Career Cluster: Health Science

Certification Required	Certification Method	Occupational Competency Area	Occupational Competency Evaluation
Career and Technical/ Instructional 2600	Career and Technical-Instructional (non- degree program)	Medical Records Technology 2206	Credential Review

Description: A program that prepares individuals, under the supervision of health information administrators and other professionals, to construct medical records and clinical databases, perform manipulations on retrieved data, control the security and quality of records, and supervise data entry and technical maintenance personnel. Includes instruction in clinical and biomedical science data and information requirements, database management, data coding and validation, information security, quality control, health information content and structure, medical business procedures, and legal requirements. Clinical education is an integral part of the program.

Notes:
