Certification Required	Certification Method	Occupational Competency Area	Occupational Competency Evaluation
Career and Technical/Instructional 2600	Career and Technical-Instructional (non- degree program)	Audio-Visual Communications Technology 2510	Audio-Visual Communications Technology

Description: A program that prepares individuals to communicate dramatic information, ideas, moods and feelings through the making and producing of films and videos. Includes instruction in film theory, film technology and equipment operation, film production, film directing, film editing, cinematographic art, film audio, techniques for making specific types of films and/or videos, media technologies, computer image making, multi-media production and the planning and management of film/video operations.

Notes: A person who holds a Pennsylvania Educational Specialist Certificate endorsed for Instructional Media Services is required to augment such certification with vocational instructional certification for Audio-Visual Communications Technology (2510) to teach this program. The vocational teacher-preparing institution shall accord reasonable flexibility under provisions of 49.68 certification regulations concerning prior educational preparation to persons who successfully complete the occupational competency exam for Audio-Visual Communications Technology (2510).
