Describe the LEA's system used to evaluate the performance of your teachers:

The teacher evaluationrubric is the tool used to assess teacher performance in the following categories: Learning Environment, Planning and Instruction, and Professionalism. All categories are weighted evenly in final evaluations. Student data and performance is used as a supplemental tool for teacher and school goal setting. Evaluations are completed by school administrators twice annually. All evaluations include a self evaluation, a classroom observation, and a post observation meeting.

Does the LEA use the results of the teacher evaluation system described above in decisions regarding:

a. Teacher Development? Yes
