvania State Test Administration Training (PSTAT).

Ensure that all individuals involved in the handling and/or administration of the assessment received instruction that all assessment materials, including all assessment booklets and other materials containing secure assessment questions and student responses, are to be kept secure and precisely accounted for in accordance with the procedures specified in the Handbook for Assessment Coordinators.

Ensure that SACs fully understand the policy regarding electronic devices, including cell phones.

Ensure that all individuals who assist in the administration of the assessment and all individuals who have access to the secure assessment materials have been made aware that they are not in any manner to alter or cause the alteration of any examinee response, assessment booklet, or papers used by examinees.
Communicate to students, parents, and the community what the assessment does and does not measure, when and how it will be administered, and how the results will be used. Refer to the *Handbook for Assessment Coordinators* for a sample Parent Letter.

Notify and ensure that all students and parents/guardians fully understand the policy regarding electronic devices, including cell phones.

Consider having a teacher other than the teacher-of-record administer the assessment to students. If local circumstances do not allow that option, consider assigning a Proctor to be in the classroom with the Test Administrator.

Receive and inventory tests without breaking the shrink wrap (ship-to-district). Report any items not received.

Distribute tests to School Assessment Coordinator(s) (ship-to-district).

**During Test Administration**

Visit testing sites to ensure successful administration of the assessments.

Make sure that sections/modules are started and completed in the same day.

Minimize distractions, including intercom announcements.

Immediately report testing irregularities/security breaches to the Pennsylvania Department of Education.

**After Test Administration**

Collect tests from School Assessment Coordinator(s) (ship-to-district).

Inventory, package, complete the Materials Accountability Form and return materials to vendor.

**NOTE:** District Assessment Coordinators should not open or look into answer booklets or test booklets.

Record the UPS Tracking Number for each package, noting the assessment(s) for which it was used and the content of each box. Please keep the number(s) for future reference to document the materials returned to DRC.

Failure to account for and/or return assessment materials constitutes a breach in security, the consequences of which can be severe, up to and including remuneration should it be determined loss of or misappropriation of materials has compromised the integrity of test items.

Sign the Test Security Certification (District Assessment Coordinator).

**2. SCHOOL ASSESSMENT COORDINATOR AND/OR BUILDING PRINCIPAL TEST SECURITY GUIDELINES**

General Statement: Maintain the security and integrity of all assessment materials, prevent any dishonest or fraudulent behavior in the administration and handling of the assessment, and promote a fair and equitable testing environment in order to obtain reliable and valid student scores.
Before Test Administration

Attend the annual training for School Assessment Coordinators provided by the DAC.

Review DFA's, the Handbook for Assessment Coordinators, accommodations guidelines and Online User Guides (if testing online).

Develop a building level master test schedule (including make-ups) that falls within PDE established test windows for each administration and include it in training. Ensure that the test schedule is developed so that sections are administered in the sequence in which they are printed in the test booklets.

Develop an agenda and train Test Administrators, Proctors and other building level personnel (see Handbook for Assessment Coordinators for more information).

Ensure that all individuals involved in the handling of assessment materials and/or the administration of the assessment receives instruction regarding test security protocols and procedures.

   Ensure that all TAs/Proctors receive a copy of the TA/Proctor Test Security Certification.
   
   Ensure that any individual who will administer and/or proctor the assessment completes the Pennsylvania State Test Administration Training (PSTAT). SACs should also complete this training.
   
   Ensure that all individuals involved in the handling and/or administration of the assessment receives instruction that all assessment materials, including all assessment booklets and other materials containing secure assessment questions and student responses, are to be kept secure and precisely accounted for in accordance with the procedures specified in the Handbook for Assessment Coordinators.
   
   Ensure that all TAs/Proctors fully understand the policy regarding electronic devices including cell phones.
   
   Ensure that all individuals who assist in the administration of the assessment and all individuals who have access to the secure assessment materials are made aware that they are not in any manner to alter or cause the alteration of any examinee response, assessment booklet, or papers used by examinees.

Create and maintain a PA Secure ID master list (see Handbook for Assessment Coordinators for specific instructions).

Ensure all students are scheduled for the appropriate assessment.

Ensure that students testing online have prior experience with the online practice test that models the testing mode (online) and its tools.

Maintain a contingency plan for unexpected disruptions during testing.

Ensure monitoring software (spyware) is disabled or removed from computers, iPads, and Chromebooks to be used for testing.

Ensure all instructional materials that could aid students in answering test items are covered or removed from classrooms and hallways.

Make sure the testing environment is secure and has appropriate lighting.

Know the required accommodations for each student with an IEP or 504 Service Plan and for each English
Language Learner being assessed and communicate this to the appropriate personnel.

Provide the appropriate testing environment for each student who requires an accommodation.

Inventory tests needed in “ship to district”. If additional materials are needed, notify DRC. In a “ship to school” the SAC should order additional materials, if needed. Report any mistakes immediately.

Create Test Sessions in eDIRECT (if testing online).

Put labels on test booklets (Do not open test booklets while doing this!)

Place a “Testing—Do Not Disturb” sign on doors where testing is occurring.

**During Test Administration**

Develop and maintain a procedure for distribution and collection of secure test materials to Test Administrators each day utilizing a sign-out/sign-in process. It is recommended that Test Administrators count the test booklets in the presence of the SAC or his/her designee.

Ensure that Test Administrators are following proper testing protocol.

Make sure students are supervised at all times during testing and all breaks. This supervision requirement includes those students who need additional time to complete any test session.

Make sure that sections/modules are started and completed in the same day.

Minimize distractions, including intercom announcements.

Ensure secure process and procedure for extended time. Do not allow students to move to extended time location without a TA and do not allow students to carry materials to extended time session/location.

Ensure tests are in a locked area with controlled and limited access.

Report testing irregularities/security breaches immediately to the DAC.

**After Each Testing Session**

Collect all materials from Test Administrators.

Account for all test booklets and answer booklets daily. It is recommended that Test Administrators count the test booklets in the presence of the SAC or his/her designee.

Store testing materials in a locked, secure location.

Destroy only scratch/grid paper and rough drafts.

**After Test Administration**

Inventory and return tests to the DAC (ship-to-district) or follow pack and ship procedures to return tests to DRC (ship-to-school).

 NOTE: School Assessment Coordinators should not open or look into answer booklets or test booklets.
In ship-to-school, School Assessment Coordinators should record the UPS Tracking Number for each package, noting the assessment(s) for which it was used and the content of each box. Please keep the number(s) for future reference to document the materials returned to DRC.

Failure to account for and/or return assessment materials constitutes a breach in security, the consequences of which can be severe, up to and including remuneration should it be determined loss of or misappropriation of materials has compromised the integrity of test items.

Sign the Test Security Certification (School Assessment Coordinator and Principal).

Ensure all Test Administrators, Proctors and other individuals with access to secure testing materials sign the Test Security Certification. If someone cannot or does not sign the Test Security Certification, immediately report that fact to the Department of Education.

3. TEST ADMINISTRATOR/PROCTOR TEST SECURITY GUIDELINES

General Statement: Maintain the security and integrity of all assessment materials, prevent any dishonest or fraudulent behavior in the administration and handling of the assessment, and promote a fair and equitable testing environment in order to obtain reliable and valid student scores.

Before Test Administration

Attend the annual training for TAs/proctors provided by the SAC.

Complete the PSTAT.

Review the Directions for Administration Manual for the test to be administered.

Read and understand the Test Security Certification.

Cover or remove from classrooms or hallways all instructional materials that could aid students in answering test items.

Make sure the testing environment is secure and has appropriate lighting.

Review the Code of Conduct for Test Takers with students.

Review the Calculator Policy and ensure calculators (other than calculators provided within the online testing engine) meet the requirements of the Calculator Policy.

Know and prepare to appropriately implement the required accommodations for each student with an IEP or 504 Service Plan and for each English Language Learner being assessed in your room.

Review with students the possible local sanctions the district will enforce for student misconduct (e.g., cheating and recording test questions).
During Test Administration

Collect cell phones, smartphones, and other unauthorized electronic devices as students enter the testing site.

Ensure students are seated for optimal security and at the correct workstation (online test).

Appropriately implement required accommodations.

During the administration of the mathematics assessment, collect all used scratch/grid paper after the non-calculator portion to ensure students have not recorded non-calculator items on scratch/grid paper.

Actively monitor testing.

Collect test materials when students are finished testing rather than keeping them closed on the students’ desks.

Students who finish early may sit quietly, read for pleasure, or read non-content related materials until all students have finished. Written work/drawing/coloring of any kind is prohibited to ensure students are not recording secure test content.

Immediately report testing irregularities/security breaches to the School Assessment Coordinator/Building Principal.

After Each Testing Session

Return all scratch/grid paper or rough drafts to the School Assessment Coordinator to be destroyed.

Account for all test booklets and answer booklets daily and return all secure testing materials to the School Assessment Coordinator immediately after the testing session each day. It is recommended that Test Administrators count the test booklets in the presence of the SAC or his/her designee.

Failure to account for and/or return assessment materials constitutes a breach in security, the consequences of which can be severe, up to and including remuneration should it be determined loss of or misappropriation of materials has compromised the integrity of test items.

Clear the memory of calculators after each testing session.

After Test Administration

Sign the Test Security Certification (Test Administrator/Proctor).

4. GENERAL TEST SECURITY GUIDELINES

The assessments rely on the measurement of individual achievement. Any deviation from assessment procedures is strictly prohibited and will be considered a violation of test security.

School administrators, teachers, and any other education personnel who are involved in the assessment program must maintain the security of all assessment materials at all times.

Because the assessment must remain secure, teachers/Test Administrators should not have assessment materials in their possession at any time other than during the actual assessment administration.
**Before Test Administration**

**DO NOT:**

Teach students a test-taking technique that would require them to bubble more than one response to a test question and then return and erase all but one response.

Review student test booklets except for purposes as stated in the *Directions for Administration Manual* and any of the accommodations guidelines documents. Knowledge or review of test content is not necessary for valid test administration and is prohibited.

Note: Interpreters may have access to test materials three days prior to test administration to prepare for accurate interpretation of the test.

Reveal any part of secure copyrighted tests to anyone.

Copy or otherwise reproduce any part of secure tests.

Review and/or provide answers to test questions to students.

Possess unauthorized copies of state tests.

Assist in, direct, aid, counsel, encourage, or fail to report immediately any of the actions prohibited in this section.

**During Test Administration**

**DO NOT:**

Leave students unattended with testing materials or permit any student to leave the testing site with testing materials for any reason.

Permit students to have electronic devices in their possession.

Permit students to look ahead to another section or module of the test before being instructed to do so, or allow students to look back in a test booklet once a test section or module has been completed.

Discuss, disseminate, or otherwise reveal contents of the test to anyone.

Possess secure test materials at any time other than during the actual administration of the test. Test Administrators should be given the secure materials immediately prior to the administration of the test, and the materials must be counted and collected by the SAC immediately after the testing session ends each day.

Coach or provide feedback to students (e.g., answer any questions pertaining to the content of the test, review rough drafts, or give feedback of any kind including indicating to students any items that need a second look). This prohibition includes, but is not limited to, a Personal Care Aid (PCA), Therapeutic Support Staff (TSS), or any other one-on-one aide who is assigned to a student.

Define or clarify a word in a test item.
Read aloud any portion of the Literature Keystone Exam.

Read aloud the passages, multiple-choice questions or answer choices, or short-answer questions in Sections 2, 3, or 4 of the PSSA English Language Arts assessment.

Read aloud any part of a mathematics item that will cue the correct answer or provide a hint for the test taker.

Return a test booklet to any student after it has been turned in to the Test Administrator except for makeup sessions for absences and for students who go to another testing site for extended time.

Alter, influence, or interfere with a test response in any way, fill in any unanswered item, or instruct the student to do so.

Assist in, direct, aid, counsel, encourage, or fail to report any of the actions prohibited in this section.

**After Test Administration**

**DO NOT:**

Discuss, disseminate, or otherwise reveal the contents of the test to anyone.

Keep/save, copy, reproduce, or use any test, test item, specific test content, or examinee responses to any item or any section of a secure test in any manner inconsistent with the instructions provided by and through the Pennsylvania Department of Education.

Review student responses in the answer booklet.

Review test booklets containing the test items.

Alter, influence, or interfere with a test response in any way, fill in any unanswered item, or instruct the student to do so.

Discuss or provide feedback regarding test items.

Copy or reproduce any portion of the secure test materials or prepare/provide answer keys.

Erase or change student answers.

Make false or misleading statements about assessment results, including inappropriate interpretations, inaccurate reports, or unsubstantiated claims.

Erase stray marks or darken bubbles.

Assist in, direct, aid, counsel, encourage, or fail to report any of the actions prohibited in this section.

**DO:**

Immediately report testing irregularities/security breaches to the School Assessment Coordinator/Building Principal.

Sign the Test Security Certification (General).
CODE OF CONDUCT FOR TEST TAKERS

DO...

- Listen to, read, and follow all directions given.
- Ask questions if you do not understand the directions.
- Read each question carefully, especially multiple-choice items that ask for the “best answer.” Also, be sure to read any open-ended items and writing prompts carefully before responding.
- Be careful when marking your answers so that you do not skip spaces or fill in the wrong sections.
- Make sure to completely fill in the bubble for the answer you select and erase completely any answers you change.
- Keep your eyes on your own test.
- Try to answer each test item.
- Check that you have completed all the test items in the test section before closing your test booklet or submitting your final responses online.
- Report any suspected cheating to your teacher or principal.

DO NOT...

- Bring notes with you to the test.
- Bring any unapproved electronic devices (e.g., cell phones, smartphones, smartwatches, etc.) other than an approved calculator, if applicable, to the test.
- Share a calculator with others.
- Use the bubbles in the answer booklet to either eliminate possible incorrect answers or possible correct answers. Mark only the bubble for the one correct answer you have chosen.
- Talk with others about questions on the test during or after the test. (Students should be assured that they may discuss the testing process or issues of concern with their parents/guardians.)
- Take notes about the test to share with others.
- Leave an online test session until the session is complete or until instructed to do so.
Spring 2017 Keystone Exam Security Certification  
(Test Administrator and Proctor)

District: ____________________________  
School: _____________________________  
AUN: _____________________________

Maintaining the security and integrity of all assessment materials, preventing any dishonest or fraudulent behavior in the administration and handling of the assessment, and promoting a fair and equitable testing environment are essential in order to obtain reliable and valid student scores. In that regard, I certify the following:

Prior to the administration of the assessment, I completed the Pennsylvania State Test Administration Training, and I understand that the assessment materials are secure, confidential, and proprietary documents owned by the Pennsylvania Department of Education.

I have not reviewed, discussed, disseminated, described, or otherwise revealed the contents of the assessment to anyone. I have not removed any assessment materials from the school building unless I was specifically authorized to administer the assessment to a student on homebound instruction. I have not kept, copied, reproduced, released, or used any assessment, assessment question, specific assessment content, or examinee response to any item or any section of the secure assessment in any manner that is inconsistent with the instructions provided by or through the Pennsylvania Department of Education. I have not provided any examinee with an answer to an assessment question or in any way influenced an examinee's response to any assessment question. I have not in any manner altered or caused the alteration of any examinee response, assessment booklet, or papers used by examinees.

I understand that any breach in assessment security could result in the invalidation of assessment results, professional discipline, and/or criminal prosecution.

I understand that false statements herein are made subject to the penalties of 18 Pa.C.S. § 4904.

PENNSYLVANIA CALCULATOR POLICY

If a student chooses to use a calculator (other than the online options) on the Keystone Exams or PSSA in sections where the calculator is permitted, the student must adhere to the guidelines listed below. It is incumbent upon the School Assessment Coordinator to ensure that all calculator policies are implemented and followed, including making sure calculators have no programs stored in their memory other than those that are factory installed. Please note that if a student wants to restore the deleted programs, the student will need to back up these programs prior to the assessment. In addition, the memory must be cleared on the calculator following each test session of the assessment.

The following are not permitted for the PSSA or Keystone Exams:

- Noncalculators such as cell phones, smartphones, smartwatches, PDAs, laptops, tablets, pocket organizers, etc.
- Calculators with infrared, Wi-Fi, Bluetooth, or other beaming or wireless capabilities, unless the beaming or wireless capabilities are disabled
- Calculators with QWERTY keyboards, typewriter-like keyboards (e.g., Dvorak), or keypads
- Calculators with built-in Computer Algebra Systems (CAS)
- Calculators that make noise, have paper tape, need to be plugged in, or talk; these specific calculators can only be used as a required accommodation as stated in the Accommodations Guidelines
- Calculators shared by students during a test session
- Any and all non-factory (add-on) programs or information stored in the calculator

This calculator policy is intended to be a general description of what is not allowed. It is not meant to be an exhaustive list of specific calculators, devices, or technologies that cannot be used on the PSSA or Keystone Exams. Please note that as technology changes, this policy may also change.
ALGEBRA I EXAM DIRECTIONS

Below are the exam directions available to students in their test booklets. These directions may be used to help students navigate through the exam.

You may use a calculator on this module. When performing operations with π (pi), you may use either calculator π or the number 3.14.

There are two types of questions in each module.

**Multiple-Choice Questions**

These questions will ask you to select an answer from among four choices.

- First read the question and solve the problem on scratch paper. Then choose the correct answer.
- Only one of the answers provided is correct.
- If none of the choices matches your answer, go back and check your work for possible errors.
- Record your answer in the Algebra I answer booklet.

**Constructed-Response Questions**

These questions will require you to write your response.

- These questions have more than one part. Be sure to read the directions carefully.
- You cannot receive the highest score for a constructed-response question without completing all the tasks in the question.
- If the question asks you to show your work or explain your reasoning, be sure to show your work or explain your reasoning. However, not all questions will require that you show your work or explain your reasoning. If the question does not require that you show your work or explain your reasoning, you may use the space provided for your work or reasoning, but the work or reasoning will not be scored.
- All responses must be written in the appropriate location within the response box in the Algebra I answer booklet. Some answers may require graphing, plotting, labeling, drawing, or shading. If you use scratch paper to write your draft, be sure to transfer your final response to the Algebra I answer booklet.

**If you finish early, you may check your work in Module 1 [or Module 2] only.**

- Do not look ahead at the questions in Module 2 [or back at the questions in Module 1] of your exam materials.
- After you have checked your work, close your exam materials.

You may refer to this page at any time during this portion of the exam.
