Learning Environment: Mobilization of Staff and Student Wellness

Susan Billy, Manager, MEd, Behavioral Health Support Services

Stacie Molnar-Main, EdD, School Climate Consultant
Language Matters!

Definitions and terminology are important to the work around supportive learning environments.
Key Concepts: Integration of Wellness in Learning Environment

- School climate
- Equity
- Trauma informed practices
- Universal wellness practices
- Social emotional learning
- PA career ready skills
Learning Environment

Broadly characterized by facilities, classrooms, school-based health supports, and disciplinary policies and practices.

The concept of “learning environment” applies to face-to-face and online educational settings.

National Center on Safe Supportive Learning Environments
School Climate = Perceptions of the Learning Environment

School climate refers to the quality and character of school life. School climate is based on patterns of students’, parents’ and school personnel’s experience of school life and reflects the norms, goals, values, interpersonal relationships, teaching and learning practices, and organizational structures (National School Climate Center).

A positive and equitable school climate supports the development and learning of all students.

National Center on Safe Supportive Learning Environment; National School Mental Health Curriculum, 2018

May 11, 2021
Pennsylvania defines equity in schools as: "every student having access to the educational resources and rigor they need at the right moment in their education across race, gender, ethnicity, language, disability, religion, sexual orientation, gender identity, family background and/or family income (www.ccsso.org).”
Trauma Definition: Act 18 of 2019

1. Exposure to an event, series of events or set of circumstances that is experienced by an individual as physically or emotional harmful or threatening.

2. Has lasting adverse effects.

3. Creates significant difficulty in cognitive functioning and physical, social, emotional, mental or spiritual well-being.

Universal Wellness Practices

Staff and Student wellness is supported by intentionally planned schoolwide and classroom activities designed to “foster positive social, emotional and behavioral skills and well-being of all students, regardless of whether they are at risk for mental health problems”. These activities also include efforts to support staff well-being.

School Mental Health Quality Guide
National Center for School Mental Health
Staff Wellness in the Learning Environment: Using an Equitable, Trauma-Informed Approach

- Develop a comprehensive plan to address staff well-being needs through ongoing professional learning opportunities.

- Integration of a continuum of well-being practices that are equitable in scope.

PDE: Creating Equitable School Systems: A Roadmap for Education Leaders- Staff and Student Wellness Guide
National Center for School Mental Health
National Center on Safe Supportive Learning Environments
Alignment of Staff Well-Being Improvement Efforts in the Learning Environment

- Utilize assessment data and trauma informed values
- Develop predictable school-wide routines
- Set school-wide expectations of positive behaviors
- Utilize regular interactive professional development opportunities
- Develop skill sets to manage expectations, set boundaries, build effective relationships, and practice ongoing self-care

Use of Staff Well-Being Resources and Activities in the Learning Environment

• Readily available and accessible to all staff
• Integrate well-being activities into the daily school culture
• Teach staff the benefits of a wellness mindset - focused on physical, mental, and emotional
• Utilization of stress reduction strategies combined with compassion and resilience building strategies

Resources to Support Staff and Student Social Emotional Wellness

• District Contracted Employee Assistance Program
• Pennsylvania Network for Student Assistance Services
• Pennsylvania Department of Human Services
• Pennsylvania Department of Drug and Alcohol Programs
• National Suicide Prevention Lifeline - 1-800-273-TALK (8255)
• Prevent Suicide PA
• Crisis Text Line - Text ‘PA’ to 741741
• Crisis Support by County
• County Mental Health Contacts
“Being Culturally Responsive is a journey and not a final destination.”

**Will:** The desire to lead and a commitment to achieving equitable outcomes for all students,

**Fill:** Gaining knowledge about ourselves and others, and

**Skill:** Applying knowledge and leading the change, skillfully putting beliefs and learning into action.

Ecological Systems Model

Macrosystem (e.g., society, culture)
Exosystem (e.g., media, services, neighbors)
Mesosystem (e.g., interaction of extended levels of microsystems)
Microsystem (e.g., family, peers, school)

(Hoover et al., 2019)
Student Wellness Practices: Universal Strategies

• Address staff wellness needs
• Prioritize school climate
• Establish clear expectations and predictable routines
• Promote positive relationships and supports
• Reduce exclusionary disciplinary practices
• Increase mental health literacy
• Increase social and emotional learning, especially self-regulation skills
• Provide opportunities to explore individual and community identities

Social and Emotional Learning

SEL is the process through which all young people and adults acquire and apply the knowledge, skills, and attitudes to develop healthy identities, manage emotions and achieve personal and collective goals, feel and show empathy for others, establish and maintain supportive relationships, and make responsible and caring decisions (CASEL).

Resources:

Social and Emotional Learning

• Pennsylvania Career Ready Skills (PA CRS) are social emotional learning progressions that support the development of student competence. By design, the PA CRS reflect priorities to ensure youth are career ready and prepared to meet the demands of the 21st century workforce. The PA CRS are grouped into three domains.
Student Wellness and the Learning Environment: Sustaining Practices

• Ensure universal wellness practices fit the unique strengths, needs, and cultural/linguistic considerations of students and families in your school
  
  o Create a strategy selection committee with diverse representation.
  o Review school student body including gender, age, ethnicity, cultural backgrounds, languages, sexual orientation, and socio-economic status.
  o Pilot test the new practice with school population.
  o Adapt the practice to fit unique considerations of school population.

• Provide adequate resources and professional development, prioritizing cultural competence

• Implement strategies with fidelity across groups and monitor over time

Take Away

Schools can work to create equitable trauma-informed learning environments by advancing and sustaining universal wellness practices that fit the unique characteristics and needs of their school community.
How we work is the work

- Take time to cultivate and deepen relationships, build partnerships, and plan for adult and student social-emotional learning.

- Use data as an opportunity to share power, deepen relationships, and continuously improve outcomes for all children and families.

- Design opportunities where adults can connect, heal, and build their capacity to support students.
