

Hazleton Area Career Center

**Program Title:** Study Island

**Goals/Objectives:** To incorporate software that will help raise academic performance.

**Description:**

Study Island Software

- I. Math classes (algebra I, algebra II, geometry and integrated math)
  - A. Smart board
  - B. 24 laptop computers
  - C. Document camera
- II. English I classes
  - A. Smart board
  - B. 24 laptops
  - C. Document camera

**Evaluation Tools & Procedures:**

The students will be pretested at the beginning of the semester, mid-way tested half way through a semester and post tested to see the progress that has been made at various points.

**Results of Activity:**

The software is designed to have students work on a skills based program to meet academic performance on NOCTI, Foresight and PSSA. Students will stay on a current level until proficiency is met and then they will move on to the next level.

**Resources and Other Related Information:**

Laptops, smart board and document camera
