**Description:** This program prepares individuals to apply knowledge and skills in the health occupations. Instruction is provided in the basic skills in a variety of areas associated with health occupations such as health and medical services, pharmaceutical and medical instruments and supplies. Instruction includes but is not limited to foundations of health (medical terminology); anatomy and physiology; legal, ethical and economic aspects of health care; clinical laboratory procedures; basic health occupational skills; aseptic techniques; OSHA regulations; and infection control. Clinical education is an integral part of the program. Science and math taught by certificated science and math teachers will be coordinated and deemed essential for students to successfully reach their career objectives.

**Notes:** \*\* Professionals are limited in what they are allowed to teach within this cluster. Instructors can only teach in the area they are currently certified to teach.

None of the two-asterisks (\*\*) certificates can teach this entire program with only one of the listed certificates. There should be a minimum of at least two different certificates to teach this program. The certification areas will be determined by the approved technical core of planned sequence courses for that particular program; therefore, the certifications may not be limited to only the above list.

The following certificate is no longer issued but remains valid for teaching in this program:

Allied Health Science Technology 2298  
Clinical Laboratory Assisting 2208
