TEACHER INFORMATION

Describe the LEA's system used to evaluate the performance of your teachers:

The District's formal evaluation system is based on the State Form 428. Based on research, the District has opted to implement a modified "3 minute evaluation" process utilizing a District designed evaluation form. The Principal and/or the Superintendent informally evaluate all staff on a monthly basis using the District form. The results of this form and the formal evaluation process are combined to complete the 428 form. The Principal and the Superintendent work together to review the effectiveness of the informal assessment process in evaluating staff instructional practices. High expectation - low support
o Teacher directs questions to all students
o Technology is incorporated into the lesson
o Student expectations are focused on testing
o Students know work expectations – no display
o Teacher is consistent and reactive to student issues
o Students are actively working on assignment or participating in lesson

Does the LEA use the results of the teacher evaluation system described above in decisions regarding:

- a. Teacher Development? No
- b. Teacher Compensation? No
