

Pennsylvania

Local Assessments Survey - Summary Report

During the 2020-2021 school year a survey was sent to PA LEAs to gather information about local assessments that were given within their particular LEA in Math and ELA. The results of this survey were aggregated and summarized in the report that follows.

The report is aggregated at 3 levels:

1. State - Encompasses all LEAs
2. Urbanicity - Groups LEAs into City, Rural, Suburb, or Town
3. IU - Groups LEAs by IU membership

A few notes about the results that are presented:

*Counts represent the number of LEAs that give an assessment and not the number of schools.

*Survey responses were provided at an LEA-level; however, the indicated assessments may not be administered at all schools within the LEA.

*This report provides results from the survey for assessments that responded that they were 'Administered to all Students.'

*LEAs may have responded that they give more than one assessment within a subject, so percentages will not sum to 100% and counts may not sum to the totals presented.

*LEAs also may not have reported an assessment for a particular subject, so they may be present in the data for one subject but not the other.

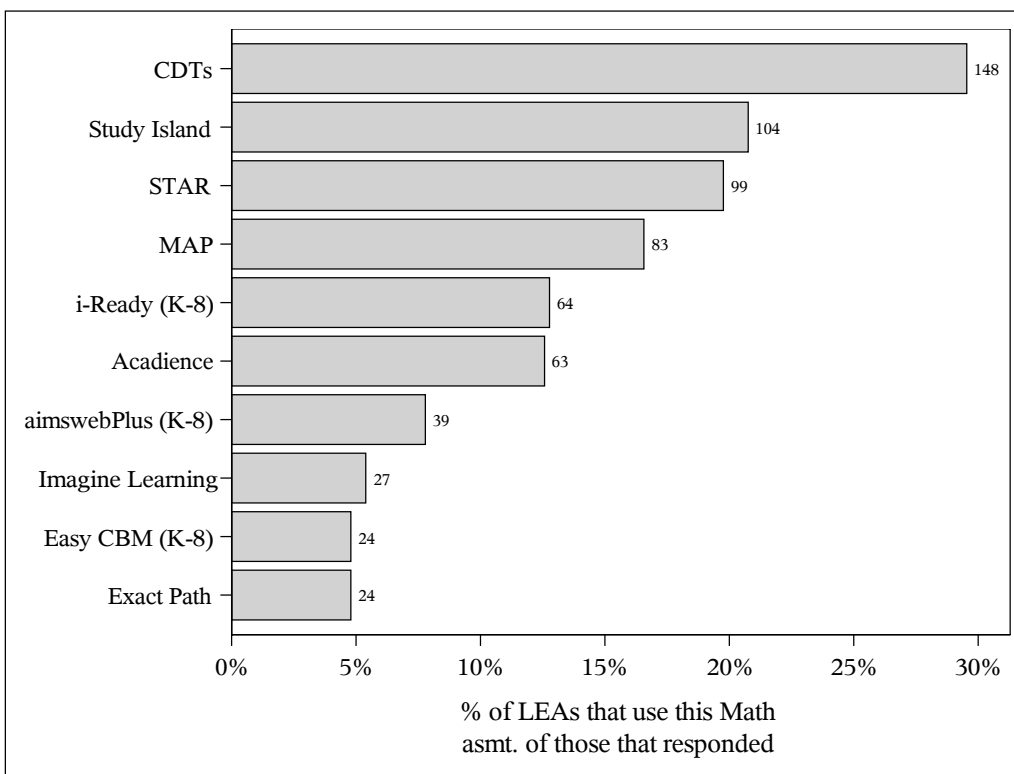

Summary of LEA Responses

Total Number of PA LEAs	LEAs Responding to Survey	LEAs Responding with 'Administered to all Students'	LEAs Responding with a Math Assessment	LEAs Responding with an ELA Assessment
754	571	536	501	516

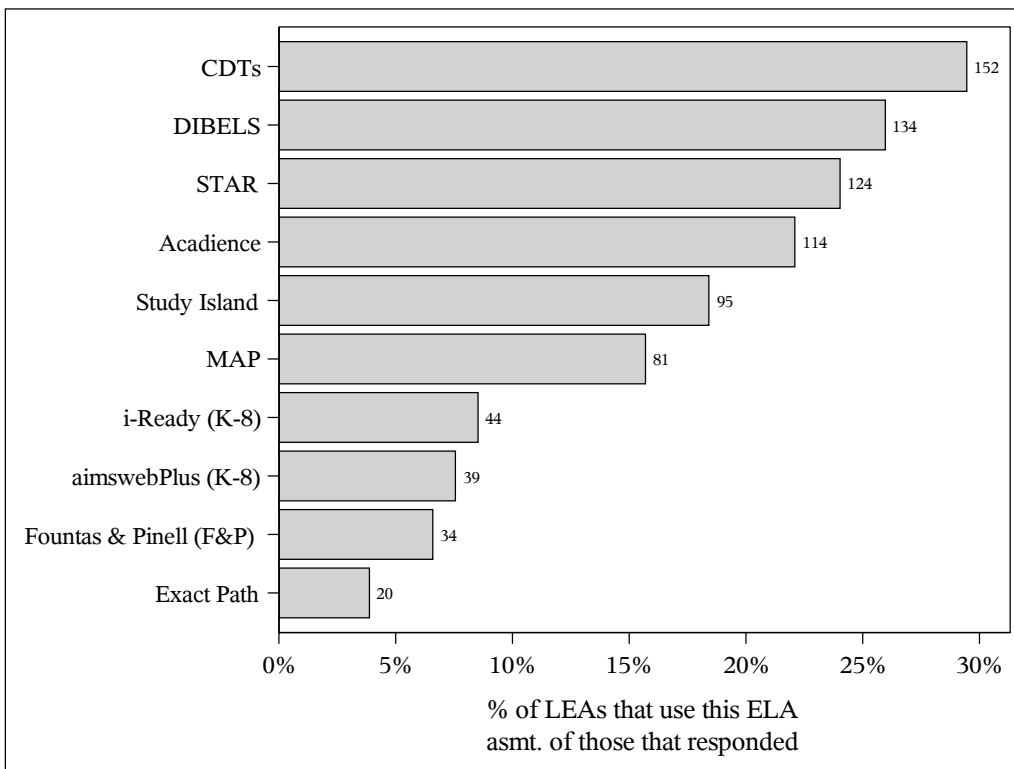

Local Assessment Survey Results

PA State Summary

10 Math Assessments Most Frequently Reported in Survey

10 ELA Assessments Most Frequently Reported in Survey

Reports are based on LEA-level responses to the local assessment survey that indicated the assessment is 'Administered to all Students.'

10 Math Assessments Most Frequently Reported in Survey - By Grade

This table represents the number of LEAs that administered the Math assessment in the individual grade displayed.
