Certification Required	Certification Method	Occupational Competency Area	Occupational Competency
Career and Technical/ Instructional 2600	Career and Technical-Instructional (non-degree program)	Health Related Technology 2214 Health Assistant 2202	Credential Review Credential Review

Description: This program prepares individuals to apply knowledge and skills in the health occupations. Instruction is provided in the basic skills in a variety of areas associated with health occupations such as health and medical services, pharmaceutical and medical instruments and supplies. Instruction includes but is not limited to foundations of health (medical terminology); anatomy and physiology; legal, ethical and economic aspects of health care; clinical laboratory procedures; basic health occupational skills; aseptic techniques; OSHA regulations; and infection control. Clinical education is an integral part of the program. Science and math taught by certificated science and math teachers will be coordinated and deemed essential for students to successfully reach their career objectives.

Notes: The following certifications are limited in what they are allowed to teach within this cluster. Instructors can only teach in the area their area of certification and are only allowed to teach the entire program if they have two or more of the following certifications:
