The Pennsylvania Department of Education (PDE) does not discriminate in its educational programs, activities, or employment practices, based on race, color, national origin, [sex] gender, sexual orientation, disability, age, religion, ancestry, union membership, gender identity or expression, AIDS or HIV status, or any other legally protected category. Announcement of this policy is in accordance with State Law including the Pennsylvania Human Relations Act and with Federal law, including Title VI and Title VII of the Civil Rights Act of 1964, Title IX of the Education Amendments of 1972, Section 504 of the Rehabilitation Act of 1973, the Age Discrimination in Employment Act of 1967, and the Americans with Disabilities Act of 1990.

The following persons have been designated to handle inquiries regarding the Pennsylvania Department of Education's nondiscrimination policies:

For Inquiries Concerning Nondiscrimination in Employment:

Pennsylvania Department of Education
Equal Employment Opportunity Representative
Bureau of Human Resources
333 Market Street, 11th Floor, Harrisburg, PA 17126-0333
Voice Telephone: (717) 787-4417, Fax: (717) 783-9348

For Inquiries Concerning Nondiscrimination in All Other Pennsylvania Department of Education Programs and Activities:

Pennsylvania Department of Education
School Services Unit Director
333 Market Street, 5th Floor, Harrisburg, PA 17126-0333
Voice Telephone: (717) 783-3750, Fax: (717) 783-6802

If you have any questions about this publication or for additional copies, contact:

Purpose

The Pennsylvania Information Management System (PIMS) is a statewide, longitudinal data system for the collection and reporting of unit-level educational data.

PIMS was developed for the purpose of:

- Allowing the Pennsylvania Department of Education (PDE) to meet federal and state reporting requirements;
- Streamlining the reporting processes from educational institutions to PDE and the U.S. Department of Education (USDE);
- Reporting timely and accurate education data through standardized and ad hoc reporting capabilities;
- Improving educational decision-making through the use of high quality data and decision support tools; and,
- Providing longitudinal data on educational progress over time.

The PIMS Postsecondary Perkins User Manual describes the data elements and templates postsecondary administrators submit to the system in order to comply with the federal Strengthening Career and Technical Education for the 21st Century Act (Perkins V), as well as the collection timelines. The PIMS Postsecondary Perkins CTE student data set is connected to the Career and Technical Education Information System (CATS) for approved articulation agreements.

Collection Information & Process

Who Must Report

Postsecondary institutions should report all students enrolled in a Perkins postsecondary program at any time during the July 1 – June 30 academic year. To be defined as a Perkins postsecondary program the program must meet the following criteria:

- Each program must be in compliance with Pennsylvania statutes, regulations, and policies.
- Each program shall be a career and technical education (CTE) program, offering a sequence of courses that provides individuals with rigorous academic content and relevant technical knowledge and skills needed to prepare for further education and careers in current or emerging professions, which may include high-skill, high-wage, or in-demand industry sectors or occupations, as required by Perkins V.
- Each program shall be a credit-based program and shall be identified with an accepted Classification of Instructional Program (CIP) code.
- Each program shall have a statement of objectives that will be printed in the institution's catalog. The statement must indicate institutionally that the program is designed for job placement incorporating employment-related job skills and knowledge. The catalog must indicate that the program is primarily occupational.
- Each program shall have an occupational objective that is consistent with gainful employment opportunities (as opposed to volunteer) available at the local, regional, or state level.
- Each program shall involve a planned coherent sequence of courses, and also shall have at institutionst 50 percent of the course work (minimum of 15 credit hours) devoted to the development of directly related job skills and knowledge including, but not necessarily limited to: training labs, work experience, on-the-job cooperative experience, and clinical work.
- Each program shall be designed in such a way that all postsecondary-level requirements, including requirements for admission to the program or for courses within the program, can be completed in two calendar years (24 months) or less when pursued by a full-time student.
- Each program must offer formal recognition for completion. Acknowledgment may be an associate degree, diploma, certificate, or other recognition, including registered apprenticeship, which is less than a baccalaureate degree.

- Each program must be under the direct control of the institution regarding curriculum, faculty, admissions, work experience, on-the-job cooperative experience, and clinical work.

Note: Other programs meeting the above criteria, but planned to be listed in the institution's official catalog, will be evaluated for approval with submission of proper documentation to the Bureau of Career and Technical Education (BCTE).

PIMS Templates

PS Student Institution Template

The *PS Student Institution* template contains basic demographic information regarding an institution's students. Submit one record for each student enrolled in a postsecondary Perkins program at any time during the academic year.

The specification for this template is in the *Postsecondary Perkins User Manual Volume One*.

Campus Student Program Fact Template

This template is for the collection of various "data items" such as the Perkins Industry Credential Earned Indicator and the Pell Grant Indicator. Instead of submitting one record per student, institutions will submit one record per data item per student. There are five required and seven conditionally required data items.

The specification for this template is in the *Postsecondary Perkins User Manual Volume One*.

Students may only be reported in one Program Code at the school level. If the student was enrolled in more than one Program Code during the reporting year, you must report the student only once at the school level and choose one program (CIP Code) to report. Approved program codes are listed in Appendix B – Perkins Postsecondary CIP Codes in the *Postsecondary Perkins User Manual Volume Two*.

NOTE: Students that are enrolled in a postsecondary program but did not graduate high school **cannot** be reported.

Timeline

Date or Time Frame

- **Collection Window: 8/1 to 8/31**

Timeframe for institutions to officially submit their template data into PIMS.

Institutions must run their student data quality control reports before finalizing their submission. Institutions must make all necessary corrections identified in these reports.

- **Correction Window: 9/1 to 9/15**

Allows institutions to address submission deficiencies identified by PDE personnel during the follow-up review and editing window.

- **Accuracy Certification Statement (ACS) Due Date: 9/15**

Institutions should (1) generate and review the PIMS CTE data quality control reports available within the PIMS Reports application within MyPDESuite and (2) make any required and/or needed PIMS data corrections based on these reports. Note: The PIMS CTE data quality control reports served the purpose of both informing your institution's PIMS users and/or CTE professional staff of questionable or erroneous PIMS CTE student-level data and providing supporting, detailed, aggregate, CTE enrollment statistics at the school and program-level for local verification.

PDE personnel cannot begin processing the Consolidated Annual Report (CAR) until all signed and initialed ACSs have been received by PDE.

Reports

PIMS Reports

PIMS reports for this data set can be found at the following locations:

PIMS CTE Secondary Student Data Quality Control Reports

Location: MyPDESuite > PIMSReportsV2 > Postsecondary > Perkins > Student Level
– QC and Verification

QC Rpt01 - PS Student Institution IDs Not in Campus Student Program Fact - Report used to inform the institution when students within the *PS Student Institution* data were not found within institution's *Campus Student Program Fact* data (creating situation of an incomplete CTE student record within PIMS).

QC Rpt02 - Students Reported in More Than One Program Code for a Campus- Report used to inform institutions of any CTE students within *Campus Student Program Fact* submission that were reported with multiple Program Codes (CIP Codes) at the school level. Students must be reported only be reported in one Program Code at the school level within *Campus Student Program Fact* submission.

QC Rpt03 - List of Statistically Countable Perkins CTE Students by Campus and Program – Report lists students considered to be statistically countable as a Perkins CTE enrollees by school and program. A student is statistically counted as a Perkins CTE enrollee only when data related specifically to the student's PAsecureID is reported by an educating institution on both PIMS *Campus Student Program Fact and PS Student Institution* templates. Review this list to determine if PIMS student records need to be added, deleted or modified.

QC Rpt03A - Perkins CTE Enrollments by Campus and Program - Report lists students considered to be statistically countable as a Perkins CTE enrollees by school and program. A student is statistically counted as a Perkins CTE enrollee only when data related specifically to the student's PAsecureID is reported by an educating institution on both PIMS *Campus Student Program Fact and PS Student Institution* templates. Review this list to determine if PIMS student records need to be added, deleted or modified.

QC Rpt03B - Verify List of CTE Students with Program of Study Articulated Credits - Report lists students considered to be statistically countable as a CTE program enrollees reported as having Program of Study Articulated Credits (POSAC) formally applied to the student's enrollment in the reported Program of Study (POS) articulated CIP and credited to the completion requirements of the student's reported program CIP. The Perkins Administrator and or POS coordinator may need to review this list to determine if PIMS student records need to be added, deleted, or modified.

QC Rpt03C – Verify List of CTE Students with Local Articulated Credits -

Report lists students considered to be statistically countable as a CTE program enrollees reported as having Local Articulated Credits (LAC) formally applied to the student's enrollment in the reported Local articulated CIP and credited to the completion requirements of the student's reported program CIP. The Perkins Administrator and or POS coordinator may need to review this list to determine if PIMS student records need to be added, deleted, or modified.

QC Rpt04 - Errors for Invalid Data Element Relationships for Perkins CTE Students- Report used to inform institutions of the following:

- Perkins CTE students were reported with a Degree Awarded Code and no student program End Date.
- Perkins CTE students were reported with an invalid student program End Date on the Campus Student Program Fact template.
- Perkins CTE students were reported with an invalid student program Start Date on the Campus Student Program Fact template.
- Birth dates that likely need to be corrected.
- Perkins CTE students were reported as receiving a Pell Grant but were not reported as being Economically Disadvantaged.
- Perkins CTE students were reported with a Degree Awarded Code with less than 12 combined cumulative occupational and cumulative academic credits completed.

QC Rpt05 - Warnings for Questionable Data Element Relationships for Perkins CTE Students - Report used to inform institutions of the following:

- Perkins CTE students were reported with a questionable student program Start Date on the Campus Student Program Fact template.
- Perkins CTE students were reported with a student program End Date and no Degree Awarded Code.

Postsecondary Perkins CTE Enrollment Accuracy Certification Statement

(ACS) - Report used to provide institution-level aggregate statistics for Perkins CTE students broken out for the following data group categories and grade level for review and verification. The PIMS (ACS), for the chief school administrator to sign, prints as the front cover page of this institution aggregate statistical report. The original signed ACS form and associated institution summary Perkins CTE statistical report must be e-mailed to PDE and becomes part of the auditable institution submission review folder.

Frequently Asked Questions

PS Student Institution

1. What should institutions report for the Single Parent Indicator if they are unsure whether the student is a parent of a minor?

Only report “YES” if the institution is certain the student is a parent of a minor.

2. A student is in a “pre” program. Are they eligible for Perkins funding?

No. Students must be in programs that fulfill the items in the section entitled Postsecondary Perkins Students to be reported in PIMS. “Pre” programs do not have a “formal recognition of completion” to qualify as a Perkins-funded program.

Campus Student Program Fact

1. What values should be reported in the Cumulative Occupational Credits for students who take only Pass/Fail courses, or who have not completed any courses and therefore do not have any credits?

A value of 0 can be reported for the Cumulative Occupational Credits Completed data item for students who have not successfully earned (passed) any occupational credits related to the student’s reported primary Perkins program (CIP). Pass/Fail courses/credits successfully completed (passed) should be included in the Cumulative Occupational Credits Completed data item.

2. How should institutions handle duplicate student records for students who exit and return to the institution, or students who are enrolled in multiple Perkins eligible programs?

Institutions should submit only one set of records per student. The demographic information should be the most recent available, and the program specific details should be the student’s primary, Perkins eligible, area of study. If the primary area of study cannot be determined it is up to the institution to select a single record.

3. What should be reported for the degree awarded data items for students who have not earned a degree in the academic year of the submission?

Conditionally required fields are not required to be reported if the response is no.

IMPORTANT NOTE: At times, PDE is required to base the reporting of POSAC and LAC credits earned by students on **ONLY APPROVED ARTICULATION AGREEMENTS FOR A SPECIFIC SCHOOL YEAR**; therefore, institutions are responsible for making certain that an accurate up-to-date record of articulation agreements by their specific approved programs are properly recorded within CATS on an annual basis.

Appendices

Appendix A – PIMS Postsecondary Data Collection Calendar

The dates for the collection and correction window and the due date for the Accuracy Certification Statement are available in the *PIMS Postsecondary Data Collection Calendar* located on PDE’s website.

To access the *PIMS Postsecondary Data Collection Calendar*:

1. Go to [PDE Website](http://www.education.pa.gov) (www.education.pa.gov)
2. Click Data and Reporting
3. Select PIMS Postsecondary
