Description: This program prepares individuals to apply knowledge and skills in the field of multimedia technology. Multimedia technology specialists provide services in a variety of areas associated with typography, web and graphic design, video, audio, television production, animation, and photography. Instruction in this program includes, but is not limited to, audio/visual technology, troubleshooting techniques, computer operation and maintenance, data transmission and management, oral and written communication, math and physics, concept development, layout and design, computer graphics, image capture, audio, video, web related technologies and animation.

Notes: The following certifications are limited in what they are allowed to teach within this cluster. Instructors can only teach in the area their area of certification and are only allowed to teach the entire program if they have two or more of the following certifications:

- Commercial Art 2019
- Computer Technology 2121
- Electronics Technology 2111
- Graphic Occupations 2076
- BCIT 1603

The following certificates remain valid for teaching in this program:

- Industrial Arts/Technology Education 6005
- Industrial Arts 1625
- Audio-Visual Communications Technology 2510
- Commercial Photography 2020
- Prepress Desktop Pub & Digital Imagining Design 2095
- Digital Technology 2585

The following certificates are no longer accepted to teach this program after October 1, 2017. Anyone teaching in this program before October 1, 2017 with these certifications will be grandfathered:

- Data Processing 1625
- Office Technologies 1658

Revised March 2020
