INTRODUCTION

This list of secondary schools and dropout rates is produced as a companion to *Public Secondary School Dropouts in Pennsylvania, 2004-05*. Provided in this listing are individual school data as well as summaries for local education agencies, counties and the state.

Data used in calculating dropout rates was collected via the Public School Enrollment Report (ESPE), 2004-05 and Public School Dropout Survey (EDGR), 2004-05. These instruments provided a “snapshot” of the fall enrollment in grades 7 through 12 and the total number of dropouts in those grades throughout a single school year. The following definitions apply:

DROPOUT – A student who, for any reason other than death, leaves school before graduation without transferring to another school/institution.

DROPOUT RATE – An annual or “event” rate that measures the proportion of students enrolled who drop out during a single school year. The total number of dropouts for the school year is divided by the fall enrollment for the same year.

School districts, comprehensive area vocational-technical schools (AVTSS), charter schools, and consortium-operated alternative high schools were surveyed for dropouts. Not surveyed were approved private schools, intermediate unit operated full-time special education classes, occupational AVTSS, and special residential settings, such as juvenile correctional institutions and Scotland School for Veterans Children. Ultimately any dropouts from schools not surveyed must be accounted for by the school district of residence.

Although the dropout rate for the four consortium-operated alternative high schools (Lancaster County Academy, Perkiomen Valley New Beginning, Washington County Alternative School and York County High School) appears to be quite high, it must be noted that these schools possess some unique traits. Their students are at high risk of dropping out and many are attending school while working full time. The methodology of calculating dropouts must be examined to truly understand these high dropout rates. The total number of dropouts was counted for the 12-month period from October 1, 2003 to September 30, 2004, but the total secondary enrollment was obtained on October 1, 2003 (a snapshot view). After a student drops out from a consortium-operated alternative high school, their enrollment slot may be filled by another candidate during the school year. Because of this turnover, the dropout rate for these schools may be inflated.

SUMMARY
2004-05

	NUMBER SURVEYED	SECONDARY ENROLLMENTS	DROPOUTS			DROPOUT RATE
			Male	Female	Total	
TOTAL	599	882,908	9,940	7,238	17,178	1.9
Charter Schools	85	21,345	276	296	572	2.7
Comprehensive AVTSs	10	6,952	129	96	225	3.2
Consortium-Operated Alternative High Schools	4	277	74	52	126	45.5
School Districts	500	854,334	9,461	6,794	16,255	1.9

- Note: 1. Data for the comprehensive AVTSs in the Philadelphia City School District are listed with the data for school districts.
 2. Dropout rates for the consortium-operated alternative high schools may be inflated because their students are at high risk of dropping out and the fact that once they drop out their enrollment slot may be refilled by another candidate during the school year.
