						Improvement plan to review the process of identification of special ed. Students specifically focusing on students with Specific Learning Disabilities.	<p>All students are reviewed at least three times per year using the fall, winter, and spring DIBELS data, any additional data that can be attained thru classroom assessments, informal observations, outside agency sources, as well as parent and teacher input . This data is used for intervention groups (WIN) which are fluid. The decision making team includes the reading specialists, principal, homeroom teacher, special ed. Director and others as applicable. Students should be brought up as a concern at the data meetings, however if there are move ins or students that become a concern, the teacher should email the entire data team. This group determines interventions for any struggling learner. The six member data team also meets monthly and sometimes more frequently to discuss any concerns or struggling learners. We will begin using Sapphire to document all interventions provided. Homerooms teachers should document in Sapphire all PHONE CALLS (not texts or emails) to parents/ guardians. This documentation is somewhat similar to what happened in the CST process.</p> <p>Evidence of Change: The BSE adviser will review all documents of meetings and review of MTSS structure to ensure that the LEA is meeting their Child Find Obligation. The BSE adviser will review all documentation regarding updated child find procedures.</p>	07/15/2020 IU Staff, PaTTAN staff
