Introduction

Purpose

The Pennsylvania Information Management System (PIMS) is a collaborative effort of the Pennsylvania Department of Education (PDE) and the Local Education Agencies (LEAs) across the Commonwealth. PIMS is a statewide, longitudinal data system that will efficiently and accurately manage, analyze, disaggregate, and use individual student data for each student served by Pennsylvania's Pre-K through Grade 12 public education system.

PIMS serves many purposes. These are to:

- meet the current PDE and federal reporting requirements;
- improve education decision-making through the use of high quality data and decision support tools;
- provide longitudinal tracking of education progress over time and across LEAs, and;
- report timely and accurate education data through standardized and ad hoc reporting capabilities.

PIMS uses the eScholar data warehouse model, which stores data in a relational database. eScholar uses a standard set of templates that provides a consistent format for loading data from various information systems into the warehouse. By using templates, LEAs are not required to purchase new hardware or software. Modifications to information system software will be necessary to format data to meet template standards for file transmission. For additional information on eScholar, please visit the eScholar website at <http://www.escholar.com/>.

Family Educational Rights and Privacy Act

Student education records are official, confidential documents protected by the Family Educational Rights and Privacy Act (FERPA, 20 USC 1232g). FERPA defines education records as all records that schools or education agencies maintain about students, and also protects both paper and computerized records. FERPA and other privacy laws (such as Title I and Special Education) ensure that information about citizens collected by schools and government agencies is released only for specific and legally defined purposes.

Under FERPA Sec. 99.31 and 99.35, education agencies may release personally identifiable information to PDE for the purposes of auditing and evaluating education programs, and for complying with federal and state regulations. See Volume 2 of the PIMS User Manual for additional summary information on FERPA.

Students To Be Reported in PIMS

All Pre-K through Grade 12 and Adult Affidavit Program (AAP) students enrolled in a public school, and Pennsylvania students enrolled in an Approved Private School (APS) or Private Residential Rehabilitation Institution (PRRI) shall be reported in PIMS. Student data will be submitted through templates. See the template section of this document for more information. Data will be collected for the following grades.

NOTE: The term “grade” is used in this document to imply the instructional levels from Pre-K through Grade 12, including Elementary Ungraded and Secondary Ungraded, along with the adult instructional level for career and technical education registered Adult Affidavit Programs.

The following grade levels will be collected in PIMS:

- Pre-K, half-day, morning
- Pre-K, half-day, afternoon
- Pre-K, full day
- K4, half-day, morning
- K4, half-day, afternoon
- K4, full day
- K5, half-day, morning
- K5, half-day, afternoon
- K5, full day
- Grade 1
- Grade 2
- Grade 3
- Grade 4
- Grade 5
- Grade 6
- EUG (Elementary Ungraded)
- Grade 7
- Grade 8
- Grade 9
- Grade 10
- Grade 11
- Grade 12
- SUG (Secondary Ungraded)
- AAP (Adult Affidavit Program student)

Additional information is available below to help determine the grade of a student.

Half-Day vs. Full-Day Programs:

Half-Day: Report the number of students who participate in a half-day program (at least 2.5 hours every day).

Full-Day: Report the number of students who participate in a full-day program (at least 5 hours every day).

Reporting Pre-Kindergarten (Pre-K) Students

Record students enrolled in the LEA’s Pre-K program, where most children will be three or four years of age. There may be exceptions in which children either are younger or older than this. Include all of these students, including any students who have been identified as having a disability or who are Head Start or PA Pre-K Counts students as described below.

Pre-Kindergarten includes Head Start or PA Pre-K Counts students if they are part of an authorized program of the LEA. That is, if the LEA is in a partnership with a Head Start or PA Pre-K Counts grantee in which the delivery and/or cost of providing the Pre-Kindergarten program is shared in some way between the Head Start or PA Pre-K Counts grantee and the LEA, count these students in the October 1st report. Or, if the LEA is the Head Start or PA Pre-K Counts grantee or delegate agency, only count students in classrooms operated by the LEA on the enrollment report. **If there exists a cooperative relationship between the LEA and the Head Start program, but the two delivery systems and funding remain completely separate, do not count these students**, even if they are located in LEA facilities. In certain cases an LEA allows the Head Start or PA Pre-K Counts agency to use some of its unused classroom space, but that does not make it the LEA’s program. In true partnerships, there is a more involved relationship where there is joint responsibility for the program and/or funding.

Currently, while PDE recognizes that Pre-Kindergarten may be offered by entities other than LEAs, this enrollment report and definition of Pre-Kindergarten is restricted to offerings provided by LEAs, and **does not** include Pre-Kindergarten that is provided by partnership entities under the Head Start or PA Pre-K Counts programs. If the Head Start or PA Pre-K Counts classroom is directly operated by the LEA, enrollment of these students should be counted.

Additionally, PA Pre-K Counts membership and attendance should be excluded from the child accounting data in the Student Calendar Fact Template.

Reporting Kindergarten Students (K4)

When the school district operates a two-year kindergarten program (i.e., K4 and K5), record as K4 all students who meet the entry age established by the local school board for four year old kindergarten students according to State Board of Education Regulations, Chapter 11 Student Attendance, section 11.14 Admission to kindergarten when provided.

K4 includes Head Start students if they are part of an authorized program of the LEA. That is, if the LEA is in a partnership with a Head Start grantee in which the delivery and/or cost of providing the K4 program is shared in some way between the Head Start grantee and the LEA, count these students in the enrollment report. Or, if the LEA is the Head Start grantee or delegate agency, only count students in classrooms operated by the LEA on the October 1st report. **If there exists a cooperative relationship between the LEA and the Head Start program, but the two delivery systems and funding remain completely separate, do not count these students**, even if they are located in LEA facilities. In certain cases an LEA allows the Head Start agency to use some of its unused classroom space, but that does not make it the LEA's program. In true partnerships, there is a more involved relationship where there is joint responsibility for the program and/or funding.

Reporting Kindergarten Students (K5)

Record the second year of a two-year kindergarten program or single year of a traditional one-year kindergarten program (which most school districts offer). Students generally are five years old at the beginning of the school year.

Reporting School-Age Early Intervention Students

School-age early intervention students (students with an Individualized Education Plan, i.e. IEP) in LEA-based half-time or full-time programs should be reported. The determination of whether data is to be reported for a child is based on the kindergarten entry age for the school district where the child would have attended school if the child were not in the early intervention program.

The MAWA holder, an intermediate unit, school district, public, or private agency, providing education to school-age early intervention students, will upload child accounting instructional time and membership data in the School Calendar and Student Calendar Fact files.

Reporting Exceptional Students

Report as either elementary ungraded (EUG) or secondary ungraded (SUG) all students in full-time non-graded programs for the physically or emotionally disabled, mentally gifted, mentally retarded and other exceptionalities, as well as all other non-graded students. For the purposes of this report, elementary and secondary level is determined by educational attainment, not age. Exceptional students with a grade placement should be included in the appropriate grade column. **NOTE:** EUG and SUG cannot be used in the December or July Special Education collections; specific grades (K, 1, 2, 3, etc.) must be used.

Entering the Administrative Unit Number (AUN) in the District Fields on the PIMS Student Templates

The following table indicates the AUN to be entered in each District Field on the PIMS Student Template. The table applies to all grade levels **with the exception of Adult Affidavit Program (AAP) students; see special note that applies to AAP students at the base of the table.**

Definitions:

- District Code: The unique, 9-digit AUN assigned by the Pennsylvania Department of Education.
- District Code of Residence: The AUN for the school district where the natural/adoptive parent or legal guardian resides. For a 1305 or 1306 student with no known school district of residence, enter the PA State code (999999999). Students whose natural/adoptive parent resides out-of-state, use the Out-of-State code (888888888).
- Funding District Code: The AUN for the school district that is financially responsible for the student. This is generally the same as District of Residence, except where different on the following table.

Code	Residency Status	District Code	District Code of Residence	Funding District Code
A	Resident (includes 1302 Guardianship and Resident Foster Children)	Educating LEA	Natural/Adoptive Parent or Legal Guardian SD	Natural/Adoptive Parent or Legal Guardian SD
<i>Code A: the District Code of Residence and the Funding District are the same.</i>				
B	1305, Non-resident Foster Child (Resident Foster Parent)	Educating LEA	Natural/Adoptive Parent or Legal Guardian SD	Foster Parent SD
C	1305, Non-resident Foster Child (Non-resident Foster Parent)	Educating LEA	Natural/Adoptive Parent or Legal Guardian SD	Foster Parent SD
D	1306, Institutionalized Non-resident, Unknown District of Residence (formerly referred to as "Ward of State")	Educating LEA	PA State Code or Out-of-State Code	Host SD – where institution is located
E	1306, Institutionalized Non-resident, Unknown District of Residence – Detention (formerly referred to as "Ward of State")	Educating LEA	PA State Code or Out-of-State Code	Host SD – where institution is located
<i>Codes B, C, D, and E: the District Code of Residence and the Funding District Code are not the same.</i>				
F	1306, Institutionalized Non-resident Acknowledged	Educating LEA (School District)	Natural/Adoptive Parent or Legal Guardian SD	Natural/Adoptive Parent SD or Legal Guardian
<i>Code F: the District Code of Residence and the Funding District Code are the same.</i>				
F	1306, Institutionalized Non-resident Acknowledged	Educating LEA (IU or CTC)	Natural/Adoptive Parent or Legal Guardian SD	Host SD – where institution is located
<i>Code F for IU and CTC: the District Code of Residence and the Funding District Code are not the same.</i>				
G	Non-resident District Paid Tuition	Educating LEA	Natural/Adoptive Parent or Legal Guardian SD	Natural/Adoptive Parent or Legal Guardian SD
<i>Code G: the District Code of Residence and the Funding District Code are the same.</i>				

Code	Residency Status	District Code	District Code of Residence	Funding District Code
H	Non-resident Parent Paid Tuition	Educating LEA	Natural/Adoptive Parent or Legal Guardian SD	School district receiving tuition
I	Non-resident Tuition Waiver In-State	Educating LEA	Natural/Adoptive Parent or Legal Guardian SD	School district waiving tuition
J	Non-resident OOS	Educating LEA	Out-of-State Code	School district either receiving or waiving tuition
K	Non-resident Act 6 – specifically, Philadelphia City SD	Educating LEA (Philadelphia City SD)	Out-of-State Code	Philadelphia City SD

*Codes H, I, J, and K: the District Code of Residence and the Funding District Code are **not** the same.*

NOTES:

- A value of 888888888 should be entered to indicate the generic “Out-of-State” code.
- A value of 999999999 should be entered to indicate the generic “PA State” code.
- Letters A to K are values for the Residence Status Code field in the School Enrollment template (Field 10) and Student Calendar Fact template (Field 7).
- Reporting Adult Affidavit Program (AAP) students in the School Enrollment template is not required or needed. LEAs may report “999999999” in the District Code of Residence and should report the AUN of the school district where the CTE educating LEA is located in the Funding District Code for AAP students.

Definitions of Residency Statuses

- A. **Resident (includes 1302 Guardianship and Resident Foster Children):** Student whose natural/adoptive parent or legal guardian resides in the reporting school district; affidavit student residing with an adult other than natural/adoptive parent (see PA Public School Code, §24 PS 13-1302); emancipated student (see Chapter 11 §11.11); pre-adoptive student; foreign exchange student with a J-1 visa; homeless student not living in a shelter or institution; student whose natural/adoptive parent or guardian is a migrant worker; and student whose natural/adoptive parent or legal guardian and foster parent reside in the reporting school district. The district code of residence and the funding district code are the same.
- B. **1305, Non-resident Foster Child, (Resident Foster Parent):** Non-resident student in foster home who is educated by the school district in which the foster parent resides, or is educated by an out of-state school. The student’s natural/adoptive parent or legal guardian resides outside the reporting district. (See PA Public School Code, 24 PS § 13-1305.) **NOTE:** Also include student if he/she is in any of the following living arrangements/placements: family living program, formal kinship care, respite care, and transitional foster care. The district code of residence and the funding district code are different.
- C. **1305, Non-resident Foster Child, (Non-resident Foster Parent):** Non-resident student in foster home who is educated by a school district that is **not** the school district of residence of the foster parent. The district code of residence and the funding district code are different.
- D. **1306, Institutionalized Non-resident, Unknown District of Residence:** Institutionalized non-resident student who has been disclaimed on the PDE-4605 “Determination of District of Residence for Students in Facilities or Institutions in Accordance with Section 1306 of School Code” and thus has no known school district of residence. **NOTE:** Documentation that the location of the district of residence is

unknown must be maintained, including an accurate and complete PDE-4605 and supporting documents (ex. court order terminating parental rights or PDE letter confirming ward of state status). The funding district code is the host school district's AUN.

- E. **1306, Institutionalized Non-resident, Unknown District of Residence – Detention:** Non-resident student who has been disclaimed on the PDE-4605 for whom education was provided in a detention facility by the reporting school district or intermediate unit. The funding district code is the host school district's AUN.

NOTES:

- A detention facility is an institution to which children are referred pursuant to a proceeding under 42 Pa. C.S. Chapter 63 (relating to juvenile matters).
 - Example: Conrad Weiser Area SD should report membership data for institutionalized wards of the state students who are educated in Bethany Home, in accordance with the Pennsylvania School Code of 1949. See 24 PS §§ 13-1308 and 13-1309.
 - Documentation that the location of the district of residence is unknown must be maintained, including an accurate and complete PDE-4605 and supporting documents (ex. court order terminating parental rights or PDE letter confirming ward of state status).
- F. **1306, Institutionalized Non-resident Acknowledged:** Institutionalized non-resident student whose school district of residence has been acknowledged on the PDE-4605. See chart for district code of residence and funding district code guidelines.
- G. **Non-resident District Paid Tuition:** Non-resident student educated by the reporting school district or LEA whose tuition was paid by the resident school district. The district code of residence and the funding district code are the same.
- H. **Non-resident Parent-Paid Tuition:** Non-resident student educated by the reporting school district or LEA whose tuition was paid by a private party (usually the parent). The district code of residence and the funding district code are different.
- I. **Non-resident Tuition Waiver In-State:** Non-resident student educated by the reporting school district or LEA whose tuition was waived by the school board. The district code of residence and the funding district code are different.
- J. **Non-resident OOS:** Non-resident student educated by the reporting school district or LEA whose tuition was either paid by the out-of-state school district or parent or waived by the school board. The district code of residence and the funding district code are different.
- K. **Non-resident Act 6-specifically, Philadelphia City SD:** Non-resident out-of-state medically indigent student hospitalized in exclusively charitable children's hospitals educated by Philadelphia City SD.

Staff To Be Reported in PIMS

Staff records should be created for all certificated and non-certificated elementary and secondary professionals who are employed in the public schools of the Commonwealth in the 2012-2013 school year. This includes professional personnel with whom you are contracting to provide services to students reported by your LEA. In certain cases a school district allows an IU to use some of its unused classroom space, but that does not make it the school district's program. The reporting LEA is the agency responsible for the program/course and should report all professional staff, in addition to students associated with the program/course. Exclude contracted employees who were reported by another PA public LEA for the same assignment, such as IU reading specialists and psychologists.

Classroom teachers: Include all employees holding Instructional I or II (or prior equivalent), interim, and emergency certificates if they are filling a vacancy. **NOTE:** All teachers with Type 01 Emergency Permits must be included when they are filling a vacant position. Include the regular complement of personnel, including those on leave and those with Type 01 emergency permits. **Exclude long-term substitutes who are replacing staff on leave** (including sabbatical, extended sick leave, etc.). **Exclude** personnel servicing adult programs only.

Remember: Include long-term substitutes **only** if they are filling a vacant position.

Administrators and coordinate services personnel: Include all who are required by law to be properly certified, as well as those employees who hold a **professional-level** position for which a certificate is not required. Personnel other than those described above are to be reported on the Public School Support Personnel report (SupPer).

Starting in school year 2009-2010, **school security staff** (including school police officers, school resource officers and school security officers) should also be reported to PIMS. **NOTE:** School security staff need to be submitted within the Staff, Staff Snapshot, and Staff Assignment templates during the Safe Schools collection only. See the Staff and Staff Snapshot template descriptions for more information.

Starting in school year 2011-2012, the Staff Assignment template will accept an assignment date with a previous year entry. For example, if a staff member's first year of employment was 1998, the assignment date would be 1998-07-01. The actual (true) start date is required starting in school year 2012-2013.

NOTE: After your initial upload, do not attempt to upload changes to the assignment date field. This field is a key field and uploading changes will create duplicate records.

Race/Ethnicity: Federal Race and Ethnicity Standards

The U.S. Department of Education (ED) directs the way state education agencies (SEA), local education agencies (LEA), and charter schools are expected to maintain, collect, and report data on race and ethnicity.

Beginning in the fall of 2010, SEAs, LEAs, and charter schools are required to report aggregated data to the U.S. Department of Education using the standards detailed in this section.

These standards mandate a two-question format categorizing the race and ethnicity of students and educators. Refer to the chart below for further instructions. In order to implement the required change with minimal burden, LEA requirements for collecting and maintaining race/ethnicity differ from those for reporting these data in PIMS.

Collecting Race/Ethnicity Data

A two-part question is mandatory, with the ethnicity part asked first and the race part asked second.

Part 1: **Ethnicity** (choose one):

- Hispanic/Latino
- Not Hispanic/Latino

Part 2: **Race** (choose one or more, regardless of ethnicity):

- American Indian or Alaskan Native
- Asian
- Black or African American
- Native Hawaiian or Other Pacific Islander
- White

As in the past, individuals (or students' parents) are asked to self-identify themselves. Observer identification is required if individuals decline to choose a race/ethnicity.

Reporting Race/Ethnicity Data in PIMS

LEAs should use the following standards when reporting race/ethnicity data in PIMS:

if Ethnicity selected is: (Part 1)	and Race selected is: (Part 2)	then report this:
Hispanic/Latino	Any race	Students are reported as Hispanic/Latino if they identify themselves as such. This designation overrides any race selected in Part 2.
Not Hispanic/Latino	American Indian or Alaskan Native	American Indian or Alaskan native only
Not Hispanic/Latino	Asian	Asian only
Not Hispanic/Latino	Black or African American	Black or African American only
Not Hispanic/Latino	Native Hawaiian or Other Pacific Islander	Native Hawaiian or Other Pacific Islander only
Not Hispanic/Latino	White	White only
Not Hispanic/Latino	Two or more races	Multi-racial

Recordkeeping

As in the past, original records must be maintained for three years. However, when there is litigation, a claim, an audit, or another action involving the records, original responses must be retained until the completion of the action.

The above information is a summarization of standards detailed in: *MANAGING an IDENTITY CRISIS...Forum Guide to Implementing New Federal Race and Ethnicity Categories* (publication NFES 2008-802). This publication is available from the U.S. Department of Education online (<http://nces.ed.gov/pubsearch>) or call toll free (1-877-4ED-Pubs).

Race/Ethnicity Definitions

These are categories used to describe groups to which individuals belong, identify with, or belong to in the eyes of the community. These categories do not denote scientific definitions of anthropological origins.

- AMERICAN INDIAN/ALASKAN NATIVE – A person having origins in any of the original peoples of North and South America (including Central America), and who maintains tribal affiliation or community attachment.
- ASIAN – A person having origins in any of the original peoples of the Far East, Southeast Asia, or the Indian subcontinent including, for example, Cambodia, China, India, Japan, Korea, Malaysia, Pakistan, the Philippine Islands, Thailand, and Vietnam.
- BLACK or AFRICAN AMERICAN – A person having origins in any of the black racial groups of Africa (except those of Hispanic origin).
- HISPANIC – A person of Mexican, Puerto Rican, Cuban, Central or South American, or other Spanish culture or origin, regardless of race.
- NATIVE HAWAIIAN or OTHER PACIFIC ISLANDER – A person having origins in any of the original peoples of Hawaii, Guam, Samoa, or other Pacific Islands.
- WHITE (NON-HISPANIC) – A person having origins in any of the original peoples of Europe, North Africa, or the Middle East (except those of Hispanic origin).

Templates

Templates are the files that will be used to load data into the PIMS data warehouse. Template specifications define the fields required for each file submitted to PIMS. Each template maps directly to a separate table in the data warehouse. By using templates, LEAs are able to use a variety of file formats (comma delimited, tab delimited, pipe) to transmit data as long as all fields within the template are accounted for. Within a given template not all eScholar-defined fields are collected by PDE. **NOTE:** If a field is not collected, it still must be accounted for in the template file through use of the appropriate delimiter position (comma, tab, etc.).

PDE will be using eScholar version 14 templates to submit information for the 2012-2013 school year.

Key Items to Note with Template Creation

- eScholar data warehouse provides Lookup Tables for recoding.
 - Ethnic Codes to Ethnic Descriptions
 - e.g. 3 = Black/African American (non-Hispanic)
- PIMS uses PDE-defined codes.
- Data Extraction process must translate local codes to PDE codes.
- Lookup Tables will translate PDE codes to PDE descriptions.

Development Priority

- Some templates have dependencies on other templates.
- Highlighted items within the Load Sequence/Dependencies section at the bottom of each template specification indicate which templates must be submitted prior to the template in question.
- Recommendation: Start with Student template.

Each template specification in the PIMS Manual will contain the following sections:

Template Information

Template Name	eScholar template name
Template Description	General description of the template
Template Number	eScholar designated template number; each template number is unique
Target Table	eScholar data warehouse target table name for template (must be used within the template file name)

Field Information

Each template specification within this document will have a table that indicates the following information:

Field No.	eScholar-designated field number; each field can be uniquely identified within the template.
Max Length	<ul style="list-style-type: none"> Field lengths are identified in each template in the “Length” column. Maximum field lengths are specified for fields that do not have pre-defined code sets. This information is critical because the eScholar load plans will reject any record that contains a field that is greater than the designated length. Template fields that have pre-defined code sets do not have a length specified – simply adhere to the predefined code set. If the “Max Length” column has “N/A,” that indicates a code set is available for that field. If the length number is followed by a comma and then another number, the latter indicates the number of digits to the right of the decimal point.
Field Name	eScholar Field Name; highlighted fields are those that are collected for PDE.
R/O/CR	R – Required CR – Conditionally Required O – Optional
Not Collected	Some fields are not collected.
Code	<p>The code column is used to identify how the specific field is applied to the target table in the eScholar Data Warehouse.</p> <ul style="list-style-type: none"> K: Indicates that this column is a component of the set of columns that make up the primary key for the target table. <ul style="list-style-type: none"> The primary key specifies the uniqueness of each entry in the target table. K*, K1*, K2*: Indicates that the template contains more than one field associated with a table column that is part of the primary key. <ul style="list-style-type: none"> These values always occur in pairs - two fields with a code of K*, two fields with a code of K1*, etc. In these cases, business rules are provided that indicate how the load plan processes the fields. In these cases, only one of the pair of K*, K1*, K2* fields should be populated. U: Indicates that this column will be updated in the target table if the entry exists and the value of this column has changed. F: Indicates that this column value will be applied only on the first load of this entry and cannot be updated. X: Indicates that the value is used only for identification purposes and is not part of the target table. Z: Indicates a special rule that is defined within the specific template where this is used. M: Indicates that the field is an eScholar mandatory field; a value must be supplied. M*: Indicates that for a pair of fields, at least one of the fields must be populated. R: Indicates that this is an eScholar-recommended field for reporting. D: A value is required but a default is supplied N/A: Indicates that this field is ignored by the load plan (although it still must be accounted for in an extract).

Table continued on next page

Field No.	eScholar-designated field number; each field can be uniquely identified within the template.
Definitions	PDE definition of each field to be collected
Business Rules	Any relevant PDE business rules that must be followed in creating the field value are defined here.
Sample/Valid Values / Example Data	If a field requires one value in a specific code set (e.g., Gender – “M” for male and “F” for female), that code set will be defined here. If the field is a free-form field (e.g., Last Name Long), example data will be supplied.

Key Fields

Fields coded “K” are key fields, the fields in which uploaded data cannot be overwritten. In a situation in which there was an upload of data in a key field that needs to be corrected, the entire record must be deleted by PDE staff first and then the corrected record must be uploaded.

- To initiate a deletion, complete a PIMS Data Maintenance Request form, available through the PIMS Help Desk. There are two ways to complete the form:
 1. through a PIMS Help Desk representative, reached by phone at 1-800-661-2423
 2. online, accessed through the PDE home page at <http://www.education.state.pa.us>
 - from the blue PDE Search bar on the left, select “Programs”
 - select “Programs O – R”
 - select “PIMS”
 - select “PIMS Help”
 - from the body of the text, select “Help Request Form.”

Rules

This section describes any rules that must be followed in creating the template file. Specific file formats supported by the template are identified in the last business rule in each section.

Load Sequence/Dependencies

This section identifies any prerequisite files that must be loaded into eScholar prior to loading the given template file. The relevant templates that must be loaded by LEAs prior to loading the template in question are indicated. For example, whenever there is a template that requests a student ID, the Student template must be submitted first. The following chart illustrates the template dependencies in PIMS.

FAQs

The FAQs section will list Frequently Asked Questions (FAQs) for the specific template and provide answers.

Child Accounting Domain

All public LEAs must submit the following templates as part of the 2012-2013 Child Accounting data collection:

- **School Calendar**
- **Student Calendar Fact**

This domain applies to the following organizational types only:

- School Districts
- Intermediate Units
- Career and Technology Centers
- Charter Schools
- Private Residential Rehabilitation Institutions (PRRI)
- Approved Private Schools (APS)

Submission of end-of-year Child Accounting data with the School Calendar and Student Calendar Fact templates is due August 1. The Child Accounting Accuracy Certification Statement (ACS) should be mailed to the Division of Subsidy Data and Administration after PIMS Reports are run and the data is verified for accuracy.

Preliminary data is due the end of March for “Juveniles Incarcerated in Adult Facilities” programs only. A notice is sent to the educating school district or intermediate unit to upload Child Accounting data for county jails. At this time, do not upload Child Accounting data for any other program.

One School Calendar is submitted for each unique calendar for a group of students. A student’s attendance and membership will be linked to a calendar by the unique Calendar ID.

Five important data elements from the Child Accounting perspective are: District Code of Residence, Funding District Code, Residence Status Code, District Code of Sending Charter School, and Grade Level. Each time any of these five data elements changes during the school year, a separate PIMS Student Calendar Fact record must be created for the student. **NOTE:** If the Sending Charter School field is changed then the Charter School Location Code field must change also.

Many fields found in the Student template are essential to Child Accounting. These fields are Student Status, Gender Code, Race or Ethnicity Code, Poverty Code, Special Education, LEP/ELL Status and Location Code of Residence. It is important that student records are complete with this information.

School Calendar Template (20 Fields, 18 Collected)

Template Number: 4300

Target Table: PIMS_SCHOOL_CALENDAR

This domain applies to the following organizational types only: School Districts, Intermediate Units, Career and Technology Centers, Charter Schools, Private Residential Rehabilitation Institutions (PRRI), and Approved Private Schools (APS).

Template Description

This template is used to identify each unique calendar associated with a student or group of students. One School Calendar can be submitted for multiple schools with the same days in session, the same number of approved Act 80 days, and the same total instructional time.

The information collected will be used to calculate the total days in session and total instructional time for each calendar as follows:

- Days in Session = Number of Scheduled School Days *minus* Total Days in Session Lost Due to Strike *minus* Total Days in Session Lost Due to Act 80 *minus* Total Days in Session Lost Due to Other Reasons *plus* Total Make-Up Days.
- Total Instructional Time = Days in Session *times* Instructional Minutes in Standard Day *minus* Total Instructional Minutes Lost to Planned Shortened Days.

See Pennsylvania School Code of 1949 (24 P.S. § 15-1501 and 1504) for required instructional days and hours. The required number of instructional days is 180 (or 180 minus full Act 80 days) and the required instructional hours for each grade are as follows: 450 hours for half-time kindergarten; 900 hours for full-time kindergarten and grades 1 – 6; and 990 hours for grades 7 – 12. School districts, intermediate units, and CTC/AVTS may apply for Act 80 exceptions.

The Days in Session is used to calculate average daily membership (ADM) for students associated with each calendar. It is **important** to verify the ADM by Calendar Program Code on the Accuracy Certification Statement (ACS).

The Days in Session calculated with School Calendar data must agree with the actual number of student days used by your student information system to generate attendance and membership. The Days in Session or actual number of student days may not be the same for all buildings or grade levels.

Grain: One record per District Code of Instruction / School Year Date / Calendar ID

Please note that only the **Fields highlighted** will be collected for Pennsylvania Department of Education. Remember that all fields may not be mandatory; however, all fields within a template **MUST BE** accounted for in order to transmit data.

Additional Information

Calendar ID and Calendar Description (Fields 3 and 4)

The Calendar ID provides a unique identifier for each different calendar that will be linked to each student on the Student Calendar Fact Template. Therefore, it is important to create a Calendar ID that is easily identifiable. The Calendar Description field may be used to provide a more detailed description.

Rotation Pattern Code (Field 7)

This field is populated for half-day or alternate-day pre-kindergarten and kindergarten School Calendars. It also is populated for School Calendars created for students in part-time CTC/AVTS vocational programs (half-day and semester-about).

Calendar Programs Code (Field 8)

This field is required in the School Calendar created for students in the following situations:

- Institutionalized Children's Program (ICP)
- juveniles incarcerated in adult facilities
- students at a CTC/AVTS
- students in an approved vocational program at a school district or charter school
- students in an alternative education for disruptive youth program
- students placed out-of-state
- school-age students in an early intervention program
- students educated/uploaded by an APS
- students educated/uploaded by a PRRI

NOTE: School Calendars for semester-about rotation at CTC/AVTS must have Rotation Patter Code of S and Calendar Program Code of CTE-PT or CTE-PT-H to receive accurate State subsidies.

Instruction Start Date and Instruction End Date (Fields 11 and 12)

For a part-time semester-about rotation CTC/AVTS calendar, enter the Instruction Start and End Date for the semester.

If a program was added after the school year began or cancelled before the school year ended, enter these dates as if the program operated the entire school year. For example, a full-time kindergarten program was added in October or an alternative education program for disruptive youth was cancelled in April; enter the same Instruction Start and End Date as applies to the majority of the students in that grade level or building.

Number of Scheduled School Days (Field 14)

The number of Scheduled School Days is the number of instructional days on the original calendar or revised original calendar (planned student days plus PDE-approved, full-day Act 80 dismissals). Revisions for any rescheduling to accommodate days lost or made up are entered in the Total Days in Session Lost or Total Make-Up Days fields.

- For alternate-day pre-kindergarten and alternate-day kindergarten or part-time semester-about CTC/AVTS calendars, the Number of Scheduled School Days will be approximately 90 days.
- For school-age early intervention programs, the Number of Scheduled School Days must be 180 days.
- For programs that were added after the school year began or cancelled before the school year ended, enter the Number of Scheduled School Days as if the program operated the entire school year.
- If a School Calendar is created for one student, the Number of scheduled School Days is not the number of days a student is enrolled. Use the number of instructional days on the original calendar for this school year.

Instructional Minutes in Standard Day (Field 15)

Enter the actual instructional minutes in a regular school day (not clock hours). Refer to Basic Education Circular 24 P. S. § 15-1504, Instructional Time and Act 80 Exceptions, for a list of activities that may be included in the calculation of instructional time.

If the number of instructional minutes in a Standard School Day was not the same for the entire school year, then calculate an average. For example, a group that received 310 instructional minutes for 140 days and 330 instructional minutes for 40 days would be reported with 314 instructional minutes calculated as follows:

$$\begin{aligned} [310 \times 140 \text{ days}] + [330 \times 40 \text{ days}] &= 56,600 \text{ total instructional minutes} \\ 56,600 \div 180 \text{ total instructional days} &= 314 \text{ average minutes in a standard day.} \end{aligned}$$

Total Instructional Minutes Lost to Planned Shortened Days (Field 20)

Enter the actual instructional time lost due to planned early dismissals (not clock hours). Do not report time lost for full-day dismissals (strike, Act 80, etc.).

PIMS School Calendar Template Specifications

Field No.	Max Length	Name	R/O/CR	Code	Definition	Business Rules	Sample / Valid Value
8	8	CALENDAR PROGRAMS CODE	CR	U, D	Provides additional context for calendars created by LEAs for students in certain special situations. See Sample / Valid Value column.	Required (R) fields for these reporting LEAs: CTC, PRRI, and APS. Conditionally Required (CR) for all other LEAs.	See Appendix R in Volume 2 of the PIMS User Manual for a complete list of valid values.
9	10	CALENDAR START DATE	R	U, M	The date of the first day on the original calendar; this date could be an approved full-day Act 80 day prior to the first day of instruction.	All dates must be entered in ISO format: YYYY-MM-DD	Example: 2012-08-22
10	10	CALENDAR END DATE	R	U, M	The date of the last day on the original calendar; this date could be an approved full-day Act 80 day after the last day of instruction.	All dates must be entered in ISO format: YYYY-MM-DD	Example: 2013-06-13
11	10	INSTRUCTION START DATE	R	U, M	The date of the first day of instruction	Instruction Start Date is on or after the Calendar Start Date (Field 9). All dates must be entered in ISO format: YYYY-MM-DD	Example: 2012-08-27
12	10	INSTRUCTION END DATE	R	U, M	The date of the last day of instruction	All dates must be entered in ISO format: YYYY-MM-DD	Example: 2013-06-13
13	10	GRADUATION CEREMONY DATE	CR	U	The date of the seniors' graduation ceremony The Graduation Ceremony Date is on or after the Instruction End Date (Field 12).	This field is required for calendars that include grade 12 students. All dates must be entered in ISO format: YYYY-MM-DD	Example: 2013-06-15
14	3	NUMBER OF SCHEDULED SCHOOL DAYS	R	U, M	The number of instructional days on the original calendar – planned student instructional days plus PDE-approved Act 80 full days	Report days as whole numbers.	Example: 185

PIMS School Calendar Template Specifications

Field No.	Max Length	Name	R/O/CR	Code	Definition	Business Rules	Sample / Valid Value
15	3	INSTRUCTIONAL MINUTES IN STANDARD DAY	R	U, M	The number of instructional minutes in a regular school day	Report minutes as whole numbers.	Example: 320
16	3	TOTAL DAYS IN SESSION LOST DUE TO STRIKE	R	U, D	The number of instructional days lost due to a work stoppage	Report days as whole numbers.	Example: 0
17	3	TOTAL DAYS IN SESSION LOST DUE TO ACT 80	R	U, D	The number of instructional days lost due to PDE-approved full-day Act 80 dismissals Do not include any approved Act 80 full-day dismissals that were not used.	Report days as whole numbers.	Example: 4
18	3	TOTAL DAYS IN SESSION LOST DUE TO OTHER REASONS	R	U, D	The number of instructional days lost due to other reasons such as snow, flood, or adverse weather conditions If the School Services Office granted a waiver for an emergency school closing, do not include this in the number of days lost.	Report days as whole numbers.	Example: 1
19	3	TOTAL MAKE-UP DAYS	R	U, D	The number of instructional days made up within or beyond the original calendar These days should not be included in Number of Scheduled School Days.	Report days as whole numbers.	Example: 0
20	4	TOTAL INSTRUCTIONAL MINUTES LOST TO PLANNED SHORTENED DAYS	R	U, D	The number of actual instructional minutes lost due to early dismissals or late starts for Act 80 and other planned shortened days Do not include minutes lost due to early dismissals or late starts because of inclement weather.	Report minutes as whole numbers.	Example: 179

Rules

1. Date fields (field name ends in DATE) must be in ISO format: YYYY-MM-DD.
2. CALENDAR PROGRAMS CODE will default to N/A if no value is supplied.
3. CALENDAR PROGRAMS CODE must exist in the PROGRAMS_CODE Table for matching SCHOOL YEAR DATE.
4. CALENDAR START DATE must not be greater than current date.
5. CALENDAR END DATE must be greater than or equal to CALENDAR START DATE.
6. INSTRUCTION START DATE must be greater than or equal to CALENDAR START DATE.
7. INSTRUCTION END DATE must be greater than the INSTRUCTION START DATE and less than or equal to CALENDAR END DATE.
8. If populated, GRADUATION CEREMONY DATE must be greater than or equal to INSTRUCTION END DATE.
9. NUMBER OF SCHEDULED SCHOOL DAYS must be greater than 0.
10. INSTRUCTIONAL MINUTES IN STANDARD DAY must be greater than 0 and less than or equal to 420.
11. Fields 16, 17, 18, 19, and 20 must be greater than or equal to 0; they will default to 0 if no value is supplied.
12. The sum of ...TOTAL DAYS LOST... (16, 17, 18) must be less than or equal to NUMBER OF SCHEDULED SCHOOL DAYS.
13. The sum of ...TOTAL DAYS LOST... (16, 17, 18) must be greater than or equal to TOTAL MAKE-UP DAYS.
14. TOT INSTR MINS IN SESSION LOST TO SHORTENED DAYS must be less than NUMBER OF SCHEDULED SCHOOL DAYS times INSTRUCTIONAL MINUTES IN STANDARD DAY.
15. All records in a duplicate set based on DISTRICT CODE OF INSTRUCTION, SCHOOL YEAR DATE and CALENDAR ID will be rejected.
16. Code Column: K – component of primary key; U – value is updatable if row exists; M – a value must be supplied; D – a value is required but a default is supplied
17. File is to be provided in delimited format; full delimiter support is available.

Student Calendar Fact Template (14 Fields, 14 Collected)

Template Number: 4319

Target Table: PIMS_STUDENT_CALENDAR_FACT

This domain only applies to the following organizational types: School Districts, Intermediate Units, Career and Technology Centers, Charter Schools, Private Residential Rehabilitation Institutions (PRRI), and Approved Private Schools (APS).

Template Description

This template is used to associate a student's membership days with a unique calendar uploaded in the School Calendar file. A student will have more than one record in the Student Calendar Fact file if she was withdrawn and reentered due to a change in one of the following **key** fields: Calendar ID, District Code of Residence, Funding District Code, Residence Status Code, District Code of Sending Charter School, or Grade Level.

Days Enrolled is used to calculate average daily membership (ADM) and Days Present is used to calculate average daily attendance (ADA) for each record.

Grain: One record per District Code of Instruction / School Year Date / Calendar ID / Student ID / District Code of Residence / Funding District Code / Residence Status Code

Please note that only the **Fields highlighted** will be collected for Pennsylvania Department of Education. Remember that all fields may not be mandatory; however, all fields within a template **MUST BE** accounted for in order to transmit data.

Additional Information

District Code of Residence, Funding District Code, and Residence Status Code (Fields 5, 6, and 7)

These key fields are used to identify the school district receiving average daily membership (ADM) state subsidies. Refer to section titled "Students to be Reported in PIMS" in this manual for guidance on populating these important fields.

Run the Student Calendar Fact Validation Report called "Validation of Residence status Code" for your LEA type to identify errors in these fields.

Uploading multiple Student Calendar Fact records, a common error made by LEAs attempting to correct a key field, results in duplicated membership days. It is important to remove the erroneous records by submitting a PIMS Data Maintenance Request form to PDE for a delete. Run the Student Calendar Fact Validation Report called "Students with Multiple Calendar Fact Records" to identify duplicated membership days.

Days Enrolled and Days Present (Fields 8 and 9)

These fields are updatable. The days are not prorated. The Percentage of Time Enrolled in Calendar field is used to prorate or calculate equivalent days enrolled. See examples below.

Percent of Time Enrolled for Calendar (Field 10)

Percent is used to prorate membership if it is less than full time. PIMS calculates equivalent days enrolled by multiplying Days Enrolled by the Percentage of Time Enrolled for Calendar. Equivalent days enrolled divided by days in session equals average daily membership (ADM). Equivalent days present is calculated by multiplying Days Present by the Percentage of Time Enrolled for Calendar. See examples below.

Most students are enrolled full time with their record showing 100 for the Percentage of Time Enrolled for Calendar. Students enrolled in a part-time pre-kindergarten or kindergarten program (half-Day or alternate-day) and students enrolled in a semester-about rotation CTC/AVTS program are considered 100% enrolled.

For students enrolled less than full time, calculate percentage by dividing the student's weekly instructional time by the total weekly instructional time. For example, a student takes one class per day, five days per week (45 min. X 5 days = 225 minutes). If weekly instructional time is 1725 minutes, then $225 \div 1725 = .13$, or 13 percent.

If the percent for part-time membership varies through the school year for a student, calculate a weighted percent. For example, 20% membership for 20 weeks and 30% membership for 10 weeks: $[(20\% \times 20) + (30\% \times 16)] \div 36 \text{ weeks} = .244$, or 24.

A common error made by LEAs is using the Percentage of Time Enrolled as a percentage of attendance. Another error is prorating the equivalent aggregate days membership twice – by populating the prorated membership days in the Days Enrolled field and by using the Percentage of Time Enrolled field to prorate.

Sending Charter School (Location) Code and District Code of Sending Charter School (Fields 13 and 14)

When a charter school contracts with another public entity to educate their student, the educating school populates these fields with the charter school's location code (4-digit building number) and charter school's administrative unit number (9-digit AUN).

NOTE: The following examples show Days Enrolled and Percentage of Time Enrolled in Calendar when student is enrolled less than 100% of the time.

- Student is enrolled the full school year, or 180 days, in an intermediate unit class and mainstreamed in a school district class:
 - intermediate unit reports 180 days enrolled @ 75% ($135 \text{ equivalent days} \div 180 \text{ days in session} = .750 \text{ ADM}$)
 - school district reports 180 days enrolled @ 25% ($45 \text{ equivalent days} \div 180 \text{ days in session} = .250 \text{ ADM}$)
- Nonpublic or home education student is enrolled for one semester, for two classes or part-time in a public school:
 - school district reports 90 days enrolled @ 26% ($23 \text{ equivalent days} \div 180 \text{ days in session} = .127 \text{ ADM}$)
- Student enrolled in a part-time, half-day program at the high school and CTC/AVTS (50% enrolled, regardless of the actual instructional time):
 - charter school reports 180 days @ 50% ($90 \text{ equivalent days} \div 180 \text{ days in session} = .500 \text{ ADM}$)
 - CTC/AVTS reports 178 days @ 50% ($89 \text{ equivalent days} \div 178 \text{ days in session} = .500 \text{ ADM}$)
- Student enrolled part-time (one class) at the high school and full-day at the CTC/AVTS:
 - school district reports 180 days @ 13% ($23 \text{ equivalent days} \div 180 \text{ days in session} = .127 \text{ ADM}$)
 - CTC/AVTS reports 178 days @ 87% ($155 \text{ equivalent days} \div 178 \text{ days in session} = .870 \text{ ADM}$)

- Membership for part-time students who are on track to graduate is prorated based on the amount of instructional time they receive compared to a full-time student.
 - school district reports 179 days @ 39% (70 equivalent days ÷ 179 days in session = .391 ADM)

FAQs

1. What is the deadline for the Child Accounting Accuracy Certification Statement (ACS)?

- The ACS is due September 1 with the expectation that Child Accounting files (School Calendar and School Calendar Fact templates) have been successfully uploaded with reasonable accuracy. The first page of the ACS shows data uploaded by calendar program code. Complete the second page with contact information and chief school administrator's signature.
- If corrections are made to this data, a signed copy of the updated ACS must be sent to the Division of Subsidy Data and Administration at PDE.

2. What calendar do I associate a student's membership with when she is enrolled part-time half-day in both the school district and CTC vocational programs?

- The CTC will upload the career and technical education membership for this student associated with a School Calendar template with Calendar Program Code of CTE-PT. The school district will associate this student's high school membership in the School Calendar template with the Calendar Program Code of CTE-PT-H.
- The CTC and school district will show "Percentage of Time Enrolled in Calendar" (Field 10, Student Calendar Fact template) as 50. *The resident school district will receive Basic Education Funding for the total membership days, and the CTC will receive Secondary Career and Technical Education Funding.*

3. Must we create a separate School Calendar for high school students in the school district-operated approved vocational program?

- Yes, the school district must create a separate School Calendar with the Calendar Program Code of ACTP for the school district-operated vocational program. This calendar will show the identical days and hours as the calendar with no Calendar Program Code for academic students. *The resident school district will receive Basic Education Funding for the total membership days. The educating school district will receive Secondary Career and Technical Education Subsidy for membership associated with ACTP coded calendars.*

4. How are total instructional days (or days in session) and total instructional time calculated?

- Both are calculated using the data in the School Calendar template. Days in session equals the Number of Scheduled School Days minus Days Lost plus Make-up Days (Field 14 minus Field 16 minus Field 17 minus Field 18 plus Field 19).
- Total instructional time equals days in session multiplied by Instructional Minutes in Standard Day minus Total Instructional Minutes Lost to Planned Shortened Days (days in session times Field 15 minus Field 20).

5. What is Percentage of Time Enrolled for Calendar?

- Percentage of Time Enrolled for Calendar (Field 10 in the Student Calendar Fact template) is used to prorate membership for part-time students. Most Student Calendar Fact files will show 100 in this field. Some examples are students who are:
 - enrolled in a full-time program,
 - enrolled based on an IEP or 504 Plan.
 - enrolled in a part-time half-day pre-kindergarten or kindergarten program,
 - enrolled in a semester rotation part-time program at the CTC and half-day at other LEA (school district, charter school, or IU).
 - Students in the following situations will show less than 100% in this field:
 - part-time student educated less than full course load,
 - part-time student mainstreamed in school district classes,
 - part-time student receiving special education classes from intermediate unit,
 - part-time half-day rotation vocational students at the CTC and school district.
 - **NOTE:** Percentage of Time Enrolled for Calendar is not percent of attendance.
-

Course and Grades Domain

The LEAs are required to submit the following templates in the Course and Grades Domain:

- **Course**
- **Course Instructor**
- **Student Course Enrollment**

This domain only applies to the following organizational types:

- School Districts
- Intermediate Units
- Career and Technology Centers
- Charter Schools
- State Juvenile Correctional Institutions

Course Template (46 Fields, 14 Collected)

Template Number: 0310

Target Table: COURSE

Template Description

This template is used to store the attributes of each course at each school. Use the Course Enrollment and Course Instructor templates to associate courses with the students enrolled in each section and the instructors of each section respectively. This table maps the local course to the standardized state codes. The Course template should **include all courses offered during the 2012-2013 school year**.

NOTE: For elementary grades, two options will be offered in 2012-2013:

1. Option 1: for this option, submit as before – 1 elementary course code per student (grade 001, 002, 003, etc.). Only one course per grade is reported at the elementary level. Music, art, health/physical education, technology, and other special subjects are not reported.

OR

2. Option 2: for this option, submit all elementary courses, for example, Grade 1 Reading, Grade 1 Math, etc.

Elementary course codes will be included in a future version of the PIMS Manual.

Non-academic classes, such as study hall and lunch, are not reported at any level.

NOTE: Courses may have multiple sections. Each course should have a single Course Code Long. **Do not** give separate sections of the same course different local course codes.

Grain: One record per LEA / Location / School Year / Course Code / Supplementary Course Differentiator (formerly known as Semester)

Please note that only the **Fields highlighted** will be collected for Pennsylvania Department of Education. Remember that all fields may not be mandatory; however, all fields within a template **MUST BE** accounted for in order to transmit data.

FAQs

Please note that FAQs in this section pertain to the Course Template in the Course and Grades Domain.

1. **Should I report all courses being taught this year or only core content area courses?**
 - Report all courses being taught at any time during the current school year at your LEA. **NOTE:** Do not include courses offered in your catalog with no students enrolled or with no teachers assigned during the current year.

 2. **Should I report all elementary courses being taught this year, or should I report a single course for each elementary grade?**
 - For school year 2012-2013, LEAs have two options for reporting elementary courses. Choose one option only for each regular or special education elementary grade level, except when Grade 6 is departmentalized. **NOTE:** Choose a single option for all elementary courses and remain consistent for the entire year.
 - **Option 1:** Submit elementary courses as before, 1 elementary course code per student (grade 001, 002, 003, etc.). Music, art, health/physical education, technology, and other special subjects are not reported under Option 1. Non-academic subjects such as study hall and lunch are never reported. Beginning in school year 2013-2014 Option 1 will be retired.
 - **Option 2:** Submit all elementary courses (subjects), for example, Grade 1 Reading, Grade 1 Math, etc. Music, art, health/physical education, technology, and other special subject are reported under Option 2. Non-academic subjects such as study hall and lunch are never reported. Beginning in school year 2013-2014 Option 2 will be required.
 - **NOTE:** Elementary course/subject codes will be available in a future version of the PIMS Manual.

Course Instructor Template (22 Fields, 8 Collected)

Template Number: 0410

Target Table: CRSE_INSTRUCT

Template Description

The Course Instructor Template is used to identify the instructor(s) of each section of every course reported in the Course template. The Course Instructor template should be submitted in a cumulative fashion so that all instructors associated with all sections and courses are reported for the entire school year. All active teachers and teachers on long term leave should have course instructor records. Teachers who are terminated during the school year are not reported unless the course they were teaching also ended with their departure. Long term substitutes are reported only when they are filling a vacancy and become the teacher of record. A teacher on leave does not create a vacancy.

Grain: One record per LEA / Location / School Year / Course Code / Section / Supplementary Course Differentiator (formerly known as Semester)

Please note that only the **Fields highlighted** will be collected for Pennsylvania Department of Education. Remember that all fields may not be mandatory; however, all fields within a template **MUST BE** accounted for in order to transmit data.

Rules

1. Date fields (field name ends in DATE) must be in the ISO format: YYYY-MM-DD.
 2. ENROLLMENT PERIOD NUMBER must match an existing MARKING PERIOD NUMBER value in the PERIOD Table for the matching SCHOOL YEAR DATE.
 3. EFFECTIVE DATE is the date the enrollment or withdrawal is effective.
 4. ENROLLMENT CODE must exist in the ENROLL_CODES Table for the matching SCHOOL YEAR DATE where ENROLLMENT CODE TYPE = COURSE.
 5. Code Column: K1* – COURSE CODE LONG must be supplied.
 6. COURSE CODE LONG should be checked first; if null, COURSE CODE is checked.
 7. New clients are recommended to use COURSE CODE LONG.
 8. Code Column: K2* – SECTION CODE LONG must be supplied.
 9. SECTION CODE LONG should be checked first; if null, SECTION CODE is checked.
 10. New clients are recommended to use SECTION CODE LONG.
 11. SUPPLEMENTARY COURSE DIFFERENTIATOR (formerly known as SEMESTER) should match the Supplementary Course Differentiator (Semester) column in the COURSE Table for the relevant COURSE CODE record – the appropriate value may be null.
 12. REQUEST SEQUENCE is used for a student enrolled in more than one course with the same Course Code AND Section Code (may occur with courses such as Independent Study). A default value of 0 will be used if REQUEST SEQUENCE is not supplied.
 13. CLASS PERIOD LONG is the number (or letter) of the period of the day that the class meets.
 14. If populated, COURSE DELIVERY MODEL CODE must exist in the CRSE_DELIVERYMODEL Table.
 15. If populated, COURSE CONTENT CODE must exist in the CRSE_CONTENT_CODE Table.
 16. If populated, COURSE INCLUSION CODE must exist in the CRSE_INCLUSIONCODE Table.
 17. The columns identified with an NCES code are recommended to follow the NCES Non-Fiscal Data Handbook V4.0.
 18. Code Column: K – component of primary key; U – value is updatable if row exists; M – a value must be supplied; D – value is required but a default is supplied.
 19. Code Column: When enclosed within parentheses – e.g. (K,M) – the value is assigned by eScholar.

Discipline Domain

LEAs are required to submit the following templates within the Discipline Domain:

- **Incident**
- **Person**
- **Incident Offender**
- **Incident Offender Infraction**
- **Incident Offender Disciplinary Action**
- **Incident Offender Parent Involvement**
- **Incident Victim**

This domain is used to track School Safety incidents involving all students (including special education students). An incident is defined as a specific act or offense involving one or more victims or offenders. A reportable incident includes one or more acts of misconduct, involving one or more offenders violating criteria defined under Pennsylvania's Act 26 of 1995. These include, but are not limited to, any behavior that violates a school's educational mission or climate of respect, or jeopardizes the intent of the school to be free of aggression against persons or property, drugs, weapons, disruptions, and disorder. Examples are incidents involving acts of violence, possession of a weapon, or the possession, use or sale of a controlled substance, alcohol, or tobacco by any person on school property, at school-sponsored events, and on school transportation to and from school.

As indicated above, not all incidents are to be reported in these Discipline Domain templates to PIMS. For example, academic incidents such as cheating or plagiarism are not to be reported here. **NOTE:** These types of incidents may need to be reported in aggregate in the Location Fact template if they result in an expulsion or out of school suspension, though. Please refer to the Location Fact template in the Location Domain section. See Appendix Z in Volume 2 of the PIMS User Manual for a list of the infractions that are to be reported in these Discipline Domain templates.

If a school has no reportable School Safety incidents for the entire school year a record indicating this must be entered in the Location Fact template. Please refer to that section.

NOTE: An incident is to be reported by the entity that provides the discipline. For example, if a reportable incident occurs in the confines of a class offered by an IU the IU should report the incident if the IU disciplines the student. If the student is referred to the district of residence (home district) for discipline, the district of residence should report the incident.

This domain only applies to the following organizational types:

- School Districts
- Intermediate Units
- Career and Technology Centers
- Charter Schools

Incident Template (16 Fields, 9 Collected)

Target Table: INCIDENT

Template Description

This template defines the primary details of a discipline incident. One record should be submitted per each reportable School Safety incident. See the Discipline Domain description for more information on reportable incidents. If a school has no reportable School Safety incidents for the entire school year a record indicating this must be entered in the Location Fact template. Please refer to that section.

Grain: One record per Submitting District Code / School Year Date / Incident ID

Please note that only the **Fields highlighted** will be collected for Pennsylvania Department of Education. Remember that all fields may not be mandatory; however, all fields within a template **MUST BE** accounted for in order to transmit data.

Person Template (10 Fields, 10 Collected)

Target Table: PERSON

Template Description

This template defines the primary details of both offenders and victims.

Please note that this template can be used to individually identify a victim or offender as it contains fields for the PAsecureID (Field 5) and name (Fields 7 and 8). LEAs, however, do not need to identify a victim individually using these fields. LEAs can elect to keep the victim anonymous by using an LEA-created ID instead of the PAsecureID to populate these fields within this template for victims. Note that the gender and race/ethnicity of the person is required if known.

Offenders, if known, must be individually identified within this template. The PAsecureID must be submitted in Field 5 if the offender is a current student. If the offender is not a current student, the first and last name should be entered in Fields 7 and 8.

Grain: One record per Submitting District Code / Person ID / School Year Date.

Please note that only the **Fields highlighted** will be collected for Pennsylvania Department of Education. Remember that all fields may not be mandatory; however, all fields within a template **MUST BE** accounted for in order to transmit data.

*Student is a dependency only if Field 5 (Student ID) is populated in this template with the PAsecureID.

FAQs**1. How do I enter a student's last name that is hyphenated?**

- When a student has a hyphenated last name, the student and his/her family should be permitted to choose whether one or both of the last names will be used on enrollment and PIMS information. The Department requests that when enrolling a student as a transfer to your district you determine the name that was used in the previous district and make every effort to remain consistent.

Incident Offender Disciplinary Action Template (11 Fields, 8 Collected)

Target Table: INCIDENT_OFFNDR_DSPLNRY_ACTION

Template Description

This template is used to track disciplinary sanctions as well as referral to or participation in remedial programs. Each known offender should have one and only one sanction record in this template identifying the “highest” or most severe sanction (Disciplinary Action Code between S1 and S10). If referred to or participating in remedial programs the offender also will have one or multiple additional records in this template with the Disciplinary Action Code between R1 and R9.

If the offender is unknown for an incident, do not submit a record in this template.

Incident Offender Parent Involvement Template (6 Fields, 6 Collected)

Target Table: INCIDENT_OFFNDR_PARENT_INVOLVE

Template Description

This template connects an incident and the offender to one or multiple parental involvement types. If there are multiple parental involvement types for an incident/offender, include multiple records within this template with the same Incident ID and Offender ID. If the offender is unknown for an incident or there is no parental involvement, do not submit a record in this template.

Grain: One record per Submitting District Code / Incident ID / Offender ID / Parental Involvement Code / School Year Date

Please note that only the **Fields highlighted** will be collected for Pennsylvania Department of Education. Remember that all fields may not be mandatory; however, all fields within a template **MUST BE** accounted for in order to transmit data.

Incident Victim Template (12 Fields, 11 Collected)

Target Table: INCIDENT_VICTIM

Template Description

This template connects one or multiple victims to each specific incident. In cases of incidents when there are crimes against property, such as vandalism in Field 5 of this template, Valid Value 8 (school/school facility) should be used. Note that not all incidents will have a victim. For example, a fighting incident will not have a victim (all parties are considered offenders in this case). See Appendix Z in Volume 2 of the PIMS User Manual for more information (the “Infraction has Victims?” column). If there are no victims associated with the incident, do not submit any records in this template.

District Snapshot Template (96 Fields, 6 Collected)

Template Number:

Target Table(s): DISTRICT_YEAR

This domain only applies to the following organizational types:

- **School Districts**
- **Charter Schools**

Template Description

For school districts and charter schools, Pennsylvania collects the starting age (in months) for the youngest kindergarten student (K4 or K5), as well as the cutoff date to reach minimum age for the program.

District Entry Minimum Age: Populate this age field with the number of months (two digits) rather than the number of years. For example, if the minimum entry age is 5 years 0 months, upload 60.

District Entry Cutoff Date: Enter the last date on which a student may meet the minimum required age for entry into the earliest kindergarten program. The date is within the current school year, not the birth year.

Kindergarten Program Type: Populate this field with a two-digit code of K4 for a two-year kindergarten program or K5 for a one-year program.

NOTE: Only one record per LEA will be required.

School Enrollment Template (11 Fields, 9 Collected)

Template Number: 0420

Target Table(s): SCHOOL_ENROLL

Template Description

This template contains the student enrollment and withdrawal transactions at each school within each LEA. This template will be used to track student mobility. Submit all mobility transactions for all students throughout the entire year, not just students active at the end of the year, and not just the last transaction for a student. At least one record should exist in this template for every student enrolled in an LEA at any time during the school year.

For each reporting date, submit all enrollment entry and exit transactions that occurred since the prior reporting date. For example, for the December Collection Period, submit all transactions dated since the October Collection period. In the event that an enrollment transaction wasn't entered in the previous reporting period, it is still acceptable to enter the enrollment transaction as long as it occurred within the current school year.

Grain: One record per LEA / Location / School Year / Student / "Mobility Transaction"

Please note that only the **Fields highlighted** will be collected for Pennsylvania Department of Education. Remember that all fields may not be mandatory; however, all fields within a template **MUST BE** accounted for in order to transmit data.

FAQs

Please note that FAQs in this section pertain to the School Enrollment Template in the Enrollment Domain.

1. Must enrollment information be submitted for all students?

- Yes, enrollment records must be submitted for all students enrolled at any time during a school year. Refer to the “Who Reports Whom” document in the Document Repository on the PIMS website, (http://www.portal.pa.gov/portal/server.pt/directory/pims_how_to_guides_training_docs/71510) for a detailed description of which LEA is responsible for submitting data on each type of student. Also see Volume 2 of the PIMS User Manual for a complete list of Enrollment Codes, which includes codes for both entry and withdrawal transactions.

2. Do I have to submit all enrollment records for a student?

- Yes. If, for example, a student enrolls and withdraws from a particular school twice during a school year, PIMS must receive four enrollment records for that student – two entry transactions and two withdrawal transactions.
 - It is **not** sufficient to send only the most recent transaction.
-

Programs Fact Template (25 Fields, 11 Collected)*

Template Number: 0560

Target Table(s): PROGRAMS_FACT (Primary Target), REASONS_FACT

Template Description

This template is used to track participation for specific programs; a complete list of programs to be collected can be found in Volume 2 of the PIMS User Manual. LEAs must report the actual beginning date (and if applicable, the actual ending date) for a student's participation in a particular program during a school year. Thus, for each reporting date, each LEA will submit two types of records.

The first type of record is for a student **currently active** in a program. It contains each student whose participation in a particular program began on or before the current reporting date but after the prior reporting date, and who is still participating in the program as of the current reporting date. The ending date will be left blank in these records, and the beginning date will be populated with the actual date the student began participating in the program. For example, for the 11/15/2012 reporting date, submit all program participation records with beginning dates after 10/1/2012 up to and including 11/15/2012. If the student participated in a program for the entire 2012-2013 school year, she would have a submitted record in the October collection with the start date as the beginning of the school year. At the end of the school year, the LEA would then update that same record with the end date of 2013-06-30. If the student continued in that same program in the 2013-2014 school year, the LEA would submit a record in the October collection with the start date as the beginning of the school year.

The second type of record is for students that **ended participation** in a program since the prior reporting date. It contains students whose participation began at any point from the start of the current school year up to and including the current reporting date, and whose participation ended after the previous reporting date, up to and including the current reporting date. For these records, both the beginning and ending dates must be populated with the actual dates the student started and ended participation in a particular program. For example, for the 11/15/2012 reporting date, submit all program participation records with ending dates after 10/1/2012 up to and including 11/15/2012. If the student participated in a program for the entire 2012-2013 school year, she would have a submitted record in the October collection with the start date as the beginning of the school year. At the end of the school year, the LEA would then update that same record with the end date of 2013-06-30. If the student continued in that same program in the 2013-2014 school year, the LEA would submit a record in the October collection with the start date as the beginning of the school year.

Program participation records are specific to a particular school year. In the case of a student whose **participation in a program extends over two or more school years**, please submit a record in the final (August) submission of each school year that has an ending date equal to the last day of that school year (yyyy-06-30), and then submit a new record in the first (October) submission of the new school year that has a beginning date equal to the first day of the new school year (yyyy-07-01).

For example, consider a student that begins participating in program 001 on 9/5/2007 and ends participation on 9/25/2009. The following records should be submitted for these reporting periods:

- October 2007: program code = 001, school year = 2008-06-30, beginning date = 2007-09-05
- August 2008: program code = 001, school year = 2008-06-30, beginning date = 2007-09-05, ending date = 2008-06-30
- October 2008: program code = 001, school year = 2009-06-30, beginning date = 2008-07-01
- August 2009: program code = 001, school year = 2009-06-30, beginning date = 2008-07-01, ending date = 2009-06-30
- October 2009: program code = 001, school year = 2010-06-30, beginning date = 2009-07-01, ending date = 2009-09-25

The beginning date for any given record should never be earlier than the first day of the associated school year, and the ending date (when populated) should never be later than the last day of the school year.

***IMPORTANT NOTE:** This template is being used to accommodate the SES provider number for students enrolled in the “SES Tutoring (Federal) – Reading,” “SES Tutoring (Federal) – Math,” and “SES Tutoring (Federal) – Science” programs (Program Codes 003, 004, and 034 respectively). This will be captured in the Program Provider Type Code field (Field 23).

LEAs that have students enrolled in these programs need to ensure their data extracts are modified to accommodate the 25-field layout and populate the Program Provider Type Code field as appropriate. LEAs that do not have students enrolled in these programs, however, DO NOT need to modify their extracts. These LEAs can continue to submit the 18-field layout for this template.

PDE requests that LEAs with students in SES tutoring submit records in this template for all students that received this tutoring during the school year, even if the student was not receiving these services at the end of the year. This is so PDE can capture the SES Provider Number within the Program Provider Type Code field (Field 23) for all of these students as is required by federal law.

Grain: One record per LEA / Location / School Year / Student / Program

Please note that only the **Fields highlighted** will be collected for Pennsylvania Department of Education. Remember that all fields may not be mandatory; however, all fields within a template **MUST BE** accounted for in order to transmit data.

Rules:

1. Date fields (field name ends in DATE) must be in the ISO format: YYYY-MM-DD.
2. PROGRAMS CODE must exist in the PROGRAMS_CODE Table for matching SCHOOL YEAR DATE.
3. BEGINNING DATE must not be greater than current date.
4. ENDING DATE must be greater than or equal to BEGINNING DATE.
5. STATE LOCATION ID identifies the servicing location (state identifier).
6. If populated, ENTRY and EXIT REASON CODE fields must exist in the REASONS_CODE Table for matching SCHOOL YEAR DATE; no duplicates are allowed.
7. ENTRY and EXIT REASON CODE fields may be up to 16 bytes in length when using delimited files.
8. ORIGINAL PGM START DATE must not be greater than current date.
9. Use PARTICIPATION INFO CODE for defined comments; PROGRAM COMMENT for free-form comments.
10. The columns identified with an NCES code are recommended to follow the NCES Non-Fiscal Data Handbook V4.0.
11. Code Column: K – component of primary key; U – value is updatable if row exists; M – a value must be supplied; Z – value added if not previously supplied.
12. Code Column: When enclosed within parentheses - e.g. (K,M) - the value is assigned by eScholar.

FAQs

Please note that FAQs in this section pertain to the Programs Fact Template in the Groups and Programs Domain.

1. **Do I have to submit all program participation records for a student?**
 - Yes. If, for example, a student begins participation in a program **after** the 10/1/2012 reporting date but ends participation in that program **between** the October and November reporting dates, PIMS must receive **one** program participation record in the November collection that shows the actual beginning and ending dates for that student in that program.
 - It is **not** sufficient to send only students actively participating as of each reporting date.
2. **What if the student's participation overlaps a reporting date?**
 - If, for example, a student begins participation in a program **before** the 10/1/2012 reporting date and ends participation in that program **between** the October and November reporting dates, PIMS must receive **two** program participation records for that student:
 - in the October 2012 collection, submit a record with the beginning date populated, but the ending date left blank;
 - in the November 2012 collection, submit a second record identical to what was submitted in October, except with the ending date populated also.
 - If, for example, a student begins participation in a program **before** the 10/1/2012 reporting date and ends participation in that program **between** the March and August reporting dates, PIMS must still receive **only two** program participation records for that student: one in October with a blank ending date, and one in August with a populated ending date.
3. **What if the student's participation extends from one school year into a second school year?**
 - Program participation records include the school year as part of the key that makes them unique. For that reason, for any instances in which a student's participation in a program extends from one school year into the next school year, the LEA must submit new Programs Fact records for each year of the student's participation. This means doing the following:
 - at the end of the first school year, submit a record in the August collection with an ending date equal to the last day of the first school year;
 - at the beginning of the second school year, submit a record in the October collection that has the beginning date equal to the first day of the second school year.
 - Repeat as necessary if the participation extends into three or more school years.
4. **Any guidance on beginning dates and ending dates?**
 - Program participation records include the school year as part of the key that makes them unique. For that reason the beginning date and ending date for a particular program participation record must fall within the dates of the school year associated with the record. For the 2012-2013 school year, that means these dates should fall between 7/1/2012 and 6/30/2013.
5. **What programs information from PIMS is used to generate the PreCode file that will be sent to DRC?**
 - Title III
 - Title I (all parts)

FAQs, continued**6. Is it possible for students to enter in and out of periods of homelessness during the year?**

- Yes. If a student has multiple periods of homelessness in a single year, all entry and exit dates should be reported.

7. What are the types of homeless situations?

- The definition of “Primary Nighttime Residence” is the type of residence (e.g. shelter, doubled-up in the home of a relative or friend, unsheltered, or in a hotel/motel) where a homeless child or unaccompanied youth was staying at the time of enrollment or the type of residence where a currently enrolled child or youth was staying when he or she was identified as homeless.
 - **Shelters:** Supervised publicly or privately operated facilities designed to provide temporary living accommodations
 - **Transitional Housing:** Temporary accommodation for homeless individuals and families provided as a step to permanent housing. Residents of transitional housing continue to be considered homeless until they move into permanent housing.
 - **Awaiting Foster Care Placement:** The McKinney-Vento Act does not define this term; however, many state and local child welfare agencies and education agencies have developed definitions of who is considered to be “awaiting foster care placement” in their state or locality. State and/or local definition should be the guide for determining this classification.
 - **Doubled-Up:** Living with another family. The McKinney-Vento Act defines this term as “sharing the housing of other persons due to loss of housing, economic hardship, or a similar reason” [725(2)(B)]. This classification particularly requires a case-by-case determination.
 - **NOTE:** The determining factor is whether the accommodation is a “fixed, regular, and adequate nighttime residence.”
 - **Unsheltered:** Includes cars, parks, campgrounds, temporary trailers, abandoned buildings, and substandard housing. Substandard housing may be determined by local building codes, community norms, and/or as a case-by-case determination as to whether the accommodation is a “fixed, regular, and adequate nighttime residence.” Because FEMA trailers are considered temporary trailers, FEMA trailers primary nighttime residence category would be “Unsheltered.”

Location Fact Template (18 Fields, 9 Collected)

Target Table: LOCATION_FACT

Template Description

This template is used to capture the various aggregated data shown in the table below for each school. More information as well as sample data is provided below.

Category	Data Captured
Habitual Truancy	Habitual truancy by grade level
	Habitual truancy by ethnicity
	Habitual truancy by gender
Indication of no Reportable School Safety Incidents for a School	N/A
Expulsions due to Academic or Student Code Violations	Expulsions by infraction category (academic or violation of student code of conduct) by grade level
	Expulsions by infraction category by ethnicity
	Expulsions by infraction category by gender
Out of School Suspensions due to Academic or Student Code Violations	Out of school suspensions by infraction category (academic or violation of student code of conduct) by grade level
	Out of school suspensions by infraction category by ethnicity
	Out of school suspensions by infraction category by gender

Habitual Truancy Notes

Students that are considered habitually truant at any time during the school year are to be reported in aggregate in this template. Note that the aggregate number of habitual truants is to be reported by grade, by ethnicity and by gender. Each habitually truant student should be counted only once in each of these.

Habitually truant is defined by the School Code as an unlawful absence for more than three (3) school days or their equivalent following the first notice of truancy given to the student. The first notice of truancy should be provided to the student after three (3) school days or their equivalent of unlawful absences from compulsory education within a specified time period. Each LEA should have specific policies regarding truancy.

This truancy definition distinguishes between all absences and unlawful absences because the latter are more likely to indicate school and student problems. An unlawful absence is an absence for part of a school day (i.e., at least one class period) or a full day for which a parent or guardian has not indicated in writing that the student is away from school for valid reasons (e.g., illness, medical/dental appointment, funeral of an immediate relative). Suspensions and expulsions are not to be considered as unlawful absences.

PDE will use this data to calculate a truancy rate for each school and LEA. The truancy rate calculation is shown below.

$$\text{TRUANCY RATE} = \frac{\text{Number of habitual truants}}{\text{Count of student membership}} \times 100$$

See the template specifications below and Appendix AA in Volume 2 of the PIMS User Manual for more information.

Indication of No Reportable School Safety Incidents for a School Notes

Reportable School Safety incidents are to be submitted in detail in the Discipline Domain templates. (See the Discipline Domain section for more information on reportable incidents). Some schools (most often elementary schools) may not have any reportable School Safety incidents for the entire school year. In this situation an LEA must indicate such by submitting a record in this template for each school that does not have reportable incidents for the year.

See the template specifications and sample data below as well as Appendix AA in Volume 2 of the PIMS User Manual for more information.

Expulsion Notes

Students that are expelled during the school year **only for academic reasons or for violations of the student code of conduct** are to be reported in aggregate in this template. Expulsions for other reasons (e.g., drug possession, violence, etc.) should be reported at the detail level in the Discipline Domain templates and should not be included in aggregate here.

Note that the aggregate number of expelled students is to be reported by infraction category by grade level, by infraction category by ethnicity, and by infraction category by gender. It is also important to note that this expulsion data is to be reported on an **unduplicated student basis, not on an incident basis**. If a student is expelled multiple times during the school year for these reasons he should be counted only once in each of these aggregate submissions.

See the template specifications and sample data below as well as Appendix AA in Volume 2 of the PIMS User Manual for more information.

Out of School Suspension Notes

Students that are suspended out of school during the school year **only for academic reasons or for violations of the student code of conduct** are to be reported in aggregate in this template. Out of school suspensions for other reasons (e.g., drug possession, violence, etc.) should be reported at the detail level in the Discipline Domain templates and should not be included in aggregate here.

Note that the aggregate number of out of school suspended students is to be reported by infraction category by grade level, by infraction category by ethnicity, and by infraction category by gender. It is also important to note that this suspension data is to be reported **on an incident basis**. If a student is suspended out of school multiple times during the school year for the above reasons he should be counted multiple times in each of these aggregate submissions.

See the template specifications and sample data below as well as Appendix AA in Volume 2 of the PIMS User Manual for more information.

Sample Data

Sample data is provided below to help LEAs understand how to create this template. This sample data is for one school and is based on the following scenarios:

- **Habitual Truancy** - The school has 25 habitually truant students for the school year. The breakdown of these students by grade level, ethnicity and gender is outlined in the following table.

		Number of Habitual Truant Students
By Grade	10 th grade	10
	11 th grade	10
	12 th grade	5
	Total	25
By Ethnicity	White/Caucasian	25
	Total	25
By Gender	Female	8
	Male	17
	Total	25

- Expulsions** – Nine (9) students were expelled during the year at the school for reasons of academic or student code violations. The breakdown by infraction category by grade level, by infraction category by ethnicity, and by infraction category by gender is outlined in the following table.

		Number of Students Expelled	
		Expelled due to Academic Reasons	Expelled due to Violation of Student Code of Conduct
By Grade	10 th grade	3	1
	11 th grade	2	2
	12 th grade	1	0
	Total	6	3
By Ethnicity	Black/African American	3	1
	Multi-Racial	0	1
	White/Caucasian	3	1
	Total	6	3
By Gender	Female	0	0
	Male	6	3
	Total	6	3

- Out of School Suspensions** – There were 13 incidents at the school during the year that led to 13 students being out of school suspended for reasons of academic or student code violations. The breakdown by infraction category by grade level, by infraction category by ethnicity, and by infraction category by gender is outlined in the following table.

		Number of Out of School Suspension Incidents	
		Suspensions due to Academic Reasons	Suspensions due to Violation of Student Code of Conduct
By Grade	10 th grade	0	1
	11 th grade	4	6
	12 th grade	1	1
	Total	5	8
By Ethnicity	Black/African American	3	2
	White/Caucasian	2	6
	Total	5	8
By Gender	Female	2	2
	Male	3	6
	Total	5	8

Based on these above scenarios the data submitted in the Location Fact template for this one school would be as shown below. Note that NC stands for "Not Collected."

Target Table: SURVEY_PARTCPNT_RESPONSE

Template Description

The Survey Participant Response Template is used to capture the results of the PATI IU Technology Survey, the PATI LEA Technology Survey and the PATI School Technology Survey. The IU survey applies only to Intermediate Units. The LEA and School surveys apply to school districts, charter schools and career and technology centers.

For the IU and LEA surveys the grain of this template is one record per survey response or answer. There are 14 questions within the IU survey (all of which are required) so IUs will submit 14 records in this template. Likewise, for the LEA survey, there are 14 questions requiring 14 records in the template.

For the School survey the grain is one record per school per survey response or answer. There are 99 questions in this survey. Therefore, 99 records will be submitted in this template for each school.

See the tables subsequent to the template specifications below for details on the questions pertaining to each survey. Note that school districts, charter schools and career and technology centers, which must submit both the LEA and School surveys, can do so in one file or in separate files.

Grain: One record per District Code / Survey Name / Survey Administration / Participant ID / Survey Question ID

Please note that only the **Fields highlighted** will be collected for Pennsylvania Department of Education. Remember that all fields may not be mandatory; however, all fields within a template **MUST BE** accounted for in order to transmit data.

Survey Participant Response Template Specifications

Field No.	Max Length	Name	R/O/CR	Code	Definition	Business Rules	Sample / Valid Value
1	9	DISTRICT CODE	R	(K, M)	The unique, 9-digit Administrative Unit Number (AUN) assigned by the Pennsylvania Department of Education		Example: 123456789 All LEA and School codes can be found at http://www.edna.ed.state.pa.us/
2	N/A	SURVEY NAME	R	(K, M)	The name of the survey; see Valid Values.	Value must be in all capital letters.	Valid values: <ul style="list-style-type: none"> • PATI_IU – PATI IU Technology Survey • PATI_LEA – PATI LEA Technology Survey • PATI_SCHOOL – PATI School Technology Survey
3	10	SURVEY ADMINISTRATION	R	(K, M)	The school year of the survey. A single date indicating the whole school year; the June 30 at the end of the standard school year is used to designate a school year. Thus, the 2012-2013 school year would be indicated by 2013-06-30.	All dates must be entered in ISO format: YYYY-MM-DD	Example: 2013-06-30
4	9	PARTICIPANT ID	R	(K, M)	For the PATI IU and LEA surveys use the AUN (District Code). For the PATI School survey use the PDE-defined 4-digit code identifying the school (Location Code).		Example District Code: 123456789 Example Location Code: 1234 All LEA and School codes can be found at http://www.edna.ed.state.pa.us/
5	N/A	SURVEY QUESTION ID	R	(K, M)	The Survey Question ID. See the appropriate table below for the list of questions, their Survey Question ID and Survey Choice Values.		Valid values are defined for each survey in the tables below.

Survey Participant Response Template Specifications

Field No.	Max Length	Name	R/O/CR	Code	Definition	Business Rules	Sample / Valid Value
6	N/A	SURVEY CHOICE VALUE	R	(K, M)	The Survey Choice Value (the answer); see the appropriate table below for the list of questions, their Survey Question ID and Survey Choice Values.	This field is required and must be submitted for all responses. For those questions that technically only require a free form response a value of 99 must be supplied.	Valid values are defined for each survey in the tables below.
7	Not collected						
8	4000	FREE FORM RESPONSE TEXT	CR	U	If applicable, the free form response to the survey question	This field is only submitted when a free form response is necessary.	

PATI IU Technology Survey (14 Questions)

The table below presents the 14 questions that comprise the PATI IU Technology Survey. Associated with each question is a Survey Question ID and the possible Survey Choice Values. A response to each question must be submitted in the template.

Section 1 – IU-Based WAN Transport Questions		
10	Does the IU have an IU-Based Wide Area Network (WAN) connection where you are able to share one Internet connect with ALL your LEAs within your IU? An IU-Based WAN is defined as a network that has the potential to connect all the LEAs within YOUR Intermediate Unit.	<ul style="list-style-type: none"> • 1 – Yes • 2 – No
20	Which of the LEAs are not connected to your IU WAN?	<ul style="list-style-type: none"> • 98 – Not Applicable (all LEAs connected to IU WAN) • 99 – Free form response* <p>*Additional detail required to be submitted in Free Form Response Text field</p>
30	Where is the IU Head End connection (Hub site) of the WAN located? If the IU Head End is located in a district or school building, identify the name of the location where the Head End is located.	<ul style="list-style-type: none"> • 1 – Intermediate Unit • 2 – External Service Provider (e.g., ISP, university, etc.) • 4 – District or School Building (please identify)* • 99 – Other* <p>* Additional detail required to be submitted in Free Form Response Text field</p>

Staff Domain

The LEAs are required to submit the following templates in the Staff Domain:

- **Staff**
- **Staff Snapshot**
- **Staff Assignment**
- **Staff Development Fact**

This domain only applies to the following organizational types:

- School Districts
- Intermediate Units
- Career and Technology Centers
- Charter Schools
- State Juvenile Correctional Institutions **NOTE:** SJCIs do not need to submit the Staff Development Fact template, which is part of the School Safety Collection.

Staff Template (95 Fields, 34 Collected)**Template Number: 0330****Target Table: STAFF**

Template Description

This template is meant to reflect the current professional employee situation – there is only one LEA record for each professional employee, even if the employee has worked in more than one location within the LEA for a given collection period.

School security staff, including directly employed or contracted school police officers, school resource officers, and school security officers, are collected in this template from school year 2009-2010 and forward. These staff members are to be reported during the May 15 – July 31 Safe Schools reporting window. During this submission only the fields listed below are required. All security staff members for the entire school year should be reported during this window, even if the individual is no longer working as a security officer at the end of the school year. **NOTE:** Professional staff should **not** be submitted during the summer security staff submission.

Fields required during the May 15 – July 31 Safe Schools reporting window:

- District Code (Field 1)
- Staff ID (Field 2)
- Location Code (Field 14)
- Staff Qualification Status Code (Field 48)
- First Name Long (Field 65)
- Last Name Long (Field 66)
- Authorized to Carry Weapon Indicator (Field 95)

If an LEA has no directly employed or contracted security staff a record indicating this must be entered in the District Fact template. Please refer to this section.

Grain: One record per LEA / Staff

Please note that only the **Fields highlighted** will be collected for Pennsylvania Department of Education. Remember that all fields may not be mandatory; however, all fields within a template **MUST BE** accounted for in order to transmit data.

Rules:

1. STAFF IDS must be unique within an LEA.
 2. Date fields (field name ends in DATE) must be in the ISO format: YYYY-MM-DD.
 3. SOCIAL SECURITY NUMBER should be in the format NNNNNNNNNN.
 4. Only one of LAST NAME/LAST NAME LONG and FIRST NAME/FIRST NAME LONG should be populated.
 5. LAST NAME LONG should be checked first; if null, LAST NAME SHORT is used.
 6. FIRST NAME LONG should be checked first; if null, FIRST NAME SHORT is used.
 7. New clients are recommended to use LAST NAME LONG and FIRST NAME LONG.
 8. If the Staff FIRST and LAST NAME values are not available as separate values, use FULL STAFF NAME.
 9. The STAFF_NAME column is populated from FULL STAFF NAME; if null, the column is generated by combining LAST NAME ' , ' FIRST NAME values with customizable capitalization.
 10. The LOCATION CODE is the code of the primary location for the staff member and is required.
 11. Phone numbers should be in the format 555-555-5555.
 12. ZIP CODE information can be supplied by component (BASE ZIP CODE and ZIP CODE +4) or as a single FULL ZIP CODE.
 13. If components only are supplied, a FULL ZIP CODE will be generated by combining BASE ZIP CODE, '-', and ZIP CODE +4.
 14. MEDICAL EXAM and SUBSTANCE TEST should be Y or N.
 15. CITIZENSHIP and FELONY should be Y or N.
 16. BIRTH DATE must be within set range such that staff age is between 22 and 75.

FAQs

Please note that FAQs in this section pertain to the Staff Template in the Staff Domain.

- 1. How should the Staff and Staff Snapshot templates be submitted?**
 - All professional personnel and school security personnel should be reported in the Staff and Staff Snapshot templates. Professional staff must be reported in the October snapshot; school security staff must be reported in the June snapshot. See the "Staff to Be Reported in PIMS" section of the PIMS User Manual, Volume 1, for more information on which staff members should be reported.
- 2. Can an LEA decide to populate the Snapshot Date within the Staff template so that the format of this template is consistent with the Staff Snapshot template?**
 - Yes, LEAs can populate this field. It will be ignored in the Staff template.
- 3. How are staff reported if they are not assigned to a particular school?**
 - Each LEA will use a generic location code of "9999" for staff working off-site.
 - Use a generic location code of "0000" for LEA Administrators that work at district offices and not directly with students, e.g. superintendents, business managers, home and school visitors, etc.
 - LEAs with a single school location such as charter schools and AVTSs/CTCs should use the single school location for all staff instead of 0000.
 - Psychologists, social workers, and school nurses may be assigned to the location where they spend most of their time.
- 4. What should be entered in the Annual Salary field if professional personnel are in negotiations working without a contract?**
 - Submit the most current salaries available and report "NO" in Field 63 (Local Contract).

FAQs, continued**5. What does annual salary include?**

- If the employee is employed in two or more LEAs, enter only the salary for the reporting LEA and enter the percent of time employed within the reporting LEA only. For personnel servicing both elementary/secondary and adult programs, do not include salary covering the adult portion of the assignment.
- Do not include fringe benefits or extra pay for extra duties assumed voluntarily, such as coaching and student activity advising.
- Enter the full contract salary for personnel on leave and indicate the type of leave in the “Active/Inactive Indicator” column. DO NOT prorate the salary of an individual on leave because they are only receiving a portion of their contracted salary. **NOTE:** Salary for a part-time employee is the yearly salary the employee is being paid. It is not a per diem rate nor is it converted to a full-time salary.
- Salary for employees on Charter School Leave should be “0.”
Salary for employees on Worker’s Compensation more than one year should be “0.”
- Salary for terminated employees should be “0.”
- Do not report hourly rates. Calculate the annual salary based on the estimated number of hours that will be worked and the hourly salary. If necessary, update the figure at the end of the year when the actual amount is known.
- Substitutes are not included in this report unless they are filling a vacant position.

7. How shall I report the salary of administrators who serve multiple charter schools?

- Administrators, including the chief executive officer, chief school administrator, and all other employees who by virtue of their positions exercise management or operational oversight responsibilities, shall report their full salary from the school that issues their paycheck.
- Enter a zero salary for the other charter schools served by these administrators. Ignore any corresponding feedback report warnings regarding these zero salaries.
- Continue to mark these administrators as part-time in the Staff and Staff Snapshot templates. Divide their percent time assigned in the Staff Assignment template between all schools.

8. Should I include terminated staff in my staff snapshot?

- Yes, after they leave your LEA, terminated staff should be included in the following year’s staff snapshot file to allow reporting of their termination.

FAQs, continued**9. How do I report terminated staff?**

- In the first PIMS Staff Snapshot after a staff member exits the LEA, report the following in Staff and Staff Snapshot templates (in addition to all required fields):
 - Field 41, Active /Inactive Indicator – “T” (terminated)
 - Field 36, the exit date
 - Field 54, the appropriate termination code
 - Field 52, Annual Salary should be “0.”

10. What termination code shall I use to report staff who will no longer be reported but who still work for my LEA?

- Use Termination Code 08 (Other) in Field 54 in the Staff and Staff Snapshot templates to indicate that staff who still work at the LEA will no longer be reported. This designation is applied to someone reported in a prior year that does not meet reporting requirements, such as support staff.

11. What termination code do I use to correct invalid staff IDs that cannot be deleted?

- Use termination code 15 in Field 54 in the Staff and Staff Snapshot templates to report staff that were uploaded with an invalid ID. This code should only be used when directed by PDE for specific cases in which a staff record could not be deleted.

12. What happens if an LEA has no directly employed or contracted school security staff?

- If an LEA has no directly employed or contracted security staff, a record indicating this must be entered in the District Fact template during the June reporting window. Please refer to that section. In this case, no school security records should be submitted in the Staff, Staff Snapshot, Staff Assignment, or Staff Development Fact templates.

13. Do staff that provide security services at extracurricular activities such as sports need to be submitted?

- No, these staff do not need to be submitted to PIMS.

14. How do I report staff employed as non-supervisory Dean of Student(s)?

- Use Code 9900, “Other Not Listed Above (certificated personnel).”

Staff Snapshot Template (95 Fields, 35 Collected)

Template Number: 0610

Target Table: STAFF_SNAPSHOT

Template Description

This table is used to record a point-in-time view of the staff population. The Staff Snapshot template can be used to track changes over time since there is one record for each staff member for each snapshot date. The Staff Snapshot template must be submitted in a point-in-time fashion. All types of professional staff should be included in this template. However, terminated staff should be included in this template only if they have been terminated since the last collection period.

School security staff, including directly employed or contracted school police officers, school resource officers, and school security officers, also are collected in this template. These staff members are to be reported during the May 15 – July 31 Safe Schools reporting window. During this submission only the fields listed below are required. All security staff members for the entire school year should be reported during this window, even if the individual no longer is working as a security officer at the end of the school year.

Fields required during the May 15 – July 31 Safe Schools reporting window:

- 1 – District Code
- 2 – Staff ID
- 14 – Location Code
- 48 – Staff Qualification Status Code
- 65 – First Name Long
- 66 – Last Name Long
- 95 – Authorized to Carry Weapon Indicator

If an LEA has no directly employed or contracted security staff, a record indicating this must be entered in the District Fact template. Please refer to this section.

Grain: One record per LEA / Staff / Snapshot Date

Please note that only the **Fields highlighted** will be collected for Pennsylvania Department of Education. Remember that all fields may not be mandatory; however, all fields within a template **MUST BE** accounted for in order to transmit data.

Rules:

1. This template is a mirror of the STAFF Template where SNAPSHOT DATE must be populated.
 2. STAFF IDs must be unique within a LEA.
 3. Date fields (field name ends in DATE) must be in the ISO format: YYYY-MM-DD.
 4. SOCIAL SECURITY NUMBER should be in the format NNNNNNNNNN.
 5. Only one of LAST NAME/LAST NAME LONG and FIRST NAME/FIRST NAME LONG should be populated.
 6. LAST NAME LONG should be checked first; if null, LAST NAME SHORT is used.
 7. FIRST NAME LONG should be checked first; if null, FIRST NAME SHORT is used.
 8. New clients should be recommended to use LAST NAME LONG and FIRST NAME LONG.
 9. If the Staff FIRST and LAST NAME values are not available as separate values use FULL STAFF NAME.
 10. A STAFF_NAME column is populated from FULL STAFF NAME; if null, the column is generated by combining LAST NAME ' , ' FIRST NAME values with customizable capitalization.
 11. The LOCATION CODE is the code of the primary location for the staff member and is required.
 12. Phone numbers should be in the format 555-555-5555.
 13. ZIP CODE information can be supplied by component (BASE ZIP CODE and ZIP CODE +4) or as a single FULL ZIP CODE.
 14. If components only are supplied, a FULL ZIP CODE will be generated by combining BASE ZIP CODE, '-', AND ZIP CODE +4.
 15. MEDICAL EXAM and SUBSTANCE test should be Y or N.
 16. CITIZENSHIP and FELONY should be Y or N.
 17. BIRTH DATE must be within set range such that staff age is between 22 and 75.
 18. The non-null values in ETHNIC CODE SHORT and RACE CODE 2 through RACE CODE 5 must be unique; if not, the record is rejected.
 19. The columns identified with an NCES code are recommended to follow the NCES Non-Fiscal Data Handbook V4.0.
 20. Code Column: K – component of primary key; U – p value is updated if row exists; M – a value must be supplied; R – recommended.
 21. Code Column: When enclosed within parentheses – e.g. (K,M) – p the value is assigned by eScholar.
 22. Only delimited files are accepted.

STAFF

FAQs

Please note that FAQs in this section pertain to the Staff Snapshot Template in the Staff Domain.

- 1. How should the Staff and Staff Snapshot templates be submitted?**
 - All professional personnel and school security personnel should be reported in the Staff and Staff Snapshot templates. Professional staff must be reported in the October snapshot; school security staff must be reported in the June snapshot. See the "Staff To Be Reported in PIMS" section of the PIMS User Manual Volume 1 for more information on which staff members should be reported.
- 2. Can an LEA decide to populate the Snapshot Date within the Staff template so that the format of this template is consistent with the Staff Snapshot template?**
 - Yes, LEAs can populate this field. It will be ignored in the Staff template.
- 3. How are staff reported if they are not assigned to a particular school?**
 - Each LEA will use a generic location code of "9999" for staff working off-site.
 - Use a generic location code of "0000" for LEA Administrators that work at district offices and not directly with students, e.g. superintendents, business managers, home and school visitors, etc.
 - LEAs with a single school location such as charter schools and AVTSs/CTCs should use the single school location for all staff instead of 0000.
 - Psychologists, social workers and school nurses may be assigned to the location where they spend most of their time.
- 4. What should be entered in the Annual Salary field if professional personnel are in negotiations working without a contract?**
 - Submit the most current salaries available and report "NO" in Field 63 (Local Contract).

FAQs, continued**5. What does annual salary include?**

- If the employee is employed in two or more LEAs, enter only the salary for the reporting LEA and enter the percent of time employed within the reporting LEA only. For personnel servicing both elementary/secondary and adult programs, do not include salary covering the adult portion of the assignment.
- Do not include fringe benefits or extra pay for extra duties assumed voluntarily, such as coaching and student activity advising.
- Enter the full contract salary for personnel on leave and indicate the type of leave in the “Active/Inactive Indicator” column. DO NOT prorate the salary of an individual on leave, because they are only receiving a portion of their contracted salary. **NOTE:** Salary for a part-time employee is the yearly salary the employee is being paid. It is not a per diem rate nor is it converted to a full-time salary.
- Salary for employees on Charter School Leave should be “0.” Salary for employees on Worker’s Compensation more than one year should be “0.” Salary for terminated employees should be “0.”
- Do not report hourly rates. Calculate the annual salary based on the estimated number of hours that will be worked and the hourly salary. If necessary, update the figure at the end of the year when the actual amount is known.
- Do not report salary received for extra duties assumed voluntarily (for example, coaching football).

6. How shall I report the salary of administrators who serve multiple charter schools?

- Administrators, including the chief executive officer, chief school administrator, and all other employees who by virtue of their positions exercise management or operational oversight responsibilities, shall report their full salary from the school that issues their paycheck.
- Enter a zero salary for the other charter schools served by these administrators. Ignore any corresponding feedback report warnings regarding these zero salaries.
- Continue to mark these administrators as part-time in the Staff and Staff Snapshot templates. Divide their percent time assigned in the Staff Assignment template between all schools.

7. How do I report terminated staff?

- In the first PIMS Staff Snapshot after a staff member exits the LEA, report the following in Staff and Staff Snapshot templates (in addition to all required fields):
 - Field 41, Active /Inactive Indicator – “T” (terminated)
 - Field 36, the exit date
 - Field 54, the appropriate termination code
 - Field 52, Annual Salary should be “0”

8. What termination code shall I use to report staff who will no longer be reported but who still work for my LEA?

- Use Termination Code 08 (Other) in Field 54 in the Staff and Staff Snapshot templates to indicate that staff who still work at the LEA will no longer be reported. This designation is applied to someone reported in a prior year that does not meet reporting requirements, such as support staff.

9. What termination code do I use to correct invalid staff IDs that cannot be deleted?

- Use termination code 15 in Field 54 in the Staff and Staff Snapshot templates to report staff that were uploaded with an invalid ID. This code should only be used when directed by PDE for specific cases in which a staff record could not be deleted.

10. Who should be reported?

- Report all professional personnel employed at your LEA on October 22, 2012. If staff member was included in the October Staff Snapshot and has left LEA prior to October 22, 2012, include on October 22, 2012 Staff Snapshot and indicate appropriate termination code. If termination occurs after October 22, 2012, employee is reported as active on October 22, 2012 Staff Snapshot and termination code is not reported. Likewise do NOT include new hires after October 22, 2012 in your Staff Snapshot.

11. What happens if an LEA has no directly employed or contracted school security staff?

- If an LEA has no directly employed or contracted security staff a record indicating this must be entered in the District Fact template during the June reporting window. Please refer to that section. In this case no school security records should be submitted in the Staff, Staff Snapshot, Staff Assignment or Staff Development Fact templates.

15. Do staff that provide security services at extracurricular activities such as sports need to be submitted?

- No, these staff do not need to be submitted to PIMS.

Staff Assignment Template (20 Fields, 8 Collected)

Template Number: 0630

Target Table: STAFF_ASSIGNMENT

Template Description

This template will be used to track point-in-time information on staff assignments. The Staff Assignment template must be submitted in a point-in-time fashion. Include one record per staff assignment in this template. There is no limit to the number of staff assignments that can be included here. Please include all assignments for each staff member. Assignments should exist for all staff included on the Staff Snapshot Template. Do not include short term substitutes in the Staff Assignment template. **Include long-term substitutes ONLY where filling a vacancy.** **NOTE:** The percent of time is a cumulative total for the entire school year. The sum of percent time should equal 100 for full-time staff.

This template also is used to collect data on the connection between directly employed or contracted school security staff (including school police officers, school resource officers, and school security officers) and the schools they are responsible for patrolling. These individuals need to be submitted within this template only during the Safe Schools collection in June. All security staff members for the entire year should be reported, even if the individual is no longer working as a security officer at the end of the school year. There is a single assignment code for school security staff (9998).

Grain: One record per LEA / Staff / Location / Individual Assignment

Please note that only the **Fields highlighted** will be collected for Pennsylvania Department of Education. Remember that all fields may not be mandatory; however, all fields within a template **MUST BE** accounted for in order to transmit data.

PIMS Staff Assignment Template Specifications

Field No.	Max Length	Name	R/O/CR	Code	Definition	Business Rules	Sample / Valid Value
1	9	DISTRICT CODE	R	(K, M)	The unique, 9-digit Administrative Unit Number (AUN) assigned by the Pennsylvania Department of Education		Example: 123456789 All LEA and School codes can be found at http://www.edna.ed.state.pa.us/
2	9	STAFF ID	R	K, M	A unique identifier for each staff member; use the 7-digit Professional Personnel ID (PPID) for all certificated staff and non-certificated staff. Use the 5-digit Municipal Police Officer Training ID (MPTID) for school security staff preceded by SS. If the school security staff does not have a MPTID, the LEA must assign the individual a unique and consistent 5-digit ID preceded by SS. The staff ID must be consistent in all templates.	Do not use leading zeros or spaces in PPIDs. All IDs for school security staff should be prefixed with "SS" so that they do not conflict with other staff IDs. See Sample / Valid Value.	Example: 6925031 or SS12345 (for school security staff)
3	N/A	ASSIGNMENT CODE	R	K, M	Code for the certificated or non-certificated assignment	For school security staff use 9998	See Appendix B in Volume 2 of the PIMS User Manual for a list of valid values.

FAQs

Please note that FAQs in this section pertain to the Staff Assignment Template in the Staff Domain.

1. **Are itinerant elementary teachers, who are reported as teaching physical education, music, computers, and art, required to be reported at all schools at which they teach?**
 - Yes. The Staff Assignment template allows for LEAs to submit one record per staff member per location and assignment. This means that one staff member can have an unlimited number of location and assignment combinations. Report itinerant teachers at every relevant location.

FAQs, continued

- **NOTE:** Percent of time for full-time staff should be 100%. The values of the Percent Time Assigned fields in all of the staff members' Staff Assignment records may add up to more than 100% in rare cases. Please check with PDE if you have staff with more than 100%.
 - For part-time staff, the total must be less than 100%.
- 2. Can a staff member have records for a certified assignment code and a non-certified assignment code?**
- Yes. Certificated staff can be associated with both certificated and non-certificated assignment codes. If a staff member has more than one position, it is possible one is certificated and one is non-certificated. For example, in charter schools it is common for a person to be both the Chief Administrative Officer (non-certificated) and a principal (certificated). Also, a computer teacher (certificated) could be the school computer technology specialist or director of management information systems (both non-certificated).
- 3. How are staff reported if they are not assigned to a particular school?**
- Each LEA will use a generic location code of "9999" for the staff working off-site, such as Intermediate Unit staff teaching at another LEA's building. **NOTE:** Programs located outside a specific building due to lack of space or separate student populations are not necessarily "off site." Staff should be reported at the appropriate school number. Contact PDE for guidance.
 - Use a generic code of "0000" for LEA administrators assigned to district offices, who do not work directly with students. Some examples are superintendents, curriculum coordinators, business managers, home and school visitors, etc.
 - Psychologists, social workers, school nurses and other itinerants may have multiple assignments reflecting different locations.

How do I choose an assignment code?

- Report the assignment code(s) which best reflect what each employee does. All elementary/secondary professional assignments must be reported. **NOTE:** A professional certificate is the credential an employee holds. Certification codes and assignment codes do not necessarily match. **DO NOT** report the number found on the professional certificate.

4. Do I need to report assignments for terminated staff?

- No, you do not need to report an assignment for terminated staff. Report only for active staff and those on leave.

5. Should I report substitutes?

- **Substitutes are reported only when they are filling a vacancy.** Do not report day-to-day substitutes or long-term substitutes replacing staff on leave.

6. How should the Percent Time Assigned field be populated?

- This field is the ratio between the hours of work expected in a position (those hours actually worked) and the hours of work normally expected in a full-time position in the same setting, expressed as a percentage. Please see the table below for examples.

FAQs, continued**7. What happens if an LEA has no directly employed or contracted school security staff?**

- If an LEA has no directly employed or contracted security staff, a record indicating this must be entered in the District Fact template during the June reporting window. Please refer to that section. In this case no school security records should be submitted in the Staff, Staff Snapshot, Staff Assignment, or Staff Development Fact templates.

8. Do staff that provide security services at extracurricular activities such as sports need to be submitted?

- No, these staff do not need to be submitted to PIMS.

9. In the past I used a start date of July 1 of the current school year for any assignment that began before the current reporting year. Has that changed?

- Yes. You must now enter the true start date into Field 6 of this template. **NOTE: You may not change this field after you upload it the first time.** Field 6 is still a key field, so uploading a record with an updated (different) start date will create a duplicate record.

Staff Development Fact Template (14 Fields, 5 Collected)

Target Table: STAFF_DEV_FACT

Template Description

This template collects qualification and training data on directly employed or contracted School Security Officers, School Resource Officers and School Police Officers. All security staff members for the entire year should be reported, even if the individual is no longer working as a security officer at the end of the school year. Specifically it collects the following dates within the current school year:

- the date of the most recent firearms qualification
- the date of the most recent CPR qualification
- the date of the most recent first aid qualification
- the number of hours of Municipal Police Officer's Education and Training Commission (MPOETC) training
- the number of hours of National Association of School Resource Officers (NASRO) training
- the number of hours of local training.

Grain: One record per District Code / Staff ID / Activity Code / Activity Start Date

Please note that only the **Fields highlighted** will be collected for Pennsylvania Department of Education. Remember that all fields may not be mandatory; however, all fields within a template **MUST BE** accounted for in order to transmit data.

Student Template (202 Fields, 53 Collected)

Template Number: 0320

Target Table: STUDENT

Template Description

The Student Template contains one LEA record for each student for each school year. The Student template can be submitted at all reporting periods other than end of year in either a point-in-time fashion (only including active students) or in a cumulative fashion (all students enrolled in the LEA for the school year).

The end of year Student template submission must be a cumulative submission. All students, regardless of whether or not they were active on a PDE reporting date, must be included in the end of year submission.

Note that not all fields are required at each submission period.

Grain: One record per LEA / School Year / Student

Please note that only the **Fields highlighted** will be collected for Pennsylvania Department of Education. Remember that all fields may not be mandatory; however, all fields within a template **MUST BE** accounted for in order to transmit data.

FAQs

Please note that FAQs in this section pertain to the Student Template and other related templates in the Student Domain.

1. How do I enter a student's last name that is hyphenated?

- When a student has a hyphenated last name, the student and her family should be permitted to choose whether one or both of the last names will be used on enrollment and PIMS information. The Department requests that when enrolling a student as a transfer to your district, you determine the name that was used in the previous district and make every effort to remain consistent.

2. Which students should be included when submitting the Student and Student Snapshot templates?

- The **Student** template should be submitted by LEAs in a cumulative fashion (all students enrolled in the school on a year-to-date basis).
 - **NOTE:** The end of year Student template submission must be a cumulative submission including all students enrolled throughout the entire school year.
- The **June 30 CTE Student Snapshot** must (at a minimum) include a comprehensive list of students enrolled (at any point during the reporting year) in PDE-approved, reimbursable CTE secondary programs or registered adult affidavit programs held (owned) and operated by the LEA. LEAs that do not hold (own) and operate PDE-approved, reimbursable secondary CTE programs or registered adult affidavit programs do not need to submit June 30 Student Snapshot data.
- **For the Special Education Collection ONLY** – The **Student and Special Ed Snapshot** templates should be submitted by the district of residence, charter schools, and corrections ed (**NOT** educating LEAs, IUs, APS, CTC, or other entities). **PIMS will limit the AUNs to those LEAs permitted to upload the Special Education Collection.**
 - **December Special Ed submission** – include all special education students with a valid IEP as of 12/1 of the current school year. **Upload is limited to Special Education students only (Field 38, where the Valid Value is “Y – has IEP.”)**
 - **July Special Ed submission** – include all students receiving special education services from July 1 through June 30 who exited during the school year; must be included in the special education templates. **Upload is limited to Special Education students only, and only those who exited during the current school year as of June 30 (Field 38, where the Valid Value is “E – exited IEP < 2 years.”)**

FAQs, continued

- 3. If data for a student on some particular element is missing, or if that element doesn't apply, what should be done?**
 - Rules for loading records:
 - All key fields (those marked with a "K" in the templates) must have a value or the record will fail to load.
 - All mandatory fields (those marked with an "M") must have a value if the record is new. If the record is an update of an existing record, mandatory fields need not have a value.
 - Rules for record validation after records are loaded:
 - Required fields without a value will be listed on the validation report.
 - Conditionally required fields need to have a value only if they apply.
 - If the field is not required no value needs to be submitted.
 - **NOTE:** Make sure the delimiter (e.g., tab, comma) is submitted in the template file as a placeholder for fields with no value.
- 4. There are multiple first and last name fields within these templates. Which of these fields should LEAs use?**
 - LEAs must populate the First Name Long and Last Name Long.
- 5. The student's name is entered incorrectly (e.g., suffix is included in the Last Name field); how is this fixed in PAsecureID?**
 - It is imperative that incorrect entries in PAsecureID are edited, not corrected through the creation of a new record. To edit an error in PAsecureID, follow these steps:
 - from Menu on the PAsecureID home page, select "Enter Individual Student;" this will bring up a screen with blank fields
 - fill in all the fields with the appropriate data, making sure to enter the existing PAsecureID number in the "State ID" field; failure to populate this field will result in the creation of a new (duplicate) ID number for the student
 - click the "Assign State ID" button
 - if/when presented with a near match message, resolve the near match as for any other transaction.
- 6. Can an LEA decide to populate the Snapshot Date in the Student template so that the format of this template is consistent with the Student Snapshot template?**
 - Yes, LEAs can populate this field. It will be ignored in the Student template.
- 7. How should students participating in off-site preschool programs be entered in PIMS?**
 - Each school district and charter school should submit enrollment data for students at any of the LEA offsite programs. A generic offsite location will be created with a generic Location ID of "9999." Students participating in off-site programs should be associated with this location. The specific class of the student should be entered in the Homeroom field (Field 13) on the Student template.

FAQs, continued**8. Who is considered a CTE (Career and Technical Education) student?**

- CTE students are those enrolled either in a PDE-approved, reimbursable, occupational CTE program or a registered adult affidavit program. Secondary CTE students complete and sign “Annual Educational and Occupational Objectives for Students Enrolled in a PDE Approved CTE Program” form (PDE-408) or a similar locally developed form, and take courses in the reporting year that are part of the approved reimbursable CTE program.
- Reporting of CTE students is to be completed by the school entity (school district, charter school, intermediate unit or career and technical center) that holds the PDE reimbursable secondary CTE program. For example, if the district holds (owns) the reimbursable CTE PDE program approval or the adult affidavit program registration, then the district submits the student data. If the career and technical center holds the reimbursable CTE PDE program approval or adult affidavit program registration, then the CTC submits the student data.
- **NOTE:** CTE students are reported by the district of residence for Special Education templates.

9. Do partial years count toward the Number of Years in US schools?

- No, only full academic years count. For example, if a student attended kindergarten and first grade and is now in his/her first month of second grade, the LEA should report “2” for the number of years in US schools.

10. Who is considered an LEP/ELL student?

- A student not born in the United States or whose native language is other than English and comes from an environment where a language other than English is dominant; or is a Native American or Alaska Native who is native resident of the outlying areas and comes from an environment where a language other than English has had a significant impact on such an individual’s level of English proficiency; or is migratory and whose language is other than English and comes from an environment where a language other than English is dominant; and
- has sufficient difficulty speaking, reading, writing, or understanding the English language and whose difficulties may deny such individual the opportunity to learn successfully in classrooms where the language of instruction is English or to participate fully in our society.

11. Who is considered an immigrant student?

- A student who meets the following criteria:
 - is age 3 through 21;
 - was not born in any state; and
 - has not been attending one or more schools in any one or more states for more than 3 full academic years.
- **NOTE:** Students from Puerto Rico are NOT considered immigrants.

FAQs, continued**12. How do we submit the graduate and dropout reports in PIMS?**

- Report graduates in each high school, comprehensive CTC, charter school with a senior high school program, and special program jointure.
- Report dropouts in grades 7 through 12 in the following entities: school district, comprehensive CTC, charter school, and special program jointure.
 - A. Prepare Template
 1. The Student template is used for reporting graduates and dropouts.
 2. Use the Student template for the most recently completed school year.
 3. Graduates and dropouts must have valid codes for Location Code of Residence and District Code of Residence.
 4. Upload the updated Student template containing your dropouts and graduates into PIMS, being sure to choose the school year which has just been completed.
 5. Field 65 contains the graduate code, the various dropout codes, and other codes.
 6. Field 66, for post-high school activity, is required for dropouts and for graduates. The valid three-digit codes are listed in Appendix M of Volume 2 of the PIMS User Manual. Since these codes must be three-digits, be sure the uploaded file has the preceding zeros where indicated in the code.

For the **Graduates**, update the Student template during the summer after the students have graduated.

- An additional update and upload of the Student template will be required after September 30 for students who graduated over the summer.
- If Field 65 is populated with “G” for graduate, in addition to Field 66, Field 91 (Diploma Type Code) must also be populated. (**NOTE: Field 91 is used for graduates only.**)
- If none of the codes for Field 65 applies to a particular 12th grade student, which can occur if a student is going to be retained, carry that student over to the new school year. If nothing is indicated in Field 65 for that 12th grade student, it is expected he/she will appear as retained on the new school year report in Field 46 (Repeating Last Year).

For the **Dropouts**, update the Student template as occurrences happen throughout the school year.

- Dropouts are to be reported for students who were enrolled in grades 7-12 or Secondary Ungraded (SUG) at sometime during the school year and dropped out sometime during that same school year. For example, a student who was enrolled on Oct. 1 of 2012 and drops out in March 2013 is to be recorded as a dropout in the 2012-2013 Student template.
- An additional update of the Student template and uploads will be required after September 30 for students whom you recorded as dropouts but who *actually returned* by September 30 (were enrolled on October 1) of the new school year. For example, a student who enrolled on Oct. 1 of 2012, drops out in March 2013 and re-enrolls by September 30, 2013 needs to have the dropout indicators removed in the 2012-2013 Student template since the student is no longer considered a 2012-2013 dropout. In order to remove the dropout indicators, simply upload a corrected student record with the dropout indicator fields blank.

FAQs, continued

- Students who enrolled in the new school year but dropped out before October 1 of that same school year are reported as dropouts for the grade and the school year in which they dropped out, i.e. the new school year. For example, a student who was enrolled in early September of 2012 and drops out before Oct. 1, 2012 is to be recorded as a dropout in the 2012-2013 Student template.
- **Summer Dropouts** are students who were not dropouts at the close of the previous school year but who failed to enroll by October 1 of the current school year.
 - Please report Summer Dropouts in the Student template for the grade and the school year for which they failed to report. For example, a student who completes the 10th grade in 2011-2012 but who is not re-enrolled on October 1, 2012 is reported as a dropout for 11th grade in the 2012-2013 Student template.
- **NOTE:** Do not submit records in the School Enrollment template for summer dropouts because they actually did not attend in the current school year; no “membership days” will be created. The School Enrollment template is not used for gathering data for this dropout data collection.

B. Upload Template and Validate

- Be sure the batch with the updated student template is submitted successfully. Be aware that the checkmarks appearing in PIMS mean that a few main codes have past scrutiny, but they do not reflect the quality of the records in the entire template. To check on the quality of records, check the various *validation reports* in PIMS Reports to identify any further corrections needed.
- To view the **graduate** validation reports:
 1. Go to: Public Folders > eScholar Framework for Cognos - Verify > Validation Reports > Conditionally Required Fields > Student and Student Snapshot
 - Be sure to check the report Post-Graduate Activity and Post-Dropout Activity for any listed records that need correction.
 - All graduates indicated by “G” in Graduation Status must also have a Planned Post Graduate Activity Code (Field 66).
 - Codes for planned post graduate activities are applicable for graduates only; codes of post-dropout activities are applicable for dropouts only.
 - If a student is neither a graduate nor a dropout, there should not be a post-activity code in the field.
 - Only special education students with an IEP can have 997 for Independent Living.
 - Be sure to check the report “Diploma Type Code” for any listed record that violates any of the conditional requirements for the template. For any student who has not yet graduated, the diploma type code (Field 91) should be left blank.

FAQs, continued

2. Go to: Public Folders > eScholar Framework for Cognos - Production > Graduate and Dropout Reports > Graduate Validation Report
 - Records are listed on this report for double-checking in case entries for actual graduates have been missed.
 - If any graduates have an ethnic code of 1, verify that the person is indeed American Indian/Alaskan Native and that the correct code was used.
 - Make the correction(s) and upload the corrected template. Then check the validation reports again to be sure all records are complete and correct.

- To view the **dropout** verification reports:

1. Go to: Public Folders > eScholar Framework for Cognos - Production > Graduation and Dropout Reports.
2. Run the verification reports in the Dropout Reports folder and verify the data before submitting the Accuracy Certification Statement (ACS).

C. View and print the Accuracy Certification Statement (ACS) and profile:

- Go to: Public Folders > eScholar Framework for Cognos - Production > Graduation and Dropout Reports.
- Choose the PDF format option. Be sure to print out the entire ACS.
- Review the Accuracy Certification Statement. If the data is correct, have the ACS signed and fax the entire ACS to the number at the top of the ACS.

13. In Field 10 (CURRENT GRADE LEVEL) can I report my Special Education students as EUG or SUG?

- No, EUG and SUG cannot be used to report Special Education students in the December 1 Student, Student Snapshot, or Special Education Student Snapshot templates. They must be coded with the actual grade level. EUG and SUG should not be used in the November precode collection; students with EUG or SUG will not receive a label.

14. Why is it important to accurately identify the state assessment(s) in which all students are participating?

- This data will be used for calculating the cohort graduation rate. If a student is not accurately identified as participating in the PASA, the student will be incorrectly included in the cohort graduation rate. The Bureau of Assessment and Accountability will use counts derived from this data for planning and budgeting purposes.

PIMS FAQ related to Migrant Status

- Official Migrant data is sourced into PIMS from MIS2000, the official source. Therefore, submission of migrant data in the template is optional.

Student Snapshot Template (202 Fields, 54 Collected)

Template Number: 0440

Target Table: STUD_SNAPSHOT

Template Description

The Student Snapshot template contains the same information as the Student Template, with the addition of a snapshot date. The following students are to be included in this template, with the following exception:

- for the June 30 CTE Snapshot, include **only** active students at each reporting period

PLEASE NOTE: Submit June 30, 2013 Student Snapshot data only if LEA had reportable enrollees in approved reimbursable secondary CTE programs or registered adult affidavit CTE programs. The June 30 Student Snapshot must, at a minimum, include a comprehensive list of students enrolled (at any point during the reporting year) in PDE approved, reimbursable CTE programs and/or registered adult affidavit programs held (owned) and operated by the LEA. The cumulative submission of all students served during the reporting year within the June 30 Snapshot is necessary in order to satisfy and support federal reporting and auditing requirements of Perkins data. LEAs that do not hold (own) and operate PDE approved, reimbursable CTE secondary programs or registered adult affidavit CTE programs do not need to submit June 30 CTE Student Snapshot data.

Grain: One record per LEA / School Year / Student / Snapshot Date

Please note that only the **Fields highlighted** will be collected for Pennsylvania Department of Education. Remember that all fields may not be mandatory; however, all fields within a template **MUST BE** accounted for in order to transmit data.

PIMS Student Snapshot Template Specifications

Field No.	Max Length	Name	R/O/CR	Code	Definition	Business Rules	Sample / Valid Value
1	9	DISTRICT CODE	R	(K, M)	The unique, 9-digit Administrative Unit Number (AUN) assigned by the Pennsylvania Department of Education		Example: 123456789 All LEA and School codes can be found at http://www.edna.ed.state.pa.us/
2	4	LOCATION CODE	R	U, M	The PDE-defined, 4-digit code identifying the school. All public schools have a 4-digit school code that is other than "0000" or "9999." If a student is at a location that does not have a designated school code, use "9999" as the location code. For Special Ed Reporting – the District of Residence would indicate "9999" for students educated in other LEAs		Example: 1234 All LEA and School codes can be found at http://www.edna.ed.state.pa.us/
3	10	SCHOOL YEAR DATE	R	K, M	A single date indicating the whole school year; the June 30 at the end of the standard school year is used to designate a school year. Thus, the 2012-2013 school year would be indicated by 2013-06-30.	All dates must be entered in ISO format: YYYY-MM-DD	Example: 2013-06-30
4	10	STUDENT ID	R	K, M	The unique, 10-digit PAsecureID assigned to the student		Example: 1000000009
5	9	SOCIAL SECURITY NUMBER	O	U	Social Security number of the student	This field is optional for all students. The value should be in the format NNNNNNNNNN. <u>Do not use dashes.</u>	Example: 123456789

12. Zip code information for home address can be supplied by component (BASE ZIP CODE and ZIP CODE +4) or as a single FULL ZIP CODE.
13. If components only are supplied, a FULL ZIP CODE will be generated by combining BASE ZIP CODE, '-', and ZIP CODE +4.
14. Grade point averages may be between 0.00000 and 999.99999.
15. Code Column: OBS – GROUP NAME and GROUP REMOVAL DATE are obsolete; use STUDENT GROUP FACT TEMPLATE for memberships.
16. If FAMILY IDENTIFIER is not specified it will be populated with FAMILY NUMBER value.
17. BIRTH DATE must be within set range set by client; default range 1971-01-01 to current date.
18. INOCULATION DATE must be within 25 years of the current SCHOOL YEAR DATE.
19. If populated, EXPECTED GRADUATION TIMEFRAME must be in the form YYYY or MMY and begin with 19, 20 or 01-12. If not, a warning is generated.
20. The non-null values in ETHNIC CODE SHORT and RACE CODE 2 through RACE CODE 5 must be unique; if not, the record is rejected.
21. When a record is updated and LAST NAME, BIRTH DATE, and CURRENT GRADE LEVEL are all different than the existing Table record, a warning is generated.
22. SNAPSHOT DATE is reserved for compatibility with the STUD_SNAPSHOT Table.
23. The columns identified with an NCES code are recommended to follow the NCES Non-Fiscal Data Handbook V4.0.
24. Code Column: K – component of primary key; U – value is updatable if row exists; M – a value must be supplied; R – recommended.

STUDENT

FAQs

Please note that FAQs in this section pertain to the Student Template and other related templates in the Student Domain.

1. How do I enter a student's last name that is hyphenated?

- When a student has a hyphenated last name, the student and her family should be permitted to choose whether one or both of the last names will be used on enrollment and PIMS information. The Department requests that when enrolling a student as a transfer to your district, you determine the name that was used in the previous district and make every effort to remain consistent.

2. Which students should be included when submitting the Student and Student Snapshot templates?

- The **Student** template should be submitted by LEAs in a cumulative fashion (all students enrolled in the school on a year-to-date basis).
 - **NOTE:** The end of year Student template submission must be a cumulative submission including all students enrolled throughout the entire school year.
- With the exception of the June 30 Snapshot, only students active as of each reporting date (e.g., as of October 1 for the October 1 Snapshot reporting) should be included in the **Student Snapshot** template.
- The **October 1 Student Snapshot** should include only students being educated by the LEA (students being served either directly, in person or via an LEA virtual instruction program).
- The **June 30 CTE Student Snapshot** must (at a minimum) include a comprehensive list of students enrolled (at any point during the reporting year) in PDE-approved, reimbursable CTE secondary programs or registered adult affidavit programs held (owned) and operated by the LEA. LEAs that do not hold (own) and operate PDE-approved, reimbursable secondary CTE programs or registered adult affidavit programs do not need to submit June 30 Student Snapshot data.
- **For the Special Education Collection ONLY** – The **Student and Special Ed Snapshot** templates should be submitted by the district of residence, charter schools and corrections ed (**NOT** educating LEAs, IUs, APS, CTC, or other entities). **PIMS will limit the AUNs to those LEAs permitted to upload to the Special Education Collection.**
 - **December Special Ed submission** – include all special education students with a valid IEP as of 12/1 of the current school year. **Upload is limited to Special Education students only (Field 38, where the Valid Value is “Y – has IEP.”)**

- **July Special Ed submission** – include all students receiving special education services from July 1 through June 30 who exited during the school year; must be included in the special education templates. **Upload is limited to Special Education students only, and only those who exited during the current school year as of June 30 (Field 38, where the Valid Value is “E – exited IEP < 2 years.”)**

FAQs, continued

3. If data for a student on some particular element is missing, or if that element doesn't apply, what should be done?

- Rules for loading records:
 - All key fields (those marked with a "K" in the templates) must have a value or the record will fail to load.
 - All mandatory fields (those marked with an "M") must have a value if the record is new. If the record is an update of an existing record, mandatory fields need not have a value.
- Rules for record validation after records are loaded:
 - Required fields without a value will be listed on the validation report.
 - Conditionally required fields need to have a value only if they apply.
 - If the field is not required no value needs to be submitted.
 - **NOTE:** Make sure the delimiter (e.g., tab, comma) is submitted in the template file as a placeholder for fields with no value.

4. There are multiple first and last name fields within these templates. Which of these fields should LEAs use?

- LEAs must populate the First Name Long and Last Name Long. Do not populate the First Name Short and Last Name Short fields.

5. The student's name is entered incorrectly (e.g., suffix is included in the Last Name field); how is this fixed in PAsecureID?

- It is imperative that incorrect entries in PAsecureID are edited, **not** corrected through the creation of a new record. To edit an error in PAsecureID, follow these steps:
 - From Menu on the PAsecureID home page, select “Enter Individual Student;” this will bring up a screen with blank fields.
 - Fill in all the fields with the appropriate data, making sure to enter the existing PAsecureID number in the “State ID” field; failure to populate this field will result in the creation of a new (duplicate) ID number for the student.
 - Click the “Assign State ID” button.
 - If/when presented with a near match message, resolve the near match as for any other transaction.

6. Can an LEA decide to populate the Snapshot Date in the Student template so that the format of this template is consistent with the Student Snapshot template?

- Yes, LEAs can populate this field. It will be ignored in the Student template.

FAQs, continued**7. How should students participating in off-site preschool programs be entered in PIMS?**

- Each school district and charter school should submit enrollment data for students at any of the LEA offsite programs. A generic offsite location will be created with a generic Location ID of “9999.” Students participating in off-site programs should be associated with this location. The specific class of the student should be entered in the Homeroom field (Field 13) on the Student template.

8. Who is considered a CTE (Career and Technical Education) student?

- CTE students are enrolled either in a PDE-approved, reimbursable, occupational secondary CTE program or a registered adult affidavit program. Secondary CTE students complete and sign “Annual Educational and Occupational Objectives for Students Enrolled in a PDE Approved CTE Program” form (PDE-408) or a similar locally developed form, and take courses in the reporting year that are part of the approved reimbursable CTE program.
- Reporting of CTE students is to be completed by the school entity (school district, charter school, intermediate unit or career and technical center) that holds the PDE reimbursable secondary CTE program approval or the formal adult affidavit program registration. For example, if the district holds (owns) the reimbursable CTE PDE program approval or the adult affidavit program registration, then the district submits the student data. If the career and technical center (CTC) holds the reimbursable CTE PDE program approval or the adult affidavit program registration, then the CTC submits the student data.

9. Do partial years count toward the Number of Years in US schools?

- No, only full academic years count. For example, if a student attended kindergarten and first grade and is now in his/her first month of second grade, the LEA should report “2” for the number of years in US schools.

10. Who is considered an LEP/ELL student?

- A student not born in the United States or whose native language is other than English and comes from an environment where a language other than English is dominant; or is a Native American or Alaska Native who is a native resident of the outlying areas and comes from an environment where a language other than English has had a significant impact on such an individual’s level of English proficiency; or is migratory and whose language is other than English and comes from an environment where a language other than English is dominant; and
- has sufficient difficulty speaking, reading, writing, or understanding the English language and whose difficulties may deny such individual the opportunity to learn successfully in classrooms where the language of instruction is English or to participate fully in our society.

11. Who is considered an immigrant student?

- A student who meets the following criteria:
 - is age 3 through 21;
 - was not born in any state; and
 - has not been attending one or more schools in any one or more states for more than 3 full academic years.
- **NOTE:** Students from Puerto Rico are NOT considered immigrants.

FAQs, continued**12. In Field 10 (CURRENT GRADE LEVEL) can I report my Special Education students as EUG or SUG?**

- No, EUG and SUG cannot be used to report Special Education students in the December 1 Student, Student Snapshot, or Special Education Student Snapshot templates. They must be coded with the actual grade level. EUG and SUG should not be used in the November precode collection; students with EUG or SUG will not receive a label.

13. Why is it important to accurately identify the state assessment(s) in which all students are participating?

- This data will be used for calculating the cohort graduation rate. If a student is not accurately identified as participating in the PASA, the student will be incorrectly included in the cohort graduation rate. The Bureau of Assessment and Accountability will use counts derived from this data for planning and budgeting purposes.

PIMS FAQ, related to Migrant Status

- Official Migrant data will be sourced into PIMS from MIS2000, the official source. Therefore, submission of migrant data in the template is optional beginning in 2009-10.

Career and Technical Education (CTE) Domain

Only LEAs with Pennsylvania Department of Education (PDE) approved reimbursable secondary CTE programs or registered adult affidavit programs offered by their schools during the reporting year are required to submit the following templates in the CTE Domain, as appropriate:

- **CTE Student Fact**
 - Submit only if LEA had reportable enrollees in approved reimbursable secondary CTE programs and/or registered adult affidavit programs.
- **CTE Student Industry Credential**
 - Submit only if CTE (secondary and/or adult affidavit) program enrollees earned reportable industry certifications.

Do not report any students enrolled in General Family Consumer Science programs, Career Exploration/Awareness Skills programs **or any adults enrolled in secondary program classes (adult intergenerational programs)** within these templates. See CTE Student Fact Template Description for further guidance concerning which students to report as CTE students.

REPORTING SECONDARY CTE STUDENTS:

If a school has PDE-reimbursable CTE program approvals in place for the reporting year but does not have any CTE student enrollments to report within **all** of an LEA's approved reimbursable CTE programs, notify the Division of Data Quality at ra-catsdata@state.pa.us.

In addition to these CTE templates, all REQUIRED data elements within the June 30 Student Snapshot template (0440) and School Enrollment template (0420) must also be submitted for secondary CTE students for an LEA. Be aware that there are Student Snapshot template (0440) data elements that are conditionally required specifically for secondary CTE students. Those elements include the address fields (Fields 16 – 20) along with the "Student is a Single Parent" field (Field 120) and "Displaced Homemaker" field (Field 166). Note the following grade levels (Field 10 within Student Snapshot Data elements) are considered valid for secondary CTE students:

- 009 – Grade 9
- 010 – Grade 10
- 011 – Grade 11
- 012 – Grade 12
- SUG – Secondary Ungraded

Refer to the Student Domain and Enrollment Domain sections of the user manual for additional information on each Student Snapshot and School Enrollment template data element. The PIMS Summer Submission (June 30) Student Snapshot template and School Enrollment template data must be submitted and processed to support the CTE Domain template student data.

REPORTING ADULT AFFIDAVIT CTE STUDENTS:

If a school has PDE-registered adult affidavit CTE programs in place for the reporting year but does not have any adult affidavit CTE student enrollments to report within **all** of an LEA's adult affidavit CTE programs, notify the Division of Data Quality at ra-catsdata@state.pa.gov.

In addition to these CTE templates, specific data elements within the June 30 Student Snapshot template (040) must be accurately populated to accommodate state adult CTE accountability statistics. **Reporting adult affidavit students in the School Enrollment template (0420) is not required.** Be aware that there are Student Snapshot template (0440) data elements that are conditionally required specifically for adult affidavit CTE students. Those elements include the address fields (Fields 16 – 20) along with the “Student is a Single Parent” field (Field 120) and “Displaced Homemaker” field (Field 166). Use the following grade level (Field 10 within Student Snapshot Data elements) to report CTE adult affidavit program students:

- AAP – Adult Affidavit Program Student

Refer to the Student Domain section of the user manual for additional information on Student Snapshot template data elements. The PIMS Summer Submission (June 30) Student Snapshot template must be submitted and processed to support the CTE Domain template adult affidavit student data.

NOTE: Submit June 30, 2013 CTE Student Snapshot data **only** if LEA had reportable enrollees in PDE-approved reimbursable secondary CTE programs and/or registered adult affidavit programs. The June 30 CTE Student Snapshot must, at a minimum, include a comprehensive list of students enrolled (at any point during the reporting year) in PDE-approved, reimbursable secondary CTE programs and/or registered adult affidavit programs held (owned) and operated by the LEA.

CTE Student Fact (27 Fields, 24 Collected)

Template Number: 0970

Target Table: CTE_STUDENT_FACT

Template Description

This template defines the CTE Student Fact table. This table contains the primary details of each CTE student's enrollment within a Pennsylvania Department of Education approved school-level CTE program and/or registered adult affidavit CTE operated by each LEA.

This template serves to accommodate Pennsylvania Department of Education (PDE) data collection requirements for federal (The Carl D. Perkins Career and Technical Education Act of 2006) accountability requirements, and PDE's need to account for students that enroll in or complete approved reimbursable secondary CTE programs and/or registered adult affidavit programs.

REPORTING SECONDARY CTE STUDENTS:

Report all secondary students within this template who: (1) were enrolled in the technical component of a PDE-approved reimbursable secondary CTE program during the reporting year, AND; (2) had completed and signed "Annual Educational and Occupational Objectives for Students Enrolled in a PDE Approved CTE Program" form (PDE-408) or a similar locally developed form directly related to the student's enrollment in the CTE program reported within Field 6 (CIP Code) of this template. The student's completed and signed PDE-408 form (or similar form) must be on file with the LEA that holds (owns) the approved CTE program in which the student is reported as enrolled.

NOTE: Do **not** report secondary students within the CTE Student Fact Template who either:

- (1) lack appropriate signed educational and occupational objectives (PDE-408 form or similar form),
- (2) are taking one career and technical education course without intending to pursue the approved program of study as indicated by an appropriate complete educational and occupational objective form (PDE-408 or similar form),
- (3) are enrolled in General Family Consumer Science (CIP 19.0101), or
- (4) are taking a career and technical education course in order to explore careers.

IMPORTANT: LEAs with students enrolled in 2012-2013 PDE approved reimbursable secondary CTE programs held (owned) and operated by the LEA need to submit this template. **A secondary CTE student may only be reported once at the CIP-LOCATION CODE (SCHOOL)-LEVEL within this template. A secondary student may be reported more than once within this template only if the student was enrolled in approved CTE programs within more than one school (CIP-LOCATION CODE) within an LEA during the reporting year.**

REPORTING ADULT AFFIDAVIT STUDENTS:

Report all students enrolled in registered adult (only) affidavit CTE programs that meet state program standards/requirements and were submitted and registered as operational in the Career and Technical Education Information System (CATS) for this reporting year. **Do not report adult students enrolled in secondary programs (adult intergenerational programs).** Adult affidavit programs are **adult only** programs. CATS registered adult affidavit programs **do not include:**

- Enrichment/hobby-type programs for personal benefit that are not job related and that do not contribute to a person's occupational objective
- Programs in Adult Basic Education (ABE), Standard Evening High School (SEHS) or General Education Development (GED) unless the program also meets Career and Technical Education requirements
- State-funded Customized Job Training Programs (CJT)
- Programs funded 100% with federal monies (e.g. Workforce Investment Act)
- 100% employer-funded programs
- Any program not open to the public.

CATS registered adult affidavit programs should include the following program types:

- Registered Apprenticeship: a program for adults enrolled in a registered apprenticeship program involving on-the-job training
- Emergency Service: a program for adults in voluntary public emergency service (e.g. Emergency Medical Technology and Firefighting)
- Other Occupational: a program for adults enrolled in a career and technical program for new occupational preparation or to upgrade their skills.

Questions related to the CTE adult affidavit registration process should be directed to the Bureau of Career and Technical Education at (717) 783-6996.

IMPORTANT: LEAs with students enrolled in 2012-2013 PDE registered adult (only) affidavit programs held (owned) and operated by the LEA need to submit this template. **An adult affidavit CTE student may be reported more than once within this template to document each registered adult affidavit program the student was actively enrolled in during the reporting year.**

Grain: One record per LEA / School Year / Student ID / CIP Location Code / CIP Code / Delivery Method Code / Reporting Date / Reporting Date Period Level

Please note that only the **Fields highlighted** will be collected for Pennsylvania Department of Education. Remember that all fields may not be mandatory; however, all fields within a template **MUST BE** accounted for in order to transmit data.

PIMS CTE Student Fact Template Specifications

IMPORTANT TECHNICAL NOTE: This template is designed to accommodate both secondary and AAP CTE students. LEAs need to develop data extracts to accommodate the 27-field layout of this template for BOTH secondary **AND** AAP student records.

IMPORTANT TECHNICAL NOTE: This template is designed to accommodate both secondary and AAP CTE students. LEAs need to develop data extracts to accommodate the 27-field layout of this template for BOTH secondary **AND** AAP student records.

Rules:

1. Date fields (field name ends in DATE) must be in ISO format: YYYY-MM-DD.
2. The combination of CIP CODE and DELIVERY METHOD CODE must exist in the CTE_CIP Table at the school-level for the matching SCHOOL YEAR DATE.
3. CTE STATUS TYPE CODE must exist in the CTE_STATUS_TYPE Table for the matching SCHOOL YEAR DATE.
4. CTE PROGRAM COMPLETION PLAN CODE must exist in the CTE_PGM_COMP_PLAN Table for the matching SCHOOL YEAR DATE.
5. If populated, REGISTERED APPRENTICESHIP INDICATOR, INTERNSHIP INDICATOR, COOPERATIVE WORK INDICATOR, JOB EXPLORATION INDICATOR, AGRICULTURE EXPERIENCE INDICATOR, SCHOOL SPONSORED ENTERPRISE INDICATOR, WORK BASED EXPERIENCE INDICATOR must be Y or N.
6. If not populated, each of these fields defaults to N (Code Column D).
7. The fields identified with an NCES code are recommended to follow the NCES Non-Fiscal Data Handbook V5.0.
8. Code Column: K – component of primary key; U – value is updatable if row exists; M – a value must be supplied; D – value is required but a default is supplied.

FAQs

- 1. How many times may a student be reported in the CTE Student Fact Template?**
 - A student may only be reported once per school (CIP Location Code, Field 4) at the secondary level. An adult affidavit program CTE student may be reported more than once per school within this template to document each registered adult affidavit program the student was actively enrolled in during the reporting year.
 - 2. May a student be reported multiple times within the CTE Student Fact Template to document a student's enrollment in more than one CTE program (CIP Code, Field 6)?**
 - Only if a secondary student received CTE from two different schools (CIP Location Code, Field 4) within your LEA. Example: Student is enrolled in CTE agriculture program within School A and transfers to School B mid-year. Student enrolls in CTE business program within School B for the last half of the reporting year. Student would be reported once for School A (CIP Location Code, Field 4) within appropriate CIP Code (Field 6) for the agriculture program and once for School B (CIP Location Code, Field 4) within appropriate CIP Code (Field 6) for the business program.
 - An adult affidavit program CTE student may be reported more than once per school within this template to document each registered adult affidavit program the student was actively enrolled in during the reporting year.
 - 3. Should a history of CTE learning components (Fields 12 – 17 and 22) be reported for the student or only those the student actively participated in during the school year?**
 - Report only those learning components the student actively participated in during the school year AND only those learning components that were directly related to the student's enrollment in the reported program (CIP Code, Field 6). **NOTE:** Reporting values for these CTE learning component fields is now OPTIONAL.
 - 4. What if a school within our LEA did not have any CTE enrollments in any of the school's reporting year approved reimbursable secondary CTE programs and/or registered adult affidavit programs?**
 - **Notify PDE's Division of Data Services of that fact via ra-catsdata@state.pa.gov.** Submit CTE Student Fact Data related to the remaining LEA schools (CIP Location Code, Field 4) that had CTE enrollments in approved secondary or registered adult affidavit CTE programs. If the school that did not have reporting year CTE enrollments in any of their approved reimbursable CTE programs is the only LEA school with CTE program approvals, no LEA submission is required for the CTE Student Fact (0970) or the CTE Student Credential (0980) templates.
 - 5. What if our LEA's high school(s) does (do) not have any reporting year secondary CTE approved programs or registered adult affidavit programs?**
 - Your LEA does not need to submit data for the CTE Student Fact (0970) or the CTE Student Credential (0980) templates.

CTE Student Industry Credential (9 Fields, 9 Collected)

Template Number: 0980

Target Table: CTE_STUDENT_CREDENTIAL

Template Description

The CTE Student Industry Credential Template serves to record industry certifications earned by students **during the reporting year as a direct result of the student's enrollment within a PDE-approved reimbursable secondary CTE program or registered adult affidavit program reported within the CTE Student Fact Template.**

IMPORTANT: Only LEAs with reporting year PDE-approved reimbursable secondary CTE programs or registered adult affidavit CTE programs need to submit this template only to record appropriate industry certifications earned by students reported within the CTE Student Fact template. LEAs need not submit this template if none of their CTE students reported within the CTE Student Fact template earned certifications.

Grain: One record per LEA / School Year / Student ID / Student Location Code / CIP Code / Delivery Method Code / Industry Credential Code / Credential Earned Date / Credential Earned Period Level

Please note that only the **Fields highlighted** will be collected for Pennsylvania Department of Education. Remember that all fields may not be mandatory; however, all fields within a template **MUST BE** accounted for in order to transmit data.

FAQs

1. **What if our LEA's high school(s) does (do) not have any reporting year secondary CTE approved programs?**
 - Your LEA does not need to submit data for the CTE Student Fact (0970) or the CTE Student Credential (0980) templates.
2. **What if none of the students reported within our LEA's CTE Student Fact data earned any industry certification credentials related to their enrollment within our CTE programs?**
 - There is no need to submit any CTE Student Credential (0980) template data.
3. **Are there limitations to which industry certification credentials we may report for a student?**
 - Only industry certifications earned as a direct result of the student's reported enrollment within an LEA school's CTE program (CIP Code – Field 5) should be reported.
 - Valid reportable certification codes are provided in Volume 2 of the PIMS User Manual.

FAQs, continued

- Reported industry certifications earned will be checked for a reasonable relationship to the student's program. All reported student-earned industry certifications not documented as offered by LEA programs within the CATS Program Approval system may need to be verified as accurate locally for this data submission.
 - **IMPORTANT NOTE:** At times, PDE is required to base the reporting of industry certifications earned by students on ONLY THOSE CERTIFICATIONS DOCUMENTED AS OFFERED BY A SCHOOL'S APPROVED PROGRAM WITHIN THE CATS SECONDARY PROGRAM APPROVAL SYSTEM FOR A SPECIFIC SCHOOL YEAR; therefore, LEAs are responsible for making certain that an accurate up-to-date record of "industry certifications offered" by their specific approved programs are properly recorded within the CATS Secondary Program Approval System on an annual basis.
- 4. How many times may a student be reported within this template?**
- A student should be reported as many times necessary to document each industry certification credential earned during the reporting year as a result of the student's reported enrollment within an LEA school's CTE program (CIP Code – Field 5).
- 5. Must all "District Code – School Year Date – Student ID – Student Location Code – CIP Code – Delivery Method Code" combinations for a student reported within this template match up with an identical "District Code – School Year Date – Student ID – CIP Location Code – CIP Code – Delivery Method Code" combination within the CTE Student Fact data?**
- Yes
-

Special Education Domain

All Pennsylvania LEAs must submit the following templates as part of the Special Education Data Collection:

- **Student Snapshot (12/1 and 7/16)**
- **Special Education Snapshot**

Timeline for Submission

- The two snapshot dates for the 2012/2013 school year (12/1 and 7/16)

The following fields submitted in the Student Snapshot templates will be used for Special Education reporting:

- Current Grade level (Field 10)
- Birth Date (Field 14)
- Gender Code (Field 15)
- Address 1 (Field 16)
- Address 2 (Field 17)
- City (Field 18)
- State Code (Field 19)
- Full Zip Code (Field 20)
- Race or Ethnicity Code (Field 27)
- Special Education (Field 38)
- LEP Participation (Field 41)
- Name Suffix (Field 126)
- Last Name Long (Field 133)
- First Name Long (Field 134)
- Middle Name (Field 142)

Responsibility of reporting Special Education Students

- The District of Residence is responsible for reporting the templates in the Special Education Domain.

NOTE: The “Field Name” column within each template represents the IEP Field Name. In some instances, the IEP field name did not correspond with the “eScholar Field Name.” The actual eScholar Field Name has been populated in the “eScholar field name” column of the template. It is necessary to know the actual eScholar field name in order to resolve any issues during the data submission process.

During the transition of the PennData to the PIMS reporting we are recommending that the district reference the PennData Resource Guide located on the PennData website at <http://penndata.hbg.psu.edu> for additional information and explanation. PIMS Staff also should consult with the LEA Special Education office and their IU PennData Manager to ensure congruent reporting. Should questions arise regarding specific special education issues, please contact Jodi Rissinger in the Bureau of Special Education at jrissinger@pa.gov.

Special Education Snapshot (52 Fields, 19 Collected)

Template Number: 0590

Target Table: SPECIAL_ED_SNAP

Template Description

This template describes the primary details of students' participation in special education in the current school year. Only students in school age programs K4 – 12 who have a valid IEP on 12/1 should be included in the December submission. The July submission should include **only** special education students with a valid IEP from July 1 through June 30 **who exited** as of June 30.

NOTE: Students who are in the Special Ed Snapshot file also must have a corresponding record in the December or July Student Snapshot file. Gifted students are **not** uploaded in this template.

- Exceptions include 1305 (Foster Home) – these students are reported by the district in which the student resides with the foster parents – and – students education in State Correctional Adult and Juvenile Facilities; these students are reported by the department of Corrections.
- **SPECIAL ED: Special Ed data is uploaded by school districts, charter schools, and corrections ed ONLY. PIMS will limit the AUNs to those LEAs permitted to upload to the Special Education Collection.**

Grain: One record per District Code / School Year Date / Student ID / Snapshot Date

Please note that only the **Fields highlighted** will be collected for Pennsylvania Department of Education. Remember that all fields may not be mandatory; however, all fields within a template **MUST BE** accounted for in order to transmit data.

FAQs

1. **What are the changes/clarifications/reminders for submission of the Student Snapshot and Special Education Snapshot templates?**
 - **The district of residence or charter school is responsible for uploading the special education templates for special education students** including, but not limited to, itinerant speech, hearing vision, out of district placements, CTCs, 1306 (Institutionalized, Group Homes, PRRIs), APSs, other public and private facilities, hospital/homebound, out of state instruction in the home, etc. Exceptions include 1305 (Foster Home) – these students are reported by the district in which the student resides with the foster parents – and – students education in State Correctional Adult and Juvenile Facilities; these students are reported by the Department of Corrections.
NOTE: Educating LEAs, IUs, APSs, CTCs do not submit templates for these collections. **PIMS will limit the AUNs to those LEAs permitted to upload to the Special Education Collection.**
 - **December Special Ed submission** – include all special education students with a valid IEP as of 12/1 of the current school year. **Upload is limited to Special Education Students only (Field 38, where the Valid Value is “Y – has IEP.”)**
 - **July Special Ed submission** – include **only** students receiving special education services from July 1 through June 30 who exited during the school year in the special education templates. **Upload is limited to Special Education students only, and only those who exited during the current school year as of June 30 (Field 38, where the Valid Value is “E – exited IEP < 2years.”).** If a student exits and returns prior to June 30, they would not be included in the upload.
 - For additional questions or further clarification, please contact Jodi Rissinger in the Bureau of Special Education at jrissinger@pa.gov .

 2. **What grade level is used to code Special Education students who are 18 to 21 years of age who have completed their 12th grade year and are continuing in school?**
 - Grade 12 – EUG and SUG are not valid for Special Education reporting.

Extracting Data into Template Format

This section will provide guidance on extracting data from source systems into eScholar template format. This information can be used to create individual extraction routines or a system of extraction.

Data Extraction

Data extraction and submission involve the process of:

- taking data from source systems
- securely submitting files to PIMS
- loading data into the PIMS data warehouse

The components of data extraction include:

- extraction tools
- eScholar templates
- automation components
- documentation

File Naming Conventions

The following naming convention must be used to extract data files:

- DistrictCode_TargetTable_YYYYMMDDHHMM.xxx
- Example: 100000009_student_201209051134.csv
 1. District Code = 9-digit Administrative Unit Number
 - For example, 100000009
 2. Target Table (located on template) e.g., "Student"
 3. Time Stamp (ensures uniqueness for the file) e.g., "201209051134"
 4. File Extension (data separator type) e.g., "csv"
 - csv: comma separated
 - tab: tab separated
 - del: other delimiter

Naming Convention Common Problems

- The District Code is the 9 digit AUN code
- Time Stamp is related to the time the file is created, not the collection reporting dates
- Target Table is located on line 5 of the eScholar templates
 - Exact name listed must be used for File naming convention (e.g. Student Course Enrollment Template is COURSE_ENROLL)
