Introduction

Act 16 of 2000, in part, amends Section 1372 of the Public School Code of 1949, and requires the Pennsylvania Department of Education (PDE) to compile information, annually, listing the number of students with disabilities, and the expenditures related to each student. Data is to be based on the prior year’s costs.

Regulatory Authority

Commonwealth policies and procedures, governing ACT 16 reporting, category monetary values, and requirements of PDE, are found in the Pennsylvania Public School Code, as amended. Specifically, 24 PS § 13-1305, 24 PS § 13-1306, and 24 PS § 13-1372.

Reporting

Reporting is required for special education students with Individualized Education Programs (IEP) only. When determining the costs of a student’s program, it is important to consult with all local educational agencies, school district, and charter school personnel involved in the administration of the student’s IEP. This may also include the sharing of information between the local educational agency, school district, charter school, and intermediate unit. The responsibility of reporting the student with an IEP lies within the school district of residence; and, not within the educating local educational agency, intermediate unit, approved private school (APS), county prison, career and technology center (CTC), or other entity not listed in this paragraph.

Reporting Exceptions

The following examples, represent students, who should not be reported by the school district of residence.

1. Charter school students – these students are reported by the charter school.
2. Non-resident child placed in home of resident – these students are reported by the school district in which the student resides with the resident parents.
3. Wards of state – do not include wards of state on the ACT 16 report. If a student is granted ward of state status during the school year, only report those expenditures, which occurred during the time, when the student was not a ward of state.
