Description: An instructional program that prepares individuals in a general way to sell, select and service agriculture or agribusiness technical equipment and facilities including computers, specialized software, power units, machinery, equipment, structures and utilities. This program includes instruction in agriculture power units, the planning and selection of materials for the construction of agriculture facilities, safe mechanical practices associated with water conservation, erosion control and data processing systems.

Notes: The following certificate is no longer issued but remains valid for teaching in this program:
Agriculture Power & Machinery 2222
Agricultural Mechanics 2026
