**Description:** This program prepares individuals to apply knowledge and skills in the field of multimedia technology. Multimedia technology specialists provide services in a variety of areas associated with typography, web and graphic design, video, audio, television production, animation, and photography. Instruction in this program includes, but is not limited to, audio/visual technology, troubleshooting techniques, computer operation and maintenance, data transmission and management, oral and written communication, math and physics, concept development, layout and design, computer graphics, image capture, audio, video, web related technologies and animation.

**Notes:** \* This certification area may teach the entire cluster.

\*\* Professionals are limited in what they are allowed to teach within this cluster. Instructors can only teach in the area they are correctly certified to teach.

None of the two-asterisks (\*\*) certificates can teach this entire program with only one of the listed certificates. There should be a minimum of at least two different certificates to teach this program. The certification areas will be determined by the approved technical core of planned sequence courses for that particular program; therefore, the certifications may not be limited to only the above list.

The following certificate is no longer issued but remains valid for teaching in this program:

- \* Industrial Arts/Technology Education 6005
- \* Industrial Arts 1625
- \* Audio-Visual Communications Technology 2510
- \*\*Commercial Photography 2020
- \*\* Prepress Desktop Pub & Digital Imaging Design 2095

\*\*Digital Technology 2585

The following certificates are no longer accepted to teach this program after October 1, 2017. Anyone teaching in this program before October 1, 2017 with these certifications will be grandfathered:

- Data Processing 1625
- Office Technologies 1658
