

GUIDE: Creating a Keystone Account and Migrating Existing Application Roles Overview

On December 19th, 2019, external educational users will no longer be able to log in to MyPDESuite with their PAlgin username and password.

Users will need to register a Keystone Login account and use that to log in to MyPDESuite. **You can register and migrate early, but you won't be able to log in to MyPDESuite with the new Keystone account until December 19th, 2019.**

If they had application roles associated with their old PAlgin account, they must migrate their existing application roles.

CWOPA users do not need to do anything, they may continue login with their current CWOPA credentials.

Create Keystone Login Account

1. Navigate to the [MyPDESuite Login page](#) and select the 'Create Keystone Login Account' link.

The screenshot shows the MyPDESuite Login Page with a prominent announcement: "The MyPDESuite Login Process Has Changed". Below this, it states that a Keystone Login account is now required for access. A callout box with a red arrow points to the "CREATE KEYSTONE LOGIN ACCOUNT" link in the "Login Steps" section. The page also includes sections for "Keystone Login HelpDesk" and "MyPDESuite Support". At the bottom, there are login fields for "User Name" and "Password", a "Log In" button, and the "PA KEYSTONE LOGIN" logo. A browser recommendation is provided at the very bottom.
