

**Title: ELECTRICAL, ELECTRONIC AND COMMUNICATIONS ENGINEERING  
TECHNOLOGY/TECHNICIAN  
Code: 15.0303  
Career Cluster: Manufacturing**

Certification Required	Certification Method	Occupational Competency Area	Occupational Competency Evaluation
Vocational-Intern/ Instructional 2600	Vocational-Instructional (non-degree program)	Electronics Technology 2111	Electronics Technology

**Description:** An instructional program that prepares individuals to apply basic electronic principles and technical skills to the production, calibration, estimation, testing, assembling, installation and maintenance of electronic equipment. Emphasis is on passive components and solid-state devices; digital circuits; optoelectronic devices; operational amplifiers; audio and RF amplifiers; oscillators; power supplies; and AM, FM and PCM modulators. Knowledge is acquired through theoretical instruction, experimentation and hands-on activities. Instruction will develop basic levels of knowledge, understanding and associated skills essential for entry-level employment in communications, industrial electronics, digital processing, robotics, avionics, biomedical technology and other electronics occupations.

**Notes:** The following certificate is no longer issued but remains valid for teaching in this program:  
Electronics 2030
